INFORMATIVE

SAT-LOI-20160208-00016 S2954 ViaSat, Inc.

On October 5, 2016, the Satellite Division granted market access to ViaSat, Inc. to provide Fixed-Satellite Service in the United States using a proposed space station, VIASAT-133W (Call Sign S2954), at the 132.9° W.L. orbital location under the authority of the United Kingdom. ViaSat did not post the bond as required by Section 25.165 of the Commission's rules and a condition to its market access grant. Accordingly, the grant of market access became null and void on November 4, 2016. The market access grant specified the 18.3-18.8 GHz, 18.8-19.3 GHz, and 19.7-20.2 GHz (space-to-Earth), and 28.1-28.35 GHz, 28.35-28.6 GHz, 28.6-29.1 GHz, and 29.5-30.0 GHz (Earth-to-space) frequency bands. Effective 2:00 p.m. EDT on Tuesday, June 13, 2017 parties may file for space station authorizations and U.S. market access that otherwise would have been mutually exclusive with ViaSat's grant. Such requests filed prior to this date and time will be dismissed as premature without prejudice to refile.
