ORDER

Adopted: November 1, 2019

Released: November 1, 2019

By the Deputy Chief, Enforcement Bureau:

1. The Commission takes seriously its role in preventing unauthorized operation in the 3650-3700 MHz band. The registration requirement for base stations operating on this band ensures that licensees can operate without interference. The Enforcement Bureau (Bureau) of the Federal Communications Commission has entered into a Consent Decree to resolve its investigation into whether NE Colorado Cellular, Inc., dba Viaero Wireless (Viaero), operated an unregistered base station without authorization in the 3650-3700 MHz band. Because this band operates on a shared basis, knowledge of the location of the registered emitters is essential for frequency coordination. Unregistered stations can undermine successful coordination and cause harmful interference to other licensed stations. To settle this matter, Viaero admits that it operated an unregistered base station without authorization, will implement a compliance plan, and will pay a \$16,000 civil penalty. This action demonstrates the importance of preventing harmful interference caused by the unauthorized operation of unregistered base stations in the 3650-3700 MHz band.

2. After reviewing the terms of the Consent Decree and evaluating the facts before us, we find that the public interest would be served by adopting the Consent Decree, terminating the referenced investigation and resolving the Notice of Apparent Liability for Forfeiture (NAL) regarding Viaero's compliance with section 301 of the Communications Act of 1934, as amended (Act),¹ and sections 1.903(a) and 90.1307(a) of the Commission's rules.²

2. In the absence of material new evidence relating to this matter, we do not set for hearing the question of Viaero's basic qualifications to hold or obtain any Commission license or authorization.³

3. Accordingly, IT IS ORDERED that, pursuant to sections 4(i), and 503(b) of the Act⁴ and the authority delegated by sections 0.111 and 0.311 of the Commission's rules,⁵ the attached Consent Decree IS ADOPTED and its terms incorporated by reference.

4. IT IS FURTHER ORDERED that the above-captioned matter IS TERMINATED and the NAL IS RESOLVED in accordance with the terms of the attached Consent Decree.

1 47 U.S.C. § 301.

2 47 CFR §§ 1.903(a), 90.1307(a)

3 See 47 CFR § 1.93(b).

4 47 U.S.C. §§ 154(i), 503(b).

5 47 CFR §§ 0.111, 0.311.

5. **IT IS FURTHER ORDERED** that any third-party complaints and allegations against Viaero related to the above-captioned investigation that are pending before the Bureau as of the date of this Consent Decree **ARE DISMISSED**.

6. **IT IS FURTHER ORDERED** that a copy of this Order and Consent Decree shall be sent by first class mail and certified mail, return receipt requested, to Francis J. DiRico, Director, NE Colorado Cellular, Inc., 1224 West Platte Avenue, Ft. Morgan, CO 80701, and to David A. LaFuria, Esq., Lukas, LaFuria, Gutierrez & Sachs, LLP, 8300 Greensboro Drive, Suite 1200, Tysons, VA 22102.

CONSENT DECREE

1. The Commission takes seriously its role in preventing unauthorized operation in the 3650-3700 MHz band. The registration requirement for base stations operating on this band ensures that licensees can operate without interference. The Enforcement Bureau of the Federal Communications Commission and NE Colorado Cellular, Inc., dba Viera Wireless, by their authorized representatives, hereby enter into this Consent Decree for the purpose of terminating the Enforcement Bureau’s investigation into whether Viera violated section 301 of the Communications Act of 1934, as amended and sections 1.903(a) and 90.1307(a) of the Commission’s rules in connection with the unauthorized operation of an unregistered station in the 3650-3700 MHz band. As set forth herein, to resolve this matter Viera admits it violated the 3.6 GHz Base Station Registration and Operation Rules, agrees to implement a compliance plan to ensure such violations do not occur in the future, and agrees to pay a \$16,000 civil penalty. This action will help minimize interference by unregistered base stations.

