- Review, discuss, and potentially approve amendments to the Region 49 800 MHz Plan
- Set next regular meeting time and date for this committee
- Old Business
- New Business
- Opportunity for public comments
- Adjourn

The Region 49 Public Safety Regional Planning Committee meetings are open to the public. All eligible public safety providers whose sole or principal purpose is to protect the safety of life, health, or property in Region 49 may utilize 700 MHz and 800 MHz NPSPAC frequencies. It is essential that public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal, and non-governmental organizations eligible under Sections 90.617 and 90.523 of the Federal Communication's Rules be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 49 should plan to attend. For further information, please contact:
