DA No. 16-752
Friday July 1, 2016

Report No. SAT-01171

Policy Branch Information Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective date of these actions is the release date of this Notice, except where an effective date is specified.

SAT-STA-20160622-00057 E S2934 Intelsat License LLC
Special Temporary Authority
Grant of Authority

Effective Date: 06/30/2016

On June 30, 2016, the Satellite Division granted, with conditions, special temporary authority to Intelsat License LLC, for a period of 30 days, to continue to conduct in-orbit testing of the Intelsat 31 space station at the 132.0° W.L. orbital location using the 3400-3700 MHz (space-to-Earth), 6425-6725 MHz (Earth-to-space), 10.95-11.2 GHz (space-to-Earth), 11.45-12.2 GHz (space-to-Earth), and 13.75-14.5 GHz (Earth-to-space) frequency bands. Intelsat was also authorized to conduct telemetry, tracking, and command operations necessary to maintain Intelsat 31 at the 132.0° W.L. orbital location during in-orbit testing, and to effect the drift of Intelsat 31 to the 95.05° W.L. orbital location upon completion of in-orbit testing, using the following center frequencies: 11194.25 MHz, 11195.5 MHz, 11196.25 MHz, 11196.75 MHz (space-to-Earth); and 13998.5 MHz and 14006.0 MHz (Earth-to-space).

INFORMATIVE

SAT-LOA-20151123-00078 S2946 Spire Global, Inc.

On June 30, 2016, the Satellite Division determined that Spire Global, Inc. has met the final milestone associated with its license to deploy and operate nine additional satellites for its non-geostationary orbit Earth Exploration Satellite Service LEMUR constellation. See IBFS File No. SAT-LOA-20151123-00078 (granted in part/deferred in part, Mar. 18, 2016). Spire has confirmed that eight of the nine satellites have been deployed and are operational and that the remaining satellite failed to deploy for reasons beyond Spire's control and was lost. See Letter from Tony Lin, Counsel to Spire Global, Inc. to Marlene H. Dortch, FCC, dated June 29, 2016. The Satellite Division had previously extended the deadline for Spire to file its bond for the nine satellites through July 18, 2016. Since Spire has met the final milestone associated with its license, there is no need for Spire to post the bond required in paragraph 6 of its license conditions. The Satellite Division also dismissed as moot Spire's remaining request to waive the bond filing requirement for the nine satellites.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 1-888-835-5322.