II. BACKGROUND

3. Section 301 of the Act states that no person shall use or operate any apparatus for the transmission of energy or communications or signals by radio within the United States beyond the terms, conditions, and periods of the license granted by the Commission.⁴ Section 1.903(a) states that “Stations in the Wireless Radio Services must be used and operated only in accordance with the rules applicable to their particular service as set forth in this title and with a valid authorization granted by the Commission.”⁵ Section 90.1307 of the Rules states that in the 3.6 GHz Band “[a] licensee cannot operate a fixed or base station before registering it under its license”⁶ The Commission previously granted licenses in the 3.6 GHz Band on a non-exclusive nationwide basis.⁷ Once an entity obtains such a license, it is required to register individual fixed and base stations before operation.⁸ A licensee has no authority to operate a fixed or base station in this band before registering it under its license.⁹ Because this band

⁷ 47 CFR § 90.1307(a) (“The 3650-3700 MHz band is licensed on the basis of non-exclusive nationwide licenses.”). The Commission subsequently adopted rules licensing the Citizens Broadband Radio Service, and grandfathered the licenses previously granted in the 3.6 GHz Band. See 47 CFR § 90.1338.

operates on a shared basis, knowledge of the location of the registered emitters is essential for frequency coordination. Unregistered stations can undermine successful coordination and cause harmful interference to other licensed stations. Accordingly, Commission action in this area against unregistered operators is essential.

4. On February 8, 2018, the Commission received a complaint of harmful interference near Kersey, Colorado to licensed and registered base stations operating in the 3650-3700 MHz band. On February 13, 2018, an agent from the Bureau's Denver Field Office began investigating the complaint. Using direction-finding techniques, the agent determined that the source of the interference was a transmission by Viero from a communications tower with FCC Antenna Structure Registration #1278898,¹⁰ near Kersey, Colorado (Kersey Location). The agent contacted Viero, which agreed to end the 3.6 GHz Band transmission from the Kersey Location. The agent confirmed with the complainant that the interference subsequently ceased. The agent also consulted the Commission's records and confirmed that Viero had not registered to operate at or near the Kersey Location. The Bureau mailed a Notice of Violation to Viero on April 4, 2018.¹¹

5. In response to the NOV, Viero stated that "on or about February 12, 2018, Viero's operations team, working on the incorrect assumption that the Kersey Location had already been registered, conducted periodic testing at the Kersey Location that continued through February 13, 2018."¹² It also states that it failed to coordinate with other licensees prior to this testing.¹³ Further, Viero stated that on March 29, 2018, it registered the Kersey Location and that it would commence operations only after it completed frequency coordination with other licensees to ensure that no harmful interference would happen in the future.¹⁴ Commission records confirm that Viero registered the Kersey Location on that date.¹⁵

6. Based on the Bureau's investigation and the Viero NOV Response, on February 8, 2019, the Bureau issued the NAL Viero for apparently operating without authorization at the Kersey Location in violation of 3.6 GHz Base Station Registration and Operation Rules.¹⁶ Viero filed a response to the NAL on March 11, 2019 stating that it accepts responsibility operating base stations prior to registration at the Kersey Location and that procedures are now in place to prevent such unauthorized operation from

The Bureau further agrees that, in the absence of new material evidence, it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute, on its own motion, any new proceeding, formal or informal, or take any action on its own motion against Viaero concerning the matters that were the subject of the Investigation. The Bureau also agrees that, in the absence of new material evidence, it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute on its own motion any proceeding, formal or informal, or to set for hearing the question of Viaero's basic qualifications to be a Commission licensee or hold Commission licenses or authorizations.¹⁸

11. **Admission of Liability.** Viaero admits for the purpose of this Consent Decree and for Commission civil enforcement purposes, and in express reliance on the provisions of paragraph 10 herein, that its actions that were the subject of the NAL violated the 3.6 GHz Base Station Registration and Operation Rules.
