OFFICE OF ENGINEERING AND TECHNOLOGY
ANNOUNCES RELEASE OF VERSION 2.2.4 OF *TVStudy*

GN Docket No. 12-268
MB Docket No. 16-306

The Office of Engineering and Technology announces the release of updated *TVStudy* software (Version 2.2.4).¹ The *TVStudy* Version 2.2.4 software installation package, the *TVStudy* 2.2.4 Installation and Upgrade Guide, and the post-auction template XML file are all available on the *TVStudy* website at <http://www.fcc.gov/oet/tvstudy>. As with prior updates, a full list of changes from *TVStudy* Version 2.2.3 is included in the “Differences Between 2.2.4 and 2.2.3” section of the Change Log in the *TVStudy* 2.2.4 Installation and Upgrade Guide.

TVStudy 2.2.4 contains several new features, including a widely-requested feature allowing users to customize records or limit the records to be evaluated in a TV Interference Check study. It also corrects a handful of minor issues, including one that occasionally caused larger studies to receive a “leaf count too high” error.

For further information regarding the *TVStudy* software and to submit bug reports, contact Mark Colombo at (202) 418-7611 or Mark.Colombo@fcc.gov.
