## WIRELINE COMPETITION BUREAU TO ARCHIVE SECURE DATA ENCLAVE FOR ACCESSING HIGHLY CONFIDENTIAL BUSINESS DATA SERVICES (SPECIAL ACCESS) DATA

WC Docket Nos. 16-143, 15-247, 05-25; RM-10593

In this Public Notice, the Wireline Competition Bureau (Bureau) announces that as of December 31, 2017 all data and work product stored in virtual lockers in the secure data enclave used by authorized parties for accessing and analyzing highly confidential data filed in the business data services (special access) proceeding will be saved and archived pending judicial review of the *Business Data Services Order*.<sup>1</sup>

As we announced, in a Public Notice released on October 2, 2017, the secure data enclave will close on December 31, 2017.<sup>2</sup> The secure data enclave is the exclusive method for parties to access and analyze highly confidential data collected and used consistent with protective orders in this proceeding,<sup>3</sup> including information from providers and purchasers of circuit- and packet-based dedicated services.<sup>4</sup> The National Opinion Research Center dba NORC at the University of Chicago (NORC) has hosted the secure data enclave via a virtual private network (VPN) or in-person at NORC facilities in Bethesda,

Maryland. Consistent with the protective orders, authorized parties have saved information, notes, and analysis in support of their participation in the proceeding in “virtual lockers” located in the data enclave. Beginning December 31, 2017, parties will no longer have access to the secure data enclave hosted by NORC, including notes and analysis contained in the virtual lockers.<sup>5</sup>

Archiving data and virtual lockers will allow the Commission to provide parties access to the data in the enclave and related work product in the virtual lockers should doing so become necessary as a result of the judicial review of the *Business Data Services Order*. We therefore revise the guidance we provided in the *NORC Closure Public Notice*, and now announce that the virtual lockers will not be deleted after the data enclave hosted by NORC closes on December 31, 2017. Instead, all data contained in the data enclave, as of December 31, 2017, including all data, notes and analysis stored in the virtual lockers, will be saved and archived pending judicial review of the *Business Data Services Order*.<sup>6</sup>
