DA No. 18-179

Friday February 23, 2018

Report No. SAT-01303

Satellite Policy Branch Information Actions Taken

The Commission, by its International Bureau, took the following actions pursuant to delegated authority. The effective date of these actions is the release date of this Notice, except where an effective date is specified.

SAT-STA-20180108-00005 E S2912 Planet Labs Inc.
Special Temporary Authority
Grant of Authority Effective Date: 02/21/2018

On February 21, 2018, the Satellite Division granted, with conditions, the request of Planet Labs for special temporary authority for a period of 180 days to allow all satellites in the Planet Labs constellation to continue to operate in the 8025-8400 MHz frequency band with the Kongsberg Satellite Services ground station in Troll, Antarctica and the Swedish Space Corporation ground station in Punta Arenas, Chile.

SAT-STA-20180214-00016 E S2972 Intelsat License LLC
Special Temporary Authority
Grant of Authority Effective Date: 02/22/2018

On February 22, 2017, the Satellite Division granted, with conditions, special temporary authority for a period of 7 days to continue to perform in orbit testing of the Intelsat 37e space station at the 84.55° E.L. orbital location and to perform telemetry, tracking and command operations in connection with maintaining Intelsat 37e at 84.55° E.L. and effecting the drift of Intelsat 37e to its authorized orbital location at 18.0° W.L. upon completion of IOT.

CORRECTIONS

SAT-STA-20170921-00135 S2972 Intelsat License LLC

On February 22, 2018, the Satellite Division corrected and reissued the grant stamp for this application that was originally issued on October 2, 2017. The original grant stamp contained a condition stating that: "The U.S. Administration does not consent to use of the Intelsat 37e space station operations herein authorized for claiming bringing into use or continuing the use of frequency assignments." This condition was removed and no longer applies to the grant of this application or subsequent requests for extension of the grant, and is replaced by a new condition stating that the U.S. Administration will not object to the use of Intelsat 37e by the Administration of Papua New Guinea to bring into use or continuing use of orbital assignments at the 85° E.L. orbital location.
