## **AUCTION OF CROSS-SERVICE FM TRANSLATOR CONSTRUCTION PERMITS SCHEDULED FOR JUNE 25, 2019**

### **STATUS OF SHORT-FORM APPLICATIONS TO PARTICIPATE IN AUCTION 100**

AU Docket No. 17-329

1. By this Public Notice, the Office of Economics and Analytics (OEA), in conjunction with the Media Bureau (MB), announces the status of 23 short-form applications with mutually exclusive (MX) engineering proposals that had been previously announced as eligible to complete the remaining steps to become qualified to bid in Auction 100.<sup>1</sup> This auction will resolve by competitive bidding MX engineering proposals submitted by 23 separate applicants for up to 12 new cross-service FM translator stations. Bidding in this auction is scheduled to begin on Tuesday, June 25, 2019. This Public Notice also provides other important information deadlines and reminders relating to the auction.

#### **I. SHORT-FORM APPLICATIONS AND UPFRONT PAYMENTS**

##### **A. Status of Short-Form Applications**

2. The short-form applications (FCC Forms 175) for Auction 100 have been reviewed for completeness and compliance with the Commission’s rules, and have been classified into the categories listed below.

**Complete .....11 applications**  
**Incomplete.....12 applications**

3. **Complete Applications.** Attachment A to this Public Notice lists the short-form applications for Auction 100 that are accepted for filing and complete. Each of these applicants will become a qualified bidder upon receipt by the Commission of the required upfront payment by the May 23, 2019, deadline described below.<sup>2</sup> Each applicant must also maintain the accuracy of its short-form application as required by sections 1.65 and 1.2105(b) of the Commission’s rules.<sup>3</sup>

<sup>1</sup> OEA and MB released a list of eligible applicants for Auction 100 in conjunction with the announcement of procedures and minimum opening bids for this auction. *See Auction of Cross-Service FM Translator Construction Permits Scheduled for June 25, 2019; Notice and Filing Requirements, Minimum Opening Bids, Upfront Payments, and Other Procedures for Auction 100*, Public Notice, DA 19-273 (OEA/MB Apr. 17, 2019) (*Auction 100 Procedures Public Notice*).

<sup>2</sup> *See* section I.B., below; *see also* 47 CFR § 1.2106 (upfront payment rule).

<sup>3</sup> 47 CFR §§ 1.65, 1.2105(b). These rules require each applicant in a competitive bidding proceeding to furnish additional or corrected information within five days of a significant occurrence, or to amend its short-form application no more than five days after the applicant becomes aware of the need for amendment. An applicant’s obligation to make such a modification or amendment to its pending application continues until it is made. *See Procedural Amendments to Commission Part 1 Competitive Bidding Rules*, Order, 25 FCC Rcd 521, 522-23, paras. (continued....)

4. Designation of an application as complete indicates the applicant has provided the certifications and basic information concerning its qualifications that are required by the Commission's competitive bidding rules for participation in the auction. Under the Commission's two-phased auction application process, a winning bidder must submit a long-form application after the close of the auction to demonstrate its qualifications to hold a Commission construction permit or license and, if a bidding credit is requested, its eligibility for the bidding credit requested.<sup>4</sup> Thus, a determination that a short-form application is complete and complies with the Commission's competitive bidding rules and policies is not determinative of an applicant's qualifications to hold a license or of entitlement to a bidding credit. In the event that an applicant is found unqualified to be a Commission permittee or licensee, it will be liable for any obligations incurred as a result of its participation in the auction.<sup>5</sup>

5. **Incomplete Applications.** Attachment B to this Public Notice lists the short-form applications for Auction 100 that are accepted for filing but found to be incomplete or otherwise deficient. Each of these applicants will receive a letter identifying the deficiency(ies) in its application. This letter will be sent to the contact person and contact address listed on the incomplete application via overnight delivery, along with a copy of this Public Notice. To become a qualified bidder, each applicant must make the required upfront payment by the May 23, 2019, deadline and resubmit its application, having corrected any deficiencies, by the May 29, 2019, deadline.<sup>6</sup> Each applicant must also maintain the accuracy of its short-form application as required by sections 1.65 and 1.2105(b) of the Commission's rules.<sup>7</sup>

