ORDER

Adopted: November 22, 2019

Released: November 22, 2019

By the Chief, Wireline Competition Bureau:

I. INTRODUCTION

1. In this Order, the Wireline Competition Bureau (Bureau) designates Red Spectrum LLC (Red Spectrum) as an eligible telecommunications carrier (ETC) in CAF-eligible areas within Idaho.¹ Designation is conditioned upon and limited to Red Spectrum’s authorization to receive Connect America support awarded through the Connect America Fund (CAF) Phase II Auction and effective only upon such authorization.² Red Spectrum also requests designation as an ETC outside of areas eligible for Phase II auction funding authorization.³ For such areas, we limit the designation of Red Spectrum as an ETC only to eligibility for Lifeline support. In making these designations, the Bureau finds that Red Spectrum meets the eligibility requirements to receive universal service support, as set forth in section 214(e)(6) of the Communications Act of 1934, as amended (Act), and related Commission rules.⁴ The Bureau also waives, on its own motion, the requirement that Red Spectrum submit proof of its ETC designation on or before February 25, 2019. The Bureau will release a separate public notice regarding Phase II auction funding authorization.

II. BACKGROUND

A. Connect America Fund Phase II Auction Support

2. The CAF Phase II Auction is one part of a multi-step process to comprehensively reform and modernize the high-cost component of the Universal Service Fund (USF).⁵ At the conclusion of this auction, 103 bidders won \$1.49 billion in support over 10 years to provide fixed broadband and voice services to over 700,000 locations in high-cost areas in 45 states.⁶ In order to become authorized to receive support, winning bidders must complete a post-auction application (long-form application) designed to ensure that winning bidders are technically and financially qualified to offer supported services and have met all regulatory prerequisites and conditions for receiving USF support.⁷ As part of this application, Phase II auction winning bidders must certify that their ETC designation covers all relevant census blocks and submit supporting documentation, including an ETC designation order.⁸

B. Federal Universal Service Lifeline Support

3. The Lifeline – or low-income – program provides support to reimburse providers for offering supported services at discounted prices to qualifying low-income households, with more support directed at such households in Tribal lands.⁹ Eligible services include voice and broadband Internet access service meeting certain requirements.¹⁰ In a given geographic area, a carrier may be designated as an ETC and become eligible to receive funding from both the high-cost and low-income components of the USF, or it may be designated as a Lifeline-only ETC that is only eligible to receive USF support from the Lifeline program.¹¹ Where, as here, a CAF Phase II long-form applicant seeks designation to serve areas for which Phase II auction funding is unavailable, the Bureau will treat the petition as a Lifeline-only petition.¹² All ETCs are obligated to offer Lifeline-supported services throughout their designated service areas.¹³

C. Requirements for FCC ETC Designation

4. Section 254(e) of the Act provides that “only an eligible telecommunications carrier designated under section 214(e) shall be eligible to receive specific federal universal service support.”¹⁴ Congress gives primary authority for ETC designations to state commissions.¹⁵ The FCC has authority only when “a common carrier [is] providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission.”¹⁶ The petitioning carrier must demonstrate that the FCC has jurisdiction and may do so by submitting an “affirmative statement from the state commission or a court of competent jurisdiction that the carrier is not subject to the state commission’s jurisdiction.”¹⁷ To the extent that the petition covers Tribal Lands, and the petitioner has not taken any action at the state level to initiate ETC proceedings, the petitioner may make an affirmative showing of FCC jurisdiction under relevant law.¹⁸ The Commission has delegated authority to the Bureau to consider appropriate ETC designation requests.¹⁹

5. A petition for ETC designation by the FCC must include: (1) a certification that the petitioner offers or intends to offer all services designated for support by the Commission pursuant to section 254(c) of the Act; (2) a certification that the petitioner offers or intends to offer the supported services either using its own facilities or a combination of its own facilities and resale of another carrier’s services;²⁰ (3) a description of how the petitioner advertises the availability of the supported services and the charges therefor using media of general distribution;²¹ (4) a detailed description of the geographic service area for which the petitioner requests to be designated as an ETC;²² and (5) a certification that neither the petitioner, nor any party to the application, is subject to a denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988.²³

6. In addition, a petitioner must demonstrate its ability to meet certain service standards. A petitioner seeking an ETC designation for purposes of becoming eligible to receive high-cost support must: (1) certify that it will comply with the service requirements applicable to the support that it

²¹ 47 U.S.C. § 214(e)(1); 47 CFR § 54.201(d)(2).

²² An ETC’s “service area” is set by the designating authority and is the geographic area within which an ETC has universal service obligations and may receive universal service support. 47 U.S.C. § 214(e)(5); 47 CFR § 54.207(a). Although section 214(e)(5) of the Act, 47 U.S.C. § 214(e)(5), requires conformance of a competitive ETC’s service area and an incumbent rural telephone company’s service area, the Commission has separately forbore from imposing such requirements on CAF Phase II Auction support recipients and Lifeline-only ETCs. *See Phase II Auction Order*, 31 FCC Rcd at 6006-6009, paras. 159-168; *Telecommunications Carriers Eligible for Support*, WC Docket Nos. 09-197 and 11-42, Memorandum Opinion and Order, 28 FCC Rcd 4859 (2013).

receives; (2) submit a five-year service plan (applicable only to high-cost areas); (3) demonstrate its ability to remain functional in emergency situations; and (4) demonstrate its ability to satisfy applicable consumer protection and service quality standards.²⁴ A petitioner seeking designation in areas eligible for Lifeline-only support (Lifeline-only designation) must also: (1) demonstrate its financial and technical capability to provide Lifeline-supported services in accordance with applicable Commission rules; and, (2) submit information describing the terms and conditions of any voice telephony plans offered to Lifeline subscribers.²⁵

7. For petitioners seeking ETC designation for the purpose of becoming authorized to receive Phase II auction support, the Bureau waived the requirements that the petitioner submit a five-year service plan and proof of compliance with consumer protection and service quality standards, finding that the need for such requirements is obviated by specific service quality standards applicable to Phase II auction support recipients and specific reporting obligations relating to such standards.²⁶ Accordingly, a CAF Phase II Auction support recipient only need demonstrate its ability to meet applicable consumer protection and service quality standards for Lifeline-supported services in Lifeline-only eligible areas.

8. In addition, prior to designating a carrier as an ETC pursuant to section 214(e)(6) of the Act, the Commission must determine whether such designation is in the public interest.²⁷ When making a public interest determination, the Commission historically has considered the benefits of increased consumer choice and the unique advantages and disadvantages of the applicant's service offering.²⁸ In the *Phase II Auction ETC Public Notice*, the Bureau found that recipients of Phase II auction support demonstrated their ability to offer service efficiently through the competitive bidding process and their ability to meet public interest obligations through their short- and long-form applications and, thus, need not submit additional support in their petitions.²⁹ Accordingly, only those petitioners that seek designation in Lifeline-only eligible areas need demonstrate that their Lifeline-only ETC designations serve the public interest.

D. Petition for ETC Designation

9. Red Spectrum seeks an ETC designation within the boundaries of the Coeur d'Alene Reservation (Reservation).³⁰ The Reservation boundaries include all census blocks where Red Spectrum is eligible to receive Phase II auction support as well as additional areas where Red Spectrum is only eligible to receive Lifeline support. In areas where Red Spectrum is not eligible to receive CAF Phase II auction support, it may only be designated as a Lifeline-only ETC. The Bureau has released public

notices soliciting comments on Red Spectrum's petition.³¹ No comments addressing the merits of the petition or the designation were received.

III. DISCUSSION

10. We find that Red Spectrum satisfies the Commission's requirements for ETC designation. We therefore designate it as a high-cost ETC in CAF-eligible areas, conditioned upon and limited to the high-cost areas where they are authorized to receive Phase II auction support and effective only upon such authorization. In these areas, Red Spectrum must meet Phase II auction requirements, Lifeline requirements, and other service obligations attendant to its high-cost designation, as specified in the Act and the Commission's rules.³² In all other areas included in Red Spectrum's petition and not eligible for high-cost support, we designate Red Spectrum as a Lifeline-only ETC. In these areas, Red Spectrum must offer Lifeline-supported services to low-income consumers consistent with the requirements of the Act and the Commission's rules and in accordance with all representations and commitments made in its ETC petition.

