WC Docket No. 09-197
WC Docket No. 10-90

ORDER

Adopted: April 30, 2019

Released: April 30, 2019

By the Chief, Wireline Competition Bureau:

I. INTRODUCTION

1. In this Order, the Wireline Competition Bureau (Bureau) designates each of four
petitioners (identified in the Attachment to this Order) as an eligible telecommunications carrier (ETC) in
eligible high-cost areas, conditioned upon and limited to petitioners' authorization to receive Connect
America Phase II support awarded in coordination with New York's New NY Broadband Program (New
York Program).1 In making these designations, we find that each of these petitioners meets the eligibility
requirements set forth in section 214(e)(6) of the Communications Act of 1934, as amended (Act), and
related Commission's rules, to be designated as an ETC in the relevant areas of New York.2 The Bureau
will release separate public notices regarding Auction 903 funding authorizations.

II. BACKGROUND

A. CAF Support Awarded in Coordination with the New York Program

2. The Connect America Fund (CAF) Phase II auction (Auction 903) is one part of a multi-
step process to comprehensively reform and modernize the high-cost component of the Universal Service
Fund (USF).3 In 2017, New York sought waiver of certain Auction 903 rules and requirements so that,

Cir. 2014).

through its New York Program, it could allocate certain CAF support (that otherwise would have been included in Auction 903) to CAF-eligible areas.⁴ The Commission granted this waiver request conditional upon the participants' compliance with certain terms and conditions consistent with those imposed on Auction 903 winning bidders.⁵ The Commission also emphasized that like all high-cost support recipients, New York Program participants selected to receive CAF support would only be eligible to receive CAF support if designated an ETC in their CAF-eligible areas, and required winning participants to submit proof of such designation within 180 days of the announcement of their support awards.⁶ On May 18, 2018, the Commission released a public notice acknowledging New York's allocation of CAF support to certain participants.⁷

B. Requirements for FCC ETC Designation

3. Section 254(e) of the Act provides that “only an eligible telecommunications carrier designated under section 214(e) shall be eligible to receive specific federal universal service support.”⁸ Congress gives primary authority for ETC designations to state commissions.⁹ The FCC has authority only when “a common carrier [is] providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission.”¹⁰ The petitioning carrier must demonstrate that the FCC has jurisdiction and may do so by submitting an “affirmative statement from the state commission or a court of competent jurisdiction that the carrier is not subject to the state commission's jurisdiction.”¹¹ To the extent that the petition covers Tribal Lands, and the petitioner has not taken any action at the state-level to initiate ETC proceedings, the petitioner may make an affirmative showing of FCC jurisdiction under relevant law.¹² The Commission has delegated authority to the Bureau to consider appropriate ETC designation requests.¹³

4. A petition for ETC designation by the FCC must include: (1) a certification that the petitioner offers or intends to offer all services designated for support by the Commission pursuant to section 254(c) of the Act; (2) a certification that the petitioner offers or intends to offer the supported services either using its own facilities or a combination of its own facilities and resale of another carrier's services;¹⁴ (3) a description of how the petitioner advertises the availability of the supported services and

the charges therefor using media of general distribution;¹⁵ (4) a detailed description of the geographic service area for which the petitioner requests to be designated as an ETC;¹⁶ and (5) a certification that neither the petitioner, nor any party to the application, is subject to a denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988.¹⁷

5. In addition, petitioners must demonstrate their ability to meet certain service standards. A petitioner seeking an ETC designation for purposes of becoming eligible to receive high-cost support must: (1) certify that it will comply with the service requirements applicable to the support that it receives; (2) submit a five-year service plan (applicable only to high cost areas); (3) demonstrate its ability to remain functional in emergency situations; and (4) demonstrate its ability to satisfy applicable consumer protection and service quality standards.¹⁸

6. For petitioners seeking ETC designation for the purpose of becoming authorized to receive Auction 903 support, the Bureau waived the requirements that the petitioners submit a five-year service plan and proof of compliance with consumer protection and service quality standards, finding that the need for such requirements is obviated by specific service quality standards applicable to Auction 903 support recipients and specific reporting obligations relating to such standards.¹⁹ Because the authorization of CAF support for participants in the New York program is conditioned on meeting terms and conditions consistent with those applicable to Auction 903 winning bidders,²⁰ we interpret this waiver as equally applicable to New York Program participants.

