APPLICATION OF THE ALASKA WIRELESS NETWORK, LLC, AND NEXTEL WEST CORP. FOR APPROVAL OF A LONG-TERM *DE FACTO* TRANSFER SPECTRUM LEASING ARRANGEMENT INVOLVING 800 MHZ SMR LICENSES IN ALASKA

NUMBERING RESOURCE UTILIZATION AND FORECAST REPORTS AND LOCAL NUMBER PORTABILITY REPORTS TO BE PLACED INTO THE RECORD, SUBJECT TO PROTECTIVE ORDER

WT Docket No. 17-63 CC Docket No. 99-200

The Alaska Wireless Network, LLC, a wholly owned subsidiary of GCI Communication Corp. (together with The Alaska Wireless Network, LLC, AWN), and Nextel West Corp., a wholly-owned indirect subsidiary of Sprint Corporation (Sprint, and together with AWN, the Applicants), have filed an application pursuant to Section 310(d) of the Communications Act of 1934, as amended,¹ seeking Commission approval of a long-term *de facto* transfer spectrum leasing arrangement. AWN would lease from Sprint spectrum under two 800 MHz SMR licenses covering Alaska. On April 5, 2017, the Commission accepted the application for filing and established a pleading cycle for the proposed transaction.²

In connection with the Commission's review of the proposed transaction, the Commission intends to examine information contained in the biannual Numbering Resource Utilization and Forecast (NRUF) reports filed by wireless telecommunications carriers, ³ carrier-specific local number portability (LNP) data related to wireless telecommunications carriers, and further disaggregated monthly carrier-specific local number portability data (Carrier-to-Carrier LNP Data) related to wireless telecommunications carriers. These data may assist the Commission in assessing the competitive effects of the transaction. Accordingly, subject to the provisions of a protective order (NRUF Protective Order) being adopted this day,⁴ the Commission intends to place into the record in this proceeding:

• NRUF reports for all wireless telecommunications carriers concerning data as of June 30, 2014, December 31, 2014, June 30, 2015, December 31, 2015, June 30, 2016, and December 31, 2016 (when available).

⁴ Application of Alaska Wireless Network, LLC, and Nextel West Corp. for Approval of a Long-Term De Facto Transfer Spectrum Leasing Arrangement, WT Docket No. 17-63, NRUF/LNP Protective Order, DA 17-323 (WTB Apr. 5, 2017).

- Wireless-to-wireless LNP data for all wireless telecommunications carriers from the June 30, 2014, December 31, 2014, June 30, 2015, December 31, 2015, June 30, 2016, and December 31, 2016 (when available) LNP databases that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows the total number of ports in and ports out per carrier.
- Wireless-to-wireless Carrier-to-Carrier LNP Data for all wireless telecommunications carriers, on a monthly basis, from the June 2014 to June 2016 LNP databases (and any updates that may become available during the pendency of the Commission's review of the Application) that the Commission receives from the LNP Administrator, NeuStar, Inc. This LNP data shows, on a monthly basis, the specific number of ports from each wireless carrier to another carrier in each area.

Section 251 of the Communications Act grants the Commission jurisdiction over the North American Numbering Plan (NANP) and related telephone numbering issues.⁵ To monitor better the way numbering resources are used within the NANP and allocate NANP resources efficiently, the Commission requires telecommunications carriers to provide the Commission with a utilization report of their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.⁶ LNP data are collected by the LNP Administrator and provided to the Commission.

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).⁷ The NRUF and LNP reports will be placed into the record subject to the provisions of the NRUF Protective Order. As such, the NRUF and LNP data will not be available to the public except pursuant to the terms of the NRUF Protective Order, as outlined below.

Persons seeking to review the NRUF or LNP data may do so only for purposes of participating in this proceeding. Pursuant to the NRUF Protective Order, outside persons participating or intending to participate in the proceeding who are not involved in competitive decision-making activities and who have signed the Acknowledgment of Confidentiality attached to the NRUF Protective Order may review the NRUF and LNP data. We emphasize that persons seeking to review the NRUF or LNP data must have adequate protections in place to prevent improper use or disclosure of the information.

Affected parties have until <u>April 17, 2017</u> to oppose disclosure of their NRUF and LNP data. In addition, affected parties will have three business days after the filing of an Acknowledgment of Confidentiality to object to the release of the data to a particular person who requests permission to review it.

If the Commission receives no opposition from affected parties by April 17, 2017, the Commission will place the NRUF, LNP, and Carrier-to-Carrier LNP data into the record subject to the safeguards contained in the NRUF Protective Order. If disclosure is opposed, the procedures set forth in 47 C.F.R. § 0.461(i) shall apply. All filings should refer to WT Docket No. 17-63.

Under the Commission's current procedures for the submission of filings and other documents,⁸ submissions in this matter may be filed electronically through the Commission's Electronic Comment Filing System (ECFS) or by hand delivery to the Commission.

• **To file electronically**,⁹ comments shall be sent as an electronic file via the Internet to http://apps.fcc.gov/ecfs. In completing the transmittal screen, commenters should include their
