ORDER

Adopted: July 17, 2018

Released: July 17, 2018

By the Deputy Chief, Enforcement Bureau:

1. The Enforcement Bureau (Bureau) of the Federal Communications Commission has entered into a Consent Decree to resolve its investigation into whether Yaham LED USA, Inc, d/b/a Yaham LED USA (Yaham), violated the Commission's rules by marketing light-emitting diode (LED) signs used in digital billboards and other commercial and industrial applications without the required equipment authorization, labeling, and user manual disclosures. These rules ensure that radio-frequency devices marketed in the United States do not interfere with authorized communications, thereby maintaining network integrity and security and protecting consumers. To settle this matter, Yaham admits that it marketed LED signs without the required equipment authorization, labeling, and user manual disclosures, will implement a compliance plan, and will pay a \$20,000 civil penalty.

2. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree and terminating the referenced investigation regarding Yaham's compliance with the equipment authorization, labeling, and user manual disclosure rules in effect at the time of the violations, Section 302(b) of the Communications Act of 1934, as amended (Act)¹, and Sections 2.803, 2.955, 15.19, 15.21, 15.101, and 15.105 of the Commission's rules.²

3. In the absence of material new evidence relating to this matter, we do not set for hearing the question of Yaham's basic qualifications to hold or obtain any Commission license or authorization.³

4. Accordingly, IT IS ORDERED that, pursuant to Section 4(i) of the Act,⁴ and the authority delegated by Sections 0.111 and 0.311 of the Commission's rules,⁵ the attached Consent Decree IS ADOPTED and its terms incorporated by reference.

5. IT IS FURTHER ORDERED that the above-captioned matter IS TERMINATED.

² 47 CFR §§ 2.803, 2.955, 15.19, 15.21, 15.101, 15.105 (2017). Some of the rules in effect at the time the violations occurred were subsequently amended. The new rules became effective on November 2, 2017. See Amendment of Parts 0, 1, 2, 15, and 18 of the Commission's Rules Regarding Authorization of Radiofrequency Equipment, Report and Order, 32 FCC Rcd 8746 (2017).

6. **IT IS FURTHER ORDERED** that a copy of this Order and Consent Decree shall be sent by first class mail and certified mail, return receipt requested, to Henry Zhang, Registered Agent, Yaham LED USA, Inc., 5525 S. Valley View Boulevard, Suite 9, Las Vegas, NV 89118, and Aaron P. Shainis, Esq., Counsel to Yaham LED USA, Inc., Shainis & Peltzman, Chartered, 1850 M Street NW, Suite 240, Washington, DC 20036.

II. BACKGROUND

3. Section 302 of the Act authorizes the Commission to promulgate reasonable regulations to minimize harmful interference by equipment that emits radio frequency energy.⁷ Specifically, Section 302(b) of the Act provides that “[n]o person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section.”⁸ The purpose of Section 302 of the Act is to ensure that radio transmitters and other electronic devices meet certain standards to control interference before they reach the market.

4. The Commission carries out its responsibilities under Section 302 of the Act in two ways. First, the Commission establishes technical requirements for transmitters and other equipment to minimize their potential for causing interference to authorized radio services. Second, the Commission administers an equipment authorization program to ensure that equipment reaching the market in the United States complies with the technical and administrative requirements set forth in the Rules. The equipment authorization program requires, among other things, that radio frequency devices must be tested for compliance with the applicable technical requirements prior to marketing.⁹ In that regard, Section 2.803(b) of the Rules prohibits the marketing of radio frequency devices unless the device has

first been properly authorized, identified, and labeled in accordance with the Rules, with limited exceptions.¹⁰

5. Yaham is a privately held company that advertises and sells fully-assembled light-emitting diode (LED) signs.¹¹ On July 17, 2017, after reviewing a complaint, the Bureau's Spectrum Enforcement Division issued a Letter of Inquiry (LOI) to Yaham, directing it to submit a sworn written response to a series of questions relating to its marketing of LED signs in the United States.¹² The investigation revealed that Yaham violated the Equipment Marketing Rules by marketing LED signs without the required equipment authorization, labeling, and user manual disclosures, and by failing to retain required test records.¹³ Prior to receiving the LOI, Yaham ceased importing and marketing one model that had caused interference.¹⁴ After receiving the LOI, Yaham began the process of bringing its LED signs into compliance with the Equipment Marketing Rules by marketing them with the proper labels and user manual disclosures.¹⁵ The Company achieved compliance with the relevant Equipment Marketing Rules on June, 20, 2018, for the LED signs at issue.¹⁶

6. The Bureau and Yaham negotiated the following terms and conditions of settlement and hereby enter into this Consent Decree as provided herein.
