PUBLIC SAFETY & HOMELAND SECURITY BUREAU ANNOUNCES PARTIAL DEACTIVATION OF THE DISASTER INFORMATION REPORTING SYSTEM FOR HURRICANE DELTA

DIRS deactivated in Alabama, Mississippi and some counties in Texas. DIRS remains active in Louisiana and three counties in Texas.

At the request of the Department of Homeland Security, Cybersecurity and Infrastructure Security Agency and the Federal Emergency Management Agency, the Federal Communications Commission (FCC) has deactivated its Disaster Information Reporting System (DIRS)¹ for the following areas affected by Hurricane Delta:

Alabama: Baldwin, Mobile

Mississippi: Adams, Amite, Claiborne, Copiah, Franklin, Hinds, Issaquena, Jefferson, Jefferson Davis, Lawrence, Lincoln, Marion, Pike, Sharkey, Simpson, Walthall, Warren, Wilkinson, Wilkinson, Hancock, Harrison, Jackson, Pearl River, Stone, Lamar

Texas: Brazoria, Chambers, Galveston, Hardin, Harris, Jasper, Liberty, Montgomery, Nacogdoches, Polk, Sabine, San Augustine, San Jacinto, Shelby, Tyler

Communications providers do not need to provide any additional reporting in DIRS for these areas in Louisiana with respect to Hurricane Delta. The FCC will, however, continue to monitor the status of communications services and work with providers and government partners in these areas as needed to support remaining restoration efforts.

DIRS remains activated in the following counties in Louisiana and Texas:

Louisiana: Acadia, Allen, Ascension, Assumption, Avoyelles, Beauregard, Bienville, Bossier, Caddo, Calcasieu, Caldwell, Cameron, Catahoula, Claiborne, Concordia, De Soto, East Baton Rouge, East Carroll, East Feliciana, Evangeline, Franklin, Grant, Iberia, Iberville, Jackson, Jefferson, Jefferson Davis, Lafayette, Lafourche, La Salle, Lincoln, Livingston, Madison, Morehouse, Natchitoches, Orleans, Ouachita, Plaquemines, Pointe Coupee, Rapides, Red River, Richland, Sabine, St. Bernard, St. Charles, St. Helena, St. James, St. John the Baptist, St. Landry, St. Martin, St. Mary, St. Tammany, Tangipahoa, Tensas, Terrebonne, Union, Vermilion, Vernon, Washington, Webster, West Baton Rouge, West Carroll, West Feliciana, Winn

¹ DIRS is a voluntary, web-based system that communications providers, including wireless, wireline, broadcast, cable and Voice over Internet Protocol providers, can use to report communications infrastructure status and situational awareness information during times of crisis.

Texas: Jefferson, Newton, Orange

The FCC appreciates the cooperation of all the communications providers that have voluntarily submitted data to DIRS in the aftermath of Hurricane Delta. In disaster situations, information on the operational status of communications services provides critical situational awareness and supports effective emergency response and restoration efforts. The FCC expects to continue to publish daily communications status reports while DIRS remains active for any area in connection with Hurricane Delta.

All FCC releases in connection with Hurricane Delta may be found at <https://www.fcc.gov/Delta>