#### **B. Upfront Payments**

6. Upfront payments for Auction 100 are due in the proper account at the U.S. Treasury **by 6:00 p.m. Eastern Time (ET) on Thursday, May 23, 2019.** In order to meet the Commission's upfront payment deadline, an applicant's payment must be credited to the Commission's account by the deadline. **Payments must be made by wire transfer only in accordance with the instructions provided in Attachment B to the Auction 100 Procedures Public Notice.**<sup>8</sup> No other payment method is acceptable for this auction.<sup>9</sup> Each applicant must also complete and transmit an FCC Remittance Advice Form (FCC Form 159, February 2003 edition) to the Commission following the instructions provided in Attachment B to the *Auction 100 Procedures Public Notice*. Each applicant is reminded to provide its FCC Registration Number (FRN) on the Form 159 and to submit the same FRN with all future payments for Auction 100. At least one hour before placing the order for the wire transfer (but on the same business day), each applicant must submit by fax a completed FCC Form 159 to the FCC at (202) 418-2843, or by email to RROGWireFaxes@fcc.gov.

7. Each applicant is responsible for ensuring timely submission of its upfront payment and for timely filing of an accurate and complete Form 159.<sup>10</sup> An applicant should discuss arrangements and

<sup>9</sup> The Commission will not accept checks, credit cards, or automated clearing house (ACH) payments.

<sup>10</sup> Detailed instructions for submitting upfront payments, including how to complete the Form 159, may be found in Attachment B of the *Auction 100 Procedures Public Notice*. deadlines with its financial institution well ahead of the due date regarding its wire transfer (including that financial institution's specific wire transfer requirements) and allow sufficient time for the wire transfer to be initiated and completed prior to the deadline. The Commission has repeatedly cautioned auction participants about the importance of planning ahead to prepare for unforeseen last-minute difficulties in making payments by wire transfer.<sup>11</sup> **Each applicant should obtain confirmation from its financial institution that its wire transfer to the U.S. Treasury was successful and from Commission staff that its upfront payment was timely received and that it was deposited into the proper account.** For confirmation from the Commission, an applicant may contact Scott Radcliffe of the Office of Managing Director's Revenue & Receivables Operations Group/Auctions at (202) 418-7518, Theresa Meeks at (202) 418-2945, or Gail Glasser at (202) 418-0578. Detailed information regarding upfront payments can be found in the *Auction 100 Procedures Public Notice* under section II.E. and section III.C.<sup>12</sup>

### C. Short-Form Application Changes and Resubmission

8. Each applicant whose application for Auction 100 has been identified as incomplete must address defects in its application during the resubmission window, which is now open.<sup>13</sup> Corrected applications must be filed **prior to 6:00 p.m. ET on Wednesday, May 29, 2019**. Any short-form application corrections must be made electronically using the FCC's auction application system. This will be the only opportunity to cure application defects. Late resubmissions will not be accepted. An applicant that filed an application deemed to be incomplete or otherwise deficient, as noted in Attachment B to this Public Notice, must submit a timely and sufficient upfront payment before the Commission will review its resubmitted application. If an application is incomplete or otherwise deficient after the resubmission deadline has passed, or if the required upfront payment is not made by the specified deadline, the applicant will not be permitted to participate in bidding.<sup>14</sup>

9. During this resubmission window, all applicants may make minor changes as described below in more detail. We remind applicants that sections 1.65 and 1.2105(b) of the Commission's rules require an applicant to maintain the accuracy and completeness of information furnished in its pending short-form application.<sup>15</sup> Each applicant should amend its short-form application to furnish additional or corrected information within five days of a significant occurrence or no more than five days after the applicant becomes aware of the need for amendment.<sup>16</sup> To the extent that changes may be made directly in the electronic Form 175 at the time of the amendment, an applicant must modify its short-form application electronically.<sup>17</sup> An applicant seeking to report changes outside of the resubmission window

<sup>13</sup> 47 CFR § 1.2105(b)(2).

