On March 21, 2019, Hispamar Satélites, S.A. notified the Commission of a change of ownership of two satellites on the Commission's Permitted Space Station list, Amazonas-2 (S2793) and Amazonas-3 (S2886), both licensed by Brazil. Hispamar is owned by three entities: Hispasat S.A. (Hispasat) (12.44%), Hispasat Brasil, Ltda, a wholly owned subsidiary of Hispasat (68.52%), and Telemar Norte Leste, S.A. (19.04%). As described in the filing, Albertis Telecom Satélites, S.A.U. reached an agreement to sell its 89.68% interest in Hispasat to Red Eléctrica Corporación, S.A., which acquired the interest through its subsidiary Red Eléctrica Sistemas de Telecomunicaciones. On April 5, 2019, pursuant to Section 25.137(g) of the Commission's rules, the Satellite Division sought comment on whether the transaction affects any of the considerations made when the Amazonas-2 and Amazonas-3 satellites were granted market access. See Public Notice, Report No. SAT-01380. No comments were filed. The Satellite Division has determined that the transfer of control of Hispasat does not affect any of the considerations made when the satellites were granted U.S. market access.