A. Commission Authority

11. We find that the FCC has jurisdiction pursuant to section 214(e)(6) of the Act to designate Red Spectrum as an ETC. As a Tribally-owned and chartered entity operating on Tribal Lands, Red Spectrum is governed by the laws, regulations, and authority of the Coeur d'Alene Tribe.³³ The Tribe has issued a Corporate Charter, and a Tribal Business License, in addition to the resolution, which allows Red Spectrum to provide telecommunication services throughout the Reservation.³⁴ We thus find that Red Spectrum is not subject to the Idaho Public Utility Commission's regulatory authority to designate ETCs.³⁵ We note that Red Spectrum states that it notified the Idaho Public Services Commission of the filing of the ETC petition (and supplement) and we have not received a comment from the Idaho Public Services Commission regarding these filings.³⁶ Accordingly, we find that the Bureau,

acting under the Commission's delegation of authority, may designate Red Spectrum as an ETC for purposes of eligibility for Phase II auction support.

B. Eligibility Requirements

12. *Offering the Services Supported by the Universal Service Support Mechanisms.* We find that Red Spectrum establishes through the required certifications and related filings that it will offer the services supported by the federal universal service support mechanisms.³⁷

13. *Compliance with the Service Requirements Applicable to Phase II Auction Support.* We find that Red Spectrum has met its requirement to certify that it will comply with service requirements applicable to the support that it receives.³⁸ This determination takes into account that, prior to being authorized to receive Phase II auction support, CAF Phase II auction participants must certify and demonstrate, as part of their short- and long-form applications, the technical and financial ability to provide voice and broadband services meeting or exceeding CAF Phase II standards,³⁹ certify their commitment to meeting relevant public interest obligations,⁴⁰ and certify their compliance with all statutory and regulatory requirements for receiving the universal service support.⁴¹ Moreover, once authorized, CAF Phase II Auction support recipients must satisfy certain reporting obligations to ensure that the support received is being used efficiently and appropriately and that service requirements are being met.⁴²

14. *Compliance with Service Requirements Applicable to Lifeline Services.* Red Spectrum commits to offering Lifeline discounts to qualifying low-income consumers, consistent with the Commission's rules, in all high-cost areas where it is authorized to receive support.⁴³ For areas that are not eligible for Phase II auction support, Red Spectrum specifically commits to meeting Lifeline consumer enforcement and certification standards and describes how it intends to meet such standards.⁴⁴ We emphasize that all ETCs receiving Lifeline support must report certain information to the Commission, USAC, and the local regulatory authority, pursuant to section 54.422 of the Commission's rules.⁴⁵

15. *Offering the Supported Services Using a Carrier's Own Facilities.* Red Spectrum certifies that it is a facilities-based provider of broadband and voice services.⁴⁶

16. *Advertising Supported Services.* Red Spectrum commits to advertising the availability of the supported services and related charges using media of general distribution.⁴⁷ We emphasize that, as

part of this commitment, Red Spectrum must advertise the availability of its services and charges in a manner reasonably designed to reach Lifeline-eligible consumers.⁴⁸

17. *Ability to Remain Functional in Emergency Situations.* Red Spectrum states that it can remain functional in emergency situations. Red Spectrum states that it has sufficient back-up power to ensure functionality in the designated service area without an external power source, can re-route traffic around damaged facilities, and can manage traffic spikes resulting from emergency situations.⁴⁹

18. *Anti-Drug Abuse Act Certification.* Red Spectrum submits a certification that satisfies the requirements of the Anti-Drug Abuse Act of 1988, as codified in sections 1.2001-1.2003 of the Commission's rules.⁵⁰

19. *Consumer Protection and Service Quality Standards in Lifeline-Only Eligible Areas.* Red Spectrum commits to abiding by all applicable state and federal consumer protection and service quality standards, including specific obligations under the Act and its implementing rules, in Lifeline-only eligible areas.⁵¹

20. *Technical and Financial Ability to Offer Lifeline Services in Lifeline-Only Eligible Area.* Red Spectrum demonstrates the technical and financial ability to offer Lifeline-supported voice and broadband Internet access services in Lifeline-only eligible areas.⁵² This determination is informed by the technical and financial information filed by Red Spectrum in its Phase II auction application for the high-cost eligible areas generally contiguous with the Lifeline-only eligible area.⁵³

21. *Terms and Conditions of Service Plans in Lifeline-only Eligible Area.* Red Spectrum sufficiently describes the terms and conditions of service plans that it will make available to the public in Lifeline-only eligible areas.⁵⁴

C. Public Interest Analysis

22. We conclude that Red Spectrum's participation in universal service programs would be in the public interest and would provide numerous benefits to consumers. As noted above, ETC designations in areas where a petitioner is authorized to receive CAF Phase II Auction support serve the public interest. Through participation in the auction bidding and application processes, Red Spectrum has demonstrated that it can offer voice and broadband services in high-cost areas efficiently and at a price and quality comparable to the service offerings in more competitive areas. Moreover, granting Red Spectrum's petition will serve the interests of low-income consumers by ensuring the availability of new, facilities-based Lifeline services at competitive prices in areas eligible for Phase II auction support.

