PARTIES ASKED TO REFRESH THE RECORD REGARDING 8YY ACCESS CHARGE REFORM

WC Docket Nos. 10-90 and 07-135
CC Docket No. 01-92

Comment Date: July 31, 2017
Reply Comment Date: August 15, 2017

By this Public Notice, the Wireline Competition Bureau (Bureau) invites interested parties to update the record on issues raised by the Commission in the *2011 ICC Transformation FNPRM* with respect to access charges for 8YY (toll free) calls.¹

On May 19, 2017, the Ad Hoc Telecommunications Users Committee (Ad Hoc) filed an *ex parte* letter, urging the Commission to “restore the historic treatment of 8YY traffic for access charge purposes, pursuant to which carriers are required to apply the per minute charges for terminating traffic to the originating or ‘open’ end of 8YY calls.”² Ad Hoc also notes AT&T’s recent observation that arbitrage and access stimulation schemes are increasingly shifting to 8YY service.³

In light of the developments that have occurred in the relevant markets since the *2011 ICC Transformation FNPRM*, including the transition of certain terminating switched access rates to bill-and-keep, and any changes in 8YY traffic volumes, we seek to refresh the record on 8YY access charges. For example, we seek comment on whether we should adopt a distinct resolution for 8YY originating traffic and how such a resolution would be implemented. We encourage commenters to submit updated data on the relative proportion of 8YY originated minutes to traditional originated minutes to support any proposed resolution. We also invite parties to address other 8YY-related intercarrier compensation issues raised in the record of the *2011 ICC Transformation FNPRM* and to update the record on 8YY-related developments that have occurred since the release of the *2011 ICC Transformation Order*.⁴
