**ORDER**

**Adopted: April 12, 2016**

**Released: April 12, 2016**

By the Chief, Enforcement Bureau:

1. The Enforcement Bureau (Bureau) of the Federal Communication’s Commission has entered into a Consent Decree to resolve its investigation into whether American Time & Signal Company (ATS) operated wireless synchronized clock systems under station WQFW336 out of compliance with the terms of its license. To settle this matter, ATS admits that it allowed certain of its synchronized clock systems customers to operate transmitters under its temporary-fixed license in the same location for more than one year in violation of the Commission’s rules, will implement a compliance plan to ensure this does not occur again, and will pay a \$12,000 civil penalty.

2. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree and terminating the referenced investigation into ATS’s compliance with Section 90.137(b) of the Commission’s rules.<sup>1</sup>

3. In the absence of material new evidence relating to this matter, we do not set for hearing the question of ATS’s basic qualifications to hold or obtain any Commission license or authorization.<sup>2</sup>

4. Accordingly, **IT IS ORDERED** that, pursuant to Section 4(i) of the Act<sup>3</sup> and the authority delegated by Sections 0.111 and 0.311 of the Rules,<sup>4</sup> the attached Consent Decree **IS ADOPTED** and its terms incorporated by reference.

5. **IT IS FURTHER ORDERED** that the above-captioned investigation **IS TERMINATED**.

6. **IT IS FURTHER ORDERED** that a copy of this Order and Consent Decree shall be sent by first class mail and certified mail, return receipt requested, to Mr. George Wilkes, President, American

**CONSENT DECREE**

The Enforcement Bureau of the Federal Communications Commission and American Time & Signal Company, by their authorized representatives, hereby enter into this Consent Decree for the purpose of terminating the Enforcement Bureau's investigation into whether American Time & Signal Company violated Section 90.137(b) of the Commission's rules<sup>1</sup> regarding the operation of wireless synchronized clock systems under station WQFW336.

## II. BACKGROUND

2. At all relevant times, the frequencies licensed to ATS under WQFW336 were authorized for temporary fixed operations.<sup>5</sup> Pursuant to Section 90.137(b) of the Rules, when any unit or units of a base station or fixed station that are authorized for operation at temporary locations actually remain or are intended to remain at the same location for more than one year, an application for a separate authorization specifying the fixed location shall be submitted to the Commission as soon as possible, but not later than 30 days after the expiration of the one-year period.<sup>6</sup>

3. On September 1, 2009, the Bureau issued a letter of inquiry to ATS directing it to submit a sworn written response to a series of questions relating to its operation of wireless synchronized clock systems under the License.<sup>7</sup> ATS responded to the September 2009 LOI on September 29, 2009.<sup>8</sup> This response indicated that ATS was allowing certain of its synchronized clock system customers to operate temporary fixed transmitters pursuant to the License at the same location for more than one year.

4. On December 28, 2011, ATS petitioned the Commission for waiver of the definition of mobile units under Section 90.7 of the Commission's Rules<sup>9</sup> to allow licensing of its temporary fixed transmitters as mobile units.<sup>10</sup> On November 29, 2012, the Commission issued a Waiver Order granting that petition with the requirements that (1) each customer location have a geographical center point and an operating radius not to exceed 20 kilometers, and (2) ATS retained the responsibility for maintaining the accuracy of its licensed sites via modifications to the License.<sup>11</sup> ATS subsequently began to license the fixed transmitters operating under the License as mobile units and by November 2015 all such transmitters were so registered.<sup>12</sup> ATS acknowledges that multiple transmitter sites operated under the License for more than one year at a fixed location prior to being licensed as mobile units pursuant to the Waiver Order.<sup>13</sup> Following resolution of ATS's compliance issue, the company and the Bureau entered into settlement negotiations.
