## MOBILITY FUND II CHALLENGE PROCESS PRESENTATION IN MISSISSIPPI

By this Public Notice, the Rural Broadband Auctions Task Force (RBATF) announces an upcoming free presentation on the process for challenging the identification of areas initially deemed ineligible for universal service funding through the Mobility Fund Phase II (MF-II) reverse auction.<sup>1</sup> In 2017, the FCC adopted rules governing the MF-II reverse auction to award up to \$4.53 billion in universal service support for mobile wireless carriers in areas that, absent subsidies, lack adequate mobile voice and broadband coverage.<sup>2</sup> On February 27, 2018, the FCC released a map showing areas across the United States initially deemed eligible to receive support for the provision of 4G LTE service.<sup>3</sup> In order to assist challengers, the FCC has also released a map showing the initially ineligible areas where only one provider has reported qualifying service.

The presentation will focus on the process by which interested parties can challenge the initial map of ineligible areas.<sup>4</sup>
