## **WIRELINE COMPETITION BUREAU ANNOUNCES THE LAUNCH OF THE NATIONAL LIFELINE ELIGIBILITY VERIFIER FOR ALL NEW ENROLLMENTS IN ELEVEN STATES**

### **WC Docket No. 11-42**

By this Public Notice, the Wireline Competition Bureau (Bureau) announces the launch of the National Lifeline Eligibility Verifier (National Verifier) for all new enrollments in Arizona, Connecticut, Georgia, Iowa, Kansas, Nebraska, Nevada, New York, Vermont, Virginia, and West Virginia.<sup>1</sup> Starting on October 23, 2019, eligible telecommunications carriers (ETCs) in these eleven states will be required to use the National Verifier's eligibility determination process for all consumers applying for Lifeline service and must cease using legacy eligibility processes for prospective Lifeline subscribers.

USAC will continue after October 23, 2019 to verify that subscribers in the National Verifier for these eleven states are eligible to receive Lifeline service through the process that was initiated during the soft launch on June 25, 2019.<sup>2</sup> In addition, annual recertification will now be conducted by the National Verifier for all Lifeline consumers in these eleven states.

As of October 23, 2019, consumers in Arizona, Connecticut, Georgia, Iowa, Kansas, Nebraska, Nevada, New York, Vermont, Virginia, and West Virginia can begin to check their eligibility for Lifeline service directly by using the National Verifier consumer portal available at [CheckLifeline.org](http://CheckLifeline.org). The consumer portal is available in both English and Spanish language versions. Consumers, as well as service providers, will also be able to mail Lifeline program forms and documentation to USAC for manual review. Consumers and service providers can obtain the Lifeline program application form by going to [CheckLifeline.org](http://CheckLifeline.org) and clicking on "use a paper form." Forms sent by mail should be sent to:

USAC Lifeline Support Center  
P.O. Box 7081  
London, KY 40742

USAC has been conducting ongoing outreach and training for ETCs in the relevant states during the soft launch. ETCs have also had access to a pre-production test environment during the soft launch, which was designed to improve ETCs' ability to conduct sample transactions using test data that does not reflect actual Lifeline applicants and train their employees for readiness. To ensure that ETCs continue to
