WIRELESS TELECOMMUNICATIONS BUREAU ANNOUNCES THAT APPLICATIONS FOR AUCTION 105 LICENSES ARE ACCEPTED FOR FILING

On August 25, 2020, the Federal Communications Commission (Commission) completed the auction of Priority Access Licenses in the 3550-3650 MHz portion of the 3550-3700 MHz (3.5 GHz) band, and the Office of Economics and Analytics (OEA) and the Wireless Telecommunications Bureau (WTB) announced the results of that auction on September 2, 2020.¹ Long-form applications (FCC Form 601) for licenses won in Auction 105 were due on September 17, 2020. The long-form applications listed in Attachment A have been found, upon initial review, to be acceptable for filing.² The Commission may return or dismiss the applications, however, if upon further examination, they are found to be defective or not in conformance with the Commission's rules.³ The Commission's review of the long-form applications of other winning bidders in Auction 105 is ongoing.

We remind Auction 105 long-form applicants that all Citizens Broadband Radio Service Devices, including those used for Priority Access, must be registered with a Spectrum Access System (SAS) and must comply with the SAS administrators' instructions.⁴ We also remind Auction 105 long-form

² The applications listed in Attachment A represent 235 of the 255 applications filed by Auction 105 winning bidders. Of these, five applicants—Pioneer Natural Resources USA, Inc., Gtek Computers L.L.C., Williamson Enterprise, LLC dba Winchester Wireless, Brian Bowers, and Texas A&M University - College Station—did not file a valid FCC Form 601 by September 17, 2020, as required by section 1.2107 of the Commission's rules. 47 CFR § 1.2107(c). In addition, numerous applicants failed to file the required Ownership Report (FCC Form 602) by September 17, 2020, as required under the Commission's rules. 47 CFR § 1.2107(f). We hereby find that it is in the public interest to waive sections 1.2107(c) and (f) of the Commission's rules on our own motion, as applicable. Because each of these applicants timely met its down and final payment requirements and submitted the missing form(s) expeditiously, the post-auction licensing process for Auction 105 was not significantly delayed or materially affected. In reaching this conclusion, we also give considerable weight to the applicants' prior records of compliance with deadlines in Auction 105. Thus, we waive the rules associated with missed FCC Form 601 and 602 deadlines, pursuant to sections 0.331 and 1.925(a) of the Commission's rules. 47 CFR §§ 0.331, 1.925(a). We nonetheless note that our decision to waive these rules in this instance should not suggest that such waivers will be routine. The timely filing of required forms is important to the efficiency of the competitive bidding licensing process, and the applicants' noncompliance imposes additional administrative burden on the Commission. The fact that applicants' errors appear inadvertent does not excuse their failure to meet the filing deadline, and the Commission reserves the right to take any enforcement action it deems appropriate at a later time.

³ See 47 CFR § 1.934(a), (d).

⁴ See 47 CFR § 96.23(b); see also 47 CFR § 96.39. The Wireless Telecommunications Bureau and Office of Engineering and Technology, in close consultation with the National Telecommunications and Information Administration and the Department of Defense, approved the following Spectrum Access System administrators for full commercial deployments: Amdocs, CommScope, Federated Wireless, Google, and Sony. See *Wireless Telecommunications Bureau and Office of Engineering and Technology Approve Spectrum Access System Administrator Amdocs for Full Scale Commercial Deployment in the 3.5 GHz Band*, GN Docket No. 15-319, Public (continued....)

applicants that the SAS administrators will assign channels for Priority Access use.⁵ The SAS administrators may have already reached out to Auction 105 long-form applicants via email to coordinate on these matters. Applicants are encouraged to contact the SAS administrators directly if they have any questions about SAS operations or the channel assignment process.

Petitions to deny the applications listed in Attachment A must be filed no later than **December 14, 2020**, ten (10) days after the date of this Public Notice.⁶ Oppositions to a petition to deny must be filed no later than **December 21, 2020**, five (5) business days after the filing date for petitions to deny. Replies to oppositions must be filed no later than **December 29, 2020**, five (5) business days after the filing date for oppositions. All pleadings filed regarding any of these Auction 105 long-form applications should reference the file number of the application. Each application is a restricted proceeding under the Commission's rules.⁷ A petitioner shall serve a copy of its petition to deny on the applicant and on all other interested parties pursuant to 47 CFR § 1.47. Oppositions and replies shall be served on the petitioner and all other interested parties.⁸

Pleadings may be filed electronically through the Commission's Universal Licensing System (ULS), or by paper pursuant to the following instructions. Parties are strongly encouraged to file using ULS.

- **Electronic Filers:** Pleadings may be filed electronically using the Internet by accessing ULS: <https://www.fcc.gov/wireless/systems-utilities/universal-licensing-system>. Each screen indicates the information to be provided or the action(s) to be performed to complete that screen. From the ULS website, click on "SUBMIT A PLEADING" to begin the process of filing a pleading. The link takes the user to the *Pleadings Information* screen. Upon completing the *Pleadings Information* screen, click "CONTINUE" to go to the *File Numbers/Call Signs* screen. Upon providing the information required on that screen, complete steps three and four at the *Attach File* and *Confirmation* screens, respectively. For more information, detailed instructions can be found in the *Public Notice* announcing the implementation of electronic filing for pleadings.⁹
- **Paper Filers:** Parties who choose to file by paper must file an original and one copy of each filing. Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission's Secretary, Office of the Secretary, Federal Communications Commission.
 - Until further notice, the FCC no longer accepts hand-delivered or messenger-delivered paper filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID-19.¹⁰