<sup>14</sup> Any applicant that submits a short-form application but fails to become a qualified bidder for any reason, including a failure to timely submit an upfront payment, will retain its status as an applicant in Auction 100 and will remain subject to the Commission's rules prohibiting certain communications, 47 CFR §§ 1.2105(c) and 73.5002(d). See, e.g., *Star Wireless, LLC v. FCC*, 522 F.3d 469 (D.C. Cir. 2008).

<sup>15</sup> 47 CFR §§ 1.65, 1.2105(b).

<sup>16</sup> *Id.*

<sup>17</sup> During the resubmission phase, applicants will have electronic access to update the following application fields: jurisdiction of formation/country of citizenship, applicant address, responsible party information, responsible party address, contact information, contact address, authorized bidder information, bidding option (telephonic or (continued...))

must submit a letter briefly summarizing the changes by email to the attention of Margaret Wiener, Chief, Auctions Division, OEA, at the following address: [auction100@fcc.gov](mailto:auction100@fcc.gov). Questions about changes should be directed to the Auctions Division at (202) 418-0660.

10. The electronic Form 175 will not permit an applicant to make changes to specific data fields in its application after the short-form application filing deadline, including changes to the following data fields: applicant name, legal classification, certifier, bidding credit, and a change to a technical proposal. Administrative and minor changes can be made, including, for example, deletion and addition of authorized bidders (to a maximum of three), revision of addresses and telephone numbers of the applicant and its contact person, and changes to responsible party. While changes can be made to ownership and agreement information,<sup>18</sup> we remind each applicant that any application changes must comply with the Commission's rules, which prohibit, among other things, changes in ownership that would constitute an assignment or transfer of control, as well as changes in ownership or agreements that would constitute violations of section 1.2105(c).<sup>19</sup> If any application is changed to effect a major amendment, such as a change in control, the applicant will be ineligible to bid in the auction.<sup>20</sup>

## II. OTHER IMPORTANT AUCTION 100 INFORMATION

11. **Announcement of Qualified Bidders.** Approximately three weeks after the upfront payment deadline, following Commission review of resubmitted short-form applications and the correlation of payments and applications, a public notice listing all applicants qualified to bid in Auction 100 will be released. The same public notice will also include bidding schedules for both the mock auction and the first day of bidding.

12. Each of the engineering proposals within each MX group in Auction 100 are directly mutually exclusive with one another; therefore, no more than one construction permit will be awarded for each MX group previously identified for Auction 100.<sup>21</sup> Once mutual exclusivity exists for auction purposes, even if only one applicant becomes qualified to bid or in fact places a bid for a particular construction permit, that applicant is required to submit a bid in order to obtain the construction permit.<sup>22</sup>

13. **Due Diligence.** Potential bidders are solely responsible for investigating and evaluating all technical and marketplace factors that may have a bearing on the value of the construction permits for cross-service FM translators that it is seeking in Auction 100. The Commission makes no representations or warranties about the use of this spectrum for particular services. Applicants should be aware that an

electronic), agreement information, and ownership information. During the resubmission period, some required updates in an Auction 100 Form 175 may need to be submitted by uploading an attachment. During all phases of the application process, applicants have electronic access to make certain administrative changes including updates to: applicant address, responsible party address, contact information, contact address, and bidding option (telephonic or electronic).

<sup>18</sup> For more information on making administrative changes to an existing application, see "Submission of Updates to Short-Form Applications," in the *Auction 100 Procedures Public Notice*, DA 19-273, paras. 36-40. <sup>22</sup> *Id.*

FCC auction represents an opportunity to become an FCC permittee in a broadcast service, subject to certain conditions and regulations. These conditions include, but are not limited to, the condition that FCC licenses and other authorizations (whether awarded through competitive bidding or otherwise) are subject to the authority of the FCC, under the Communications Act of 1934, as amended, to modification through rulemaking and adjudicative proceedings. MB and OEA strongly encourage potential bidders to conduct their own research prior to the beginning of bidding in order to determine the existence of pending administrative or judicial proceedings, pleadings, applications, or authorizations that might affect their decisions regarding participation in the auction. Additionally, a potential bidder should perform technical analyses or refresh previous analyses to assure itself that, should it become a winning bidder for any Auction 100 construction permit, it will be able to build and operate facilities that will fully comply with the Commission's current technical and legal requirements. Participants in this auction should continue such research throughout the auction. For further details regarding due diligence, please refer to the *Auction 100 Procedures Public Notice*, section I.B.3.<sup>23</sup>

14. **Prohibition of Certain Communications.** MB and OEA remind applicants that the Commission's rules prohibiting certain communications apply to each applicant that filed a short-form application in Auction 100.<sup>24</sup> Section 1.2105(c)(1) of the Commission's rules provides that, subject to specified exceptions, after the deadline for filing a short-form application, "all applicants are prohibited from cooperating or collaborating with respect to, communicating with or disclosing, to each other . . . in any manner the substance of their own, or each other's, or any other applicant's bids or bidding strategies (including post-auction market structure), or discussing or negotiating settlement agreements, until after the down payment deadline[.]"<sup>25</sup>

15. This prohibition took effect as of the short-form application filing deadline, which for Auction 100 was January 31, 2018, at 6:00 p.m. ET, and ends at the post-auction down payment deadline, which will be announced in a future public notice.<sup>26</sup> **This prohibition applies to all applicants<sup>27</sup> regardless of whether such applicants become qualified bidders or actually bid.<sup>28</sup>**

16. We also emphasize that, for purposes of this prohibition, an "applicant" includes all controlling interests of the entity submitting a short-form application to participate in the auction, including all officers and directors of that entity and all holders of interests amounting to 10% or more of the entity submitting a short-form application.<sup>29</sup> Thus, for example, a violation of section 1.2105(c) of the Commission's rules could occur when an individual serves as an officer and/or director for two or more

<sup>23</sup> See *id.*, paras. 22-26.

<sup>24</sup> 47 CFR §§ 1.2105(c)(1), 73.5002(d), (e).

<sup>25</sup> *Id.*, § 1.2105(c).

<sup>26</sup> *Id.*, § 1.2105(c)(1).

<sup>27</sup> But see *Capstar TX, LLC, CC Licenses, LLC and Citicasters Licenses, Inc.*, Letter Order, DA 19-272 (OEA/MB Apr. 17, 2019) (limited waiver of section 1.2105(c) of the Commission's rules with respect to communications between certain Auction 100 applicants that are commonly owned subsidiaries of iHeart Media, Inc.).

<sup>28</sup> A party that submits an application becomes an "applicant" under the rule at the application filing deadline and that status does not change based on subsequent developments. See, e.g., *Star Wireless, LLC v. FCC*, 522 F.3d 469 (D.C. Cir. 2008) (section 1.2105(c) applies to applicants regardless of whether they are qualified to bid). Thus, an auction applicant that does not correct deficiencies in its application, fails to submit a timely and sufficient upfront payment, or does not otherwise become qualified, remains an "applicant" for purposes of the rule and remains subject to the prohibition on certain communications until the applicable down payment deadline.

<sup>29</sup> 47 CFR § 1.2105(c)(7)(i).

