WIRELINE COMPETITION BUREAU ANNOUNCES UPDATED LIFELINE MINIMUM SERVICE STANDARDS AND INDEXED BUDGET AMOUNT

WC Docket No. 11-42

By this Public Notice, the Wireline Competition Bureau (Bureau) announces the updated minimum service standards levels for speed and usage allowances for Lifeline-supported services as required by the *2016 Lifeline Order*.¹ Specifically, we announce the newly calculated minimum service standards for fixed broadband. We also remind providers of the updated minimum service standards for mobile broadband and mobile voice service, as established in the Commission's rules. These standards will take effect on December 1, 2018. Finally, we announce that the budget for federal universal service support for the Lifeline program for calendar year 2019 will be \$ 2,327,114,250.²

Fixed broadband minimum service standards. Beginning December 1, 2018, the Lifeline minimum service standard for fixed broadband speed will be 18 Mbps downstream and 2 Mbps upstream, as calculated from FCC Form 477 data.³ We note that the Commission provides an exception to the fixed broadband minimum service speed standard when the Lifeline provider does not offer any generally available residential fixed broadband packages that meet the minimum service standard at a subscriber's residence.⁴ In such situations, the Lifeline provider may receive Lifeline support for the highest performing generally available residential fixed broadband service offering of at least 4 Mbps downstream and 1 Mbps upstream.⁵ Beginning December 1, 2018, the Lifeline minimum service standard for fixed broadband data usage will be 1000 GB per month, as calculated from Urban Rate Survey data.⁶

Mobile broadband minimum service standards. The *2016 Lifeline Order* established an

⁶ See 47 CFR § 54.408(c)(1)(ii); *2016 Lifeline Order*, 31 FCC Rcd at 3994, para. 90; FCC, *Urban Rate Survey Data & Resources* (Apr. 18, 2014), <https://www.fcc.gov/general/urban-rate-survey-data-resources> (2018 Broadband Survey data).

automatic update to the Lifeline minimum service standard for mobile broadband service data usage through November 30, 2019.⁷ Beginning December 1, 2018, the Lifeline minimum service standard for mobile broadband data usage will increase to 2 GB per month.⁸ The Lifeline minimum service standard for mobile broadband speed remains 3G mobile technology.⁹

Mobile voice telephony minimum service standard. The *2016 Lifeline Order* established an automatic update to the Lifeline minimum service standard for mobile voice service through November 30, 2018.¹⁰ Beginning December 1, 2018, the Lifeline minimum service standard for mobile voice service will increase to 1000 minutes per month.¹¹

Annual budget. The *2016 Lifeline Order* adopted an initial budget of \$2.25 billion for the calendar year beginning January 1, 2017.¹² The 2016 order also stated that the budget amount will be indexed to inflation in accordance with the Consumer Price Index for all items from the Department of Labor, Bureau of Labor Statistics.¹³ To perform this calculation, the Bureau used the annual percent change factor for the preceding year to the year in which the calculation is being performed, here 2017.¹⁴ Based on this calculation, the indexed budget for federal universal service support for the Lifeline program for the calendar year beginning January 1, 2018 was \$2,279,250,000,¹⁵ and the indexed budget for the calendar year beginning January 1, 2019, will be \$2,327,114,250.