7. In addition, prior to designating a carrier as an ETC pursuant to section 214(e)(6) of the Act, the Commission must determine whether such designation is in the public interest.²¹ When making a public interest determination, the Commission historically has considered the benefits of increased consumer choice and the unique advantages and disadvantages of the applicant's service offering.²²

C. Petitions for ETC Designation

8. The petitioners that are the subject of this Order seek ETC designation to become eligible to receive CAF support awarded in coordination with the New York Program, as described in the Attachment to this Order. The Bureau released a public notice soliciting comment on each of their

Although section 214(e)(5) of the Act, 47 U.S.C. § 214(e)(5), requires conformance of a competitive ETC's service area and an incumbent rural telephone company's service area, the Commission forbore from imposing such requirements on participants in the New York Program. *New York Auction Waiver Order*, 32 FCC Rcd at 990, para. 59.

petitions.²³ No third party filed comments in response to any of the petitions that are the subject of this order.

III. DISCUSSION

9. We find that each of these petitioners satisfies the Commission's requirements for ETC designation. We therefore designate the petitioners as high-cost ETCs in New York, conditioned upon and limited to the high-cost areas where they are authorized to receive Connect America Phase II support and effective only upon such authorization. In these areas, petitioners must meet Connect America Phase II requirements, Lifeline requirements, and other service obligations attendant to their high-cost designations, as specified in the Act and the Commission's rules.²⁴

A. Commission Authority

10. Each petitioner demonstrates that the Commission has the requisite authority to designate it as an ETC pursuant to section 214(e)(6) of the Act. The four petitioners separately submitted letters from the New York State Public Service Commission declining ETC designation jurisdiction based on the petitioners' representations that they offered only broadband and Voice over Internet Protocol (VoIP) service.²⁵ We thus find that these petitioners have demonstrated FCC authority to decide these petitions.

B. Eligibility Requirements

11. *Designated Service Area.* Each petitioner describes a designated service area based on all CAF-eligible census blocks covered by its Connect America Phase II award (as listed in Attachment B to this Order).²⁶

12. *Offering the Services Supported by the Universal Service Support Mechanisms.* We find that each of the petitioners establishes through the required certifications and related filings that it will offer the services supported by the federal universal service support mechanisms.²⁷

13. *Compliance with the Service Requirements Applicable to Connect America Phase II Support Awarded through the New York Program.* We find that each of the petitioners establishes its

ability to comply with service requirements applicable to the support that it receives.²⁸ This determination takes into account that the petitioners must demonstrate, as part of their FCC applications, the technical and financial ability to provide voice and broadband services meeting or exceeding Connect America Phase II standards and comply with all relevant public interest obligations.²⁹ Moreover, once authorized, the petitioners must satisfy certain reporting obligations to ensure that the support received is being used efficiently and appropriately and that service requirements are being met.³⁰

14. *Compliance with Service Requirements Applicable to Lifeline Services.* Each petitioner commits to offering Lifeline discounts to qualifying low-income consumers, consistent with the Commission's rules, in all high-cost areas where it is authorized to receive support.³¹

15. *Offering the Supported Services Using a Carrier's Own Facilities.* Each petitioner certifies that it is a facilities-based provider of broadband and voice services.³²

16. *Advertising Supported Services.* Each petitioner commits to advertising the availability of the supported services and related charges using media of general distribution.³³ We emphasize that, as part of this commitment, an ETC must advertise the availability of its services and charges in a manner reasonably designed to reach Lifeline-eligible consumers.³⁴

17. *Ability to Remain Functional in Emergency Situations.* Each petitioner states that it can remain functional in emergency situations. Each petitioner states that it has sufficient back-up power to ensure functionality in the designated service area without an external power source, can re-route traffic around damaged facilities, and can manage traffic spikes resulting from emergency situations.³⁵

18. *Anti-Drug Abuse Act Certification.* Each petitioner submits a certification that satisfies the requirements of the Anti-Drug Abuse Act of 1988, as codified in sections 1.2001-1.2003 of the Commission's rules.³⁶

C. Public Interest Analysis

19. We conclude that the petitioners' participation in universal service programs would be in the public interest and would provide numerous benefits to consumers. Through participation in the New York Program and completion of the Commission's subsequent application process, the petitioners demonstrate that they can offer voice and broadband service in high-cost areas efficiently and at a price and quality comparable to the service offerings in more competitive areas.³⁷ Moreover, granting these petitions will serve the interests of low-income consumers by ensuring the availability of new, facilities-

based Lifeline services at competitive prices in these areas. Given these commitments and associated representations, granting the ETC designations will help ensure increased consumer choice, affordability, and improved quality of service.

20. Accordingly, based on the information, representations, and certifications in their petitions, we find that the petitioners have met all applicable conditions and prerequisites for ETC designation and that conditionally granting these petitions serves the public interest.

D. Regulatory Oversight

21. Under section 254(e) of the Act, each of these petitioners must use universal service support “only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.”³⁸ Under section 214(e), each of the petitioners must provide supported services throughout their service area.³⁹ To help ensure compliance with these requirements, the Commission requires these petitioners to file an annual certification that all federal high-cost support received was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended.⁴⁰ The Commission conditions future support awarded through the high-cost program on the filing of such certification.⁴¹ In addition, petitioners must file annual reports detailing their ongoing compliance with service standards, must annually report location deployment data, and must certify by specific deadlines deployment to a specific number of locations.⁴²

22. We find that reliance on petitioners’ commitments to meet these and other regulatory requirements, as well as representations and commitments made in their petitions, is reasonable and consistent with the public interest and the Act. We conclude that fulfillment of these additional reporting requirements will further the Commission’s goal of ensuring that petitioners satisfy their obligation under section 214(e) of the Act to provide supported services throughout their respective designated service areas.

23. The Commission may initiate an inquiry on its own motion to examine any ETC’s records and documentation to ensure that the universal service support the ETC receives is being used “only for the provision, maintenance, and upgrading of facilities and services” in the areas in which it is designated as an ETC.⁴³ Petitioners must provide such records and documentation to the Commission and USAC upon request.⁴⁴ If a petitioner fails to fulfill the requirements of the Act, the Commission’s rules, and the terms of this Order after it begins receiving universal service support, the Commission has authority to revoke the petitioner’s ETC designation.⁴⁵ The Commission also may assess forfeitures for violations of Commission rules and orders.⁴⁶

E. Waiver of Deadline for Submitting Proof of ETC Designation

24. The Commission required participants in the New York Program to submit the requisite proof of ETC designation to the Commission no later than November 14, 2018.⁴⁷ The Bureau finds, on its own motion, good cause to waive this deadline for the petitioners that are the subject of this Order.⁴⁸ The Commission has routinely waived similar deadlines when the ETC designation proceeding is not yet complete despite the good faith efforts of the petitioner.⁴⁹ These petitioners filed their petitions for ETC designation well in advance of the November deadline, and none of the petitions raise unique factual or legal concerns nor were they challenged. Accordingly, because the delay in issuing this Order is unrelated to the filing date of these petitions, waiver of the deadline is appropriate.

IV. ORDERING CLAUSES

25. Accordingly, IT IS ORDERED, pursuant to the authority contained in section 214(e)(6) of the Communications Act of 1934, as amended, 47 U.S.C. § 214(e)(6), and the authority delegated in sections 0.91 and 0.291 of the Commission's rules, 47 CFR §§ 0.91, 0.291, that EACH OF THE PETITIONERS SPECIFIED IN THE ATTACHMENT TO THIS ORDER ARE CONDITIONALLY DESIGNATED AN ELIGIBLE TELECOMMUNICATIONS CARRIER IN THE CENSUS BLOCKS SPECIFIED IN ATTACHMENT B. These designations are contingent upon the petitioners becoming authorized to receive such support, is limited to those areas where support is authorized and is effective only upon authorization.

26. IT IS FURTHER ORDERED that pursuant to section 1.3 of the Commission's rules, 47 CFR § 1.3, and pursuant to the authority delegated under sections 0.91, and 0.291 of the Commission's rules, 47 CFR §§ 0.91, 0.291, the deadline specified in the *New York Auction Waiver Order* for submitting proof of ETC designation IS WAIVED to the extent described above.

⁴⁷ *New York Long-Form Public Notice*, 33 FCC Rcd at 4922.

⁴⁸ 47 CFR §§ 0.91(p) (functions of the Wireline Competition Bureau), 0.291 (delegation of authority to the Wireline Competition Bureau). The Commission may waive its policies or rules upon a showing of good cause and may take into account, on an individual basis, considerations of hardship, equity, or more effective implementation of overall policy. See *WAIT Radio v. FCC*, 418 F.2d 1153, 1159 (D.C. Cir. 1969); see also *NE Cellular Tel. Co. v. FCC*, 897 F.2d 1164, 1166 (D.C. Cir. 1990). Waiver of the Commission's policies or rules is appropriate only if both: (i) special circumstances warrant a deviation from the general rule; and (ii) such deviation will serve the public interest. See *Network IP, LLC v. FCC*, 548 F.3d 116, 127 (D.C. Cir. 2008). Deadlines can only be waived under "unusual or compelling circumstances." *Id.* at 126 (citation omitted).
