PUBLIC SAFETY AND HOMELAND SECURITY BUREAU SEEKS COMMENT ON REGION 30 (NEW YORK-ALBANY) 700 MHZ REGIONAL PLAN AMENDMENT

WT Docket No. 02-378

Comments Due: August 19, 2016

Introduction. On October 21, 2015, the Region 30 (New York-Albany)¹ 700 MHz Regional Planning Committee (RPC) submitted a proposed modification (Plan Amendment) to amend its 700 MHz Public Safety Plan² for General Use spectrum in the 769-775/799-805 MHz band.³ For the reasons discussed below, we seek comment on the Region 30 700 MHz Plan Amendment.

Background. In 1998, the Commission established a structure to allow RPCs optimal flexibility to meet state and local needs, encourage innovative use of the spectrum, and accommodate new and as yet unanticipated developments in technology and equipment.⁴ The Commission's rules require each of the fifty-five RPCs to submit its plan for the General Use spectrum.⁵ The Commission's role in relation to the RPCs is limited to (1) defining the regional boundaries; (2) requiring fair and open procedures, *i.e.*, requiring notice, opportunity for comment, and reasonable consideration; (3) specifying the elements that

¹ The Region 30 (New York-Albany) 700 MHz regional planning area consists of the thirty-one counties in upstate New York: Albany, Broome, Cayuga, Chenango, Clinton, Columbia, Cortland, Delaware, Essex, Franklin, Fulton, Green, Hamilton, Herkimer, Jefferson, Lewis, Madison, Montgomery, Oneida, Onondaga, Oswego, Otsego, Rensselaer, St. Lawrence, Saratoga, Schenectady, Schoharie, Tioga, Tompkins, Warren, and Washington.

² See Letter from Lee Shurtleff, Chair, Region 30 (New York-Albany) 700 MHz Regional Planning Committee, to Public Safety and Homeland Security Bureau, Federal Communications Commission, WT Docket No. 02-378 (dated October 21, 2015) (Cover Letter) and accompanying Plan Amendment.

³ The General Use spectrum is administered by RPCs and is licensed by the Commission for public safety services on a site-by-site basis in accordance with the relevant Commission-approved regional plan and frequency coordination.

⁴ See 47 CFR § 90.527; see also *Development of Operational, Technical and Spectrum Requirements for Meeting Federal, State and Local Public Safety Agency Communication Requirements Through the Year 2010*, First Report and Order and Third Notice of Proposed Rulemaking, 14 FCC Rcd 152 (1998) (*First Report and Order*); *Development of Operational, Technical and Spectrum Requirements for Meeting Federal, State and Local Public Safety Agency Communication Requirements Through the Year 2010*, Second Memorandum Opinion and Order, 15 FCC Rcd 16844 (2000).

⁵ See 47 CFR § 90.527. Each RPC must incorporate certain common elements into its 700 MHz plan. A list of 700 MHz RPCs and region activities is available at <http://www.fcc.gov/pshs/public-safety-spectrum/700-MHz/>.

all regional plans must include; and (4) reviewing and accepting proposed plans (or amendments to approved plans) or rejecting them with an explanation.⁶

On October 17, 2014, the Commission adopted a *Report and Order* revising the rules governing the 700 MHz public safety narrowband channels.⁷ Specifically, in non-T-Band markets, the Commission released the former narrowband reserve channels (twenty four 12.5 kHz channels) for General Use under the administration of the RPCs for the benefit of state and local public safety users.⁸

In the T-Band markets,⁹ the Commission released the former reserve channels for General Use under RPC administration with priority access given to T-Band incumbents within 128 km of the city center coordinates as specified in Sections 90.303 and 90.305¹⁰ of the Commission's rules. Priority access is also afforded any T-band incumbent that received a waiver of the 128 km distance requirement.¹¹ Outside the T-Band markets the Commission authorized the RPCs to assign (1) up to eight 12.5 kHz former reserve channels for deployable trunked systems and (2) sixteen 12.5 kHz channels for General Use, including vehicular mobile repeaters (MO3).¹² Thus, the Commission stated, "RPCs have the flexibility to designate a mixture of General Use and temporary (deployable trunked infrastructure) channels in their Regional Plans."¹³

On January 9, 2015, the Public Safety and Homeland Security Bureau (PSHSB) provided guidance on licensing the former reserve channels.¹⁴ On April 23, 2015 the PSHSB approved the channels recommended by the National Public Safety Telecommunications Council (NPSTC) and the National Regional Planning Council (NRPC) for deployable trunked systems.¹⁵ Regional plan amendments were due by October 30, 2015.¹⁶

Region 30 Major Amendments. The Region 30 Plan Amendment changes its plan so as to incorporate the former reserve spectrum.¹⁷ Specifically, the Region 30 Plan Amendment designates six former reserve channels for deployable trunked systems as recommended by NPSTC and the NRPC.¹⁸ Region 30 designates the remaining 18 former reserve channels for general use.¹⁹ Region 30 also amends the following sections:

- Section 3 – Bylaws
- Section 5 – Procedure for Requesting Spectrum Allotments, including recommended prioritization for spectrum requests²⁰
- Section 6– Application Requirements and Appendix E, Application Package Checklist
- Section 10 – Administration of Low Power Channels

All regions adjacent to Region 30 – Region 8 (New York – Metropolitan area); Region 19 (New England); Region 28 (Delaware, Eastern Pennsylvania and Southern New Jersey); and Region 55 (New York-Buffalo) – reviewed the Region 30 Plan Amendment and provided letters of concurrence.²¹ We have reviewed the Region 30 Plan Amendment and tentatively accept the Plan Amendment.²²

Request for Comments on the Region 30 Plan Amendment. Prior to taking further action on the Plan Amendment, by this *Public Notice* we solicit comments on the Region 30 Plan Amendment. If no party raises an objection during the comment period, the Region 30 Plan Amendment will be deemed approved without further action by the PSHSB.²³

Pursuant to Sections 1.415 and 1.419 of the Commission’s rules, 47 CFR §§ 1.415, 1.419, interested parties may file comments on the plan amendment on or before **August 19, 2016**. All comments should reference the subject plan amendment and **WT Docket No. 02-378**. Parties may file comments by using (1) the Commission’s Electronic Comment Filing System (ECFS), (2) the Federal Government’s eRulemaking Portal, or (3) by filing paper copies. *See* Electronic Filing of Documents in Rulemaking Proceedings, 63 FR 24121 (1998).