23. We further find that granting Red Spectrum's petition to serve additional areas within the Reservation not eligible for Phase II auction support ensures that Lifeline services are available in all

areas where Red Spectrum provides service. Red Spectrum states that it has been actively building out its telecommunications plant in underserved Tribal areas within the Reservation for the past ten years and recently satisfied build-out requirements associated with a \$10.8 million federal grant and loan in 2015.⁵⁵ Red Spectrum commits to offering Lifeline-supported services throughout its designated areas and to preventing waste, fraud, and abuse through customer education, certification, and verification procedures.⁵⁶ Given these commitments and associated representations, granting the ETC designations will help ensure increased consumer choice, affordability, and improved quality of service.

24. Accordingly, based on the information, representations, and certifications in its petition, we find that Red Spectrum has met all applicable conditions and prerequisites for ETC designation and conditionally grant its petition.

D. Regulatory Oversight

25. Under section 254(e) of the Act, an ETC must use universal service support “only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.”⁵⁷ Under section 214(e) of the Act, an ETC must provide supported services throughout its service area.⁵⁸ When authorized to receive high-cost support, an ETC must file an annual certification that all federal high-cost support received was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.⁵⁹ The Commission conditions future support awarded through the high-cost program on the filing of such certification.⁶⁰

26. An ETC receiving Lifeline support uses that support as intended when it reduces the price of its telecommunications services by the amount of the support for the eligible consumer.⁶¹ In addition, the ETC must file annual reports that include, among other things, a certification of compliance with applicable minimum service standards, service quality standards, and consumer protection rules.⁶²

27. We find that reliance on Red Spectrum’s commitments to meet these and other regulatory requirements, as well as representations and commitments made in its petition, is reasonable and consistent with the public interest and the Act. We conclude that fulfillment of these additional reporting requirements will further the Commission’s goal of ensuring that Red Spectrum satisfies its obligation under section 214(e) of the Act to provide supported services throughout its respective designated service areas.

28. The Commission may initiate an inquiry on its own motion to examine any ETC’s records and documentation to ensure that the universal service support the ETC receives is being used “only for the provision, maintenance, and upgrading of facilities and services” in the areas in which it is designated as an ETC.⁶³ Red Spectrum must provide such records and documentation to the Commission

and USAC upon request.⁶⁴ If Red Spectrum fails to fulfill the requirements of the Act, the Commission's rules, and the terms of this Order after it begins receiving universal service support, the Commission has authority to revoke its ETC designation.⁶⁵ The Commission also may assess forfeitures for violations of Commission rules and orders.⁶⁶

E. Waiver of Deadline for Submitting Proof of ETC Designation

29. Phase II auction winning bidders were required to certify that they are ETCs in all bid areas and to submit appropriate documentation supporting such certification on or before February 25, 2019 (Phase II auction ETC deadline).⁶⁷ The Bureau finds, on its own motion, good cause to waive this deadline for Red Spectrum.⁶⁸ The Commission has found that waiver of this deadline is appropriate when an ETC designation proceeding is not yet complete by the deadline despite the good faith efforts of the long-form applicant.⁶⁹ The Commission has explained that it would presume such good faith efforts when the petitioner submitted its petition to the relevant authority within 30 days of the release of the *Phase II Auction Closing Public Notice*.⁷⁰ Red Spectrum filed its petition with the FCC within this 30-day time frame, thus demonstrating due diligence in meeting its filing deadline.

IV. ORDERING CLAUSES

30. Red Spectrum LLC	9/12/18	ID	50	185

⁷¹ In addition to the CAF-eligible census blocks summarized in this chart, Red Spectrum seeks a Lifeline-only designation in areas within the Reservation boundaries which that are not eligible for CAF Phase II support.

⁷² Consistent with the requirements specified for completion of the long-form application and as described above in this Order, we define the designated service area for the bid area based on the published list of CAF-eligible census blocks associated with the winning bid, thus superseding any discrepancies in the petition's descriptions of such areas. See Connect America Fund Phase II: Assignments - Assigned Census Blocks, https://auctiondata.fcc.gov/public/projects/auction903/reports/all_assigned_census_blocks. We have confirmed that the census blocks listed here are within the Reservation boundaries.
