NOTICE OF PROPOSED RULE MAKING

Adopted: February 14, 2018

Released: February 14, 2018

Comment Date: April 9, 2018

By the Assistant Chief, Audio Division, Media Bureau:

1. The Audio Division has before it a Petition for Rule Making filed by The Chickasaw Nation (Petitioner), and an associated FCC Form 301 application.1 Petitioner proposes to amend the FM Table of Allotments, section 73.202(b) of the Commission’s rules,2 by allotting FM Channel 247A at Connerville, Oklahoma, as a first local Tribal-owned service. Petitioner seeks a Tribal Priority for the proposed allotment. In this Notice of Proposed Rule Making, we seek comment on that proposal.

2. Background. In Rural Radio,3 the Commission concluded that it would serve the public interest to establish a priority under section 307(b) of the Communications Act of 1934, as amended,4 in favor of Tribal Entities proposing the allotment of FM radio channels to serve Tribal lands.5 The rationale for this determination was that “the establishment of an allocation priority for the provision of radio service to tribal lands by Indian tribal government-owned stations will advance our Section 307(b) goals and serve the public interest by enabling Indian tribal governments to provide radio service tailored to the needs and interests of their local communities that they are uniquely capable of providing.”6

3. The Commission instituted several requirements for a Tribal Allotment.7 Those requirements pertain to the identity of the applicant, the land and population covered by the principal

7 In order to satisfy the prerequisites for a Tribal Allotment, the following requirements must be met: “(A) The applicant is either a federally recognized Tribe or Tribal consortium, or an entity 51 percent or more of which is owned or controlled by a Tribe or Tribes...; (B)(1) At least 50 percent of the area within the proposed principal community contour is over that Tribe’s Tribal Lands, or (2) the proposed principal community contour (a)

(continued....)

community contour, the location of the proposed community, and the availability of radio services, especially Tribally owned or Tribal Entity owned radio services, at the proposed community.<sup>8</sup>

4. In support of its petition, Petitioner states that The Chickasaw Nation is a federally recognized Tribe<sup>9</sup> and that the Petitioner meets the requirements established in *Rural Radio* for the Tribal Priority. Petitioner states that (1) more than fifty percent of the proposed station's principal community contour is over the boundaries of The Chickasaw Nation Tribal Lands;<sup>10</sup> (2) Connerville, the proposed community of license, is located on The Chickasaw Nation Tribal Lands;<sup>11</sup> and (3) the proposed facility will be the first local Tribal-owned commercial transmission service at Connerville.<sup>12</sup> Petitioner further states that Connerville, Oklahoma, is a community for allotment purposes.<sup>13</sup> Connerville is a census-designated place (CDP) in Oklahoma,<sup>14</sup> with its own zip code,<sup>15</sup> and post office. Moreover, our independent research confirms that Connerville, as a CDP, is a community for allotment purposes.

5. **Discussion.** The facts presented by Petitioner are sufficient to support consideration of the allotment of FM Channel 247A at Connerville, Oklahoma, as a Tribal Allotment. The proposed Tribal Allotment of FM Channel 247A would serve the public interest by providing vital radio service to Connerville and to surrounding Chickasaw Nation Tribal Lands, as well as enabling the Petitioner to set its own communications priorities and goals with respect to such service. Moreover, the allotment would further the public interest by providing a first local Tribal-owned transmission service at Connerville. Finally, the proposed change in the FM Table of Allotments complies with the technical requirements of the Commission's rules.

6. Accordingly, we seek comment on the proposed amendment of the FM Table of Allotments, 47 CFR. Section 73.202(b), by the allocation of FM Channel 247A at Connerville,

encompasses 50 percent or more of that Tribe's Tribal Lands, (b) serves at least 2,000 people living on Tribal Lands, and (c) the total population on Tribal Lands residing within the proposed station's service contour constitutes at least 50 percent of the total covered population...; (C) The proposed community of license must be located on Tribal Lands; and (D) The proposed service must constitute first or second aural (reception) service, or first local Tribal-owned commercial transmission service at the proposed community of license." (Tribal Allotment Criteria). *Third R&O*, 26 FCC Rcd at 17646-47, para. 8. <sup>8</sup> Upon award of a Tribal Allotment, within a reasonable period of time the Commission will release a public notice announcing a Threshold Qualifications Window, during which any qualified applicant will be afforded the opportunity to file FCC Form 301 for the channel allotted as a Tribal Allotment. *Third R&O*, 26 FCC Rcd at 17645-50, paras. 7-15. See also *Second R&O*, 26 FCC Rcd at 2588-90, paras. 62-64. Should no applicant meeting threshold qualifications file FCC Form 301 during the Threshold Qualifications Window (and should the proponent request that its already-filed Form 301 application not be immediately processed), the Tribal Allotment will be included in the inventory for a broadcast auction at a later date. In that event, only threshold qualified applicants, including the original proponent, may specify the Tribal Allotment in their applications to participate in the auction (FCC Form 175). *Third R&O*, 26 FCC Rcd at 17649-50, paras. 12-13.