Auction 100 applicants.<sup>30</sup> Therefore, applicants should continue to take precautionary steps to prevent prohibited communications between any of the entities or persons described covered by the prohibition.<sup>31</sup>

17. In connection with 2015 amendments to the competitive bidding rules, the Commission now prohibits a joint bidding arrangement, including any arrangement relating to the permits or licenses being auctioned that addresses or communicates, directly or indirectly, bidding at the auction, bidding strategies, including any arrangement regarding price or the specific permits or licenses on which to bid, and any such arrangement relating to the post-auction market structure.<sup>32</sup> The revised rule provides limited exceptions for a communication within the scope of any arrangement consistent with the exclusion from the Commission's rule prohibiting joint bidding, provided such arrangement is disclosed on the applicant's auction application.<sup>33</sup> An applicant may continue to communicate pursuant to any pre-existing agreement, arrangement, or understanding that is solely operational or that provides for transfer or assignment of license, provided that such agreement, arrangement or understanding does not involve the communication or coordination of bids (including amounts), bidding strategies, or the particular permits or licenses on which to bid and provided that such agreement, arrangement, or understanding is disclosed on its application.<sup>34</sup>

18. **Disclosure Obligations and Possible Sanctions.** Section 1.2105(c)(4) requires each auction applicant to report a prohibited discussion or disclosure regarding bids or bidding strategy to the Commission in writing immediately, but in no case later than five business days after the communication occurs, even if the communication does not result in an agreement or understanding regarding bids or bidding strategy that must be reported under section 1.65.<sup>35</sup> The Commission has clarified that each applicant's obligation to report any such communication continues beyond the five-day period after the communication is made, even if the report is not made within the five-day period.<sup>36</sup>

19. **Reporting Prohibited Communications.** A party reporting any communication pursuant to sections 1.65, 1.2105(a)(2) or 1.2105(c)(4) must take care to ensure that any report of a prohibited communication does not itself give rise to a violation of section 1.2105(c). For example, a party's report of a prohibited communication could violate the rule by communicating prohibited information to other applicants through the use of Commission filing procedures that would allow such materials to be made available for public inspection.

20. The Commission amended section 1.2105(c) to minimize the risk of inadvertent dissemination of information by requiring any party to file only a single report concerning a prohibited communication and to file that report with Commission personnel expressly charged with administering the Commission's auctions.<sup>37</sup> Pursuant to the rule, any report required by section 1.2105(c) must be filed consistent with the instructions set forth in the *Auction 100 Procedures Public Notice*.<sup>38</sup>

21. A party seeking to report such a prohibited communication is encouraged to consult with Auctions Division staff if it has any questions about the procedures for submitting such reports.<sup>39</sup> The *Auction 100 Procedures Public Notice* provides additional guidance on procedures for submitting application-related information.<sup>40</sup>

22. Each applicant that is a winning bidder will be required to disclose in its long-form application the specific terms, conditions, and parties involved in any bidding consortia, joint ventures, partnerships, or other agreements, understandings, or arrangements entered into relating to the competitive bidding process.<sup>41</sup> Any applicant found to have violated section 1.2105(c) of the Commission's rules may be subject to sanctions.<sup>42</sup>

23. **Antitrust Laws.** In addition, we remind applicants that they are subject to the antitrust laws. The *Auction 100 Procedures Public Notice* provides additional information concerning the applicability of antitrust laws to Auction 100 applicants.<sup>43</sup>

24. **Ex Parte Rule.** Applicants should also be aware that the Commission has generally treated mutually exclusive short-form applications to participate in the auctions process as exempt proceedings and, therefore, not subject to the *ex parte* prohibitions that pertain to restricted proceedings.<sup>44</sup>

25. **Mock Auction.** All qualified bidders will be eligible to participate in a mock auction on Friday, June 21, 2019. MB and OEA encourage all qualified bidders to take advantage of this opportunity to become familiar with the FCC's auction bidding system. In the public notice announcing the qualified bidders, we will announce the bidding schedule for the mock auction. The mock auction will be conducted over the Internet, and telephonic bidding will be available as well.

26. **Electronic Bidding.** Applicants are reminded that qualified bidders are eligible to bid either electronically or telephonically. Bidders can access the FCC auction bidding system over the Internet. The following software is required to use the FCC auction bidding system:
