## CONNECT AMERICA FUND PHASE II AUCTION SUPPORT AUTHORIZED FOR NEW YORK WINNING BIDDER

### WC Docket No. 10-90

By this Public Notice, the Wireline Competition Bureau (WCB) authorizes Connect America Fund (CAF) Phase II support for the New York winning bidder identified in Attachment A of this Public Notice.

For the winning bidder identified in Attachment A, we have reviewed the long-form application information, including the letter of credit and Bankruptcy Code opinion letter from the long-form applicant's legal counsel.<sup>1</sup> Based on the representations and certifications in the relevant long-form application, we authorize support for the winning bid listed in Attachment A.

In Attachment A, we also include a state-level summary that provides for the long-form applicant: (1) the total support amount over 10 years and total number of locations that the long-form applicant is being authorized in New York; (2) the total number of locations to which the authorized support recipient must offer the required voice and broadband services for each performance tier and latency; and (3) the eligible census blocks included in the winning bid that are being authorized.<sup>2</sup>

Once we announce that a long-form applicant is ready to be authorized, it then has 10 business days to submit a letter of credit meeting the Commission's requirements that covers the first year of support at a minimum and an attorney bankruptcy opinion letter (opinion letter).<sup>3</sup> Mid-Hudson Data Corp. (Mid-Hudson) was included in the Ready to Authorize Public Notice released on January 6, 2020.<sup>4</sup> Because January 20, 2020 was a federal holiday,<sup>5</sup> the Public Notice set the applicable deadline for submitting an irrevocable stand-by letter(s) of credit and opinion letter(s) from their legal counsel as prior to 6:00 p.m. ET on January 21, 2020.<sup>6</sup>

Mid-Hudson submitted a petition for waiver of the letter of credit deadline on January 24, 2020, explaining that it "made best efforts to accelerate and complete the necessary negotiations and discussions with its bank and legal counsel, but due to the complexity of the work involved, vacation of key

<sup>2</sup> A New York winning bidder that deploys to fewer locations than determined by the CAM may have its total support reduced. See *Connect America Fund*, Order, 32 FCC Rcd 968, 988, para. 55 (2017) (*New York Auction Waiver Order*).

personnel, and the Martin Luther King, Jr.] bank holiday, Mid-Hudson realized by January 17 that it would be unable to submit both completed documents by the deadline.<sup>77</sup> On January 17, counsel for Mid-Hudson notified Commission staff of its concerns about meeting the deadline. USAC ultimately received Mid-Hudson's letter of credit on January 24, 2020.

Generally, the Commission's rules may be waived for good cause shown.<sup>8</sup> Here, we find that special circumstances warrant deviation from the Commission's letter of credit deadline. For the CAF Phase II auction and in the context of other auctions, Commission staff have granted waivers of post-auction long-form application filing deadlines "when minor, inadvertent, post-auction delinquencies did not disrupt the auction process, nor undermine the Commission's policy of facilitating rapid implementation of service to the public."<sup>9</sup> In this instance, USAC received Mid-Hudson's letter of credit only three business days after the deadline, which did not result in a delay of the Commission's auction process or the provision of voice and broadband service to consumers living in the areas where Mid-Hudson was awarded support.<sup>10</sup>

Further, we find that it serves the public interest to grant Mid-Hudson's waiver petition. The Commission adopted the requirement for a standby irrevocable letter of credit due within 10 business days after the Bureau announced that it was ready to authorize a provisionally selected bidder to receive support, in order to "[accomplish] our role as stewards of the public's funds by securing our financial

commitment to provide Connect America support in the auction context.”<sup>11</sup> Because Mid-Hudson submitted the letter of credit to the Commission and USAC with only a minor three-day delay, Commission staff and USAC were able to fully evaluate Mid-Hudson’s qualifications in a timely fashion. We conclude that a waiver will serve the public interest as Mid-Hudson has otherwise substantially complied with the application deadlines, has expressed a willingness to serve consumers in its winning bid areas, and has provided the required assurance through its letter of credit that will protect the public’s funds. Were we to find Mid-Hudson in default for missing the deadline, we may be precluding an otherwise qualified applicant from being authorized to receive support, delaying the provision of voice and broadband service in these areas.<sup>12</sup>

Upon issuance of this Public Notice, the Universal Service Administrative Company (USAC) is directed and authorized to obligate and disburse from the Universal Service Fund the amounts identified in Attachment A to the long-form applicant associated with the study area specified in Attachment A. USAC will make disbursement payments to the account on file for the 498 ID associated with the study area code (SAC). The support will be disbursed in 120 monthly payments, which will begin at the end of this month.

Below, we provide a summary of the various obligations of authorized CAF Phase II auction support recipients, including recipients of CAF Phase II support through New York’s New NY Broadband Program. We apply the Commission’s recent *CAF II Auction Recipients’ Deployment and Reporting Deadlines Aligned Order (Alignment Order)* establishing uniform deadlines for **all** recipients of CAF Phase II auction funding, aligning program deadlines related to deployment and reporting obligations thereby “reduc[ing] confusion and ensur[ing] continued compliance with these obligations and requirements.”<sup>13</sup> The list below is not a comprehensive list; thus, each support recipient is still responsible for conducting the due diligence required to comply with universal service fund requirements and the Commission’s rules.

*Summary of Obligations and Relevant Dates.* **All** CAF Phase II authorized long-form applicants, including recipients of CAF Phase II support through New York’s New NY Broadband Program, are subject to the following deadlines:<sup>14</sup>

- **Annual reporting of location information.** New York winning bidders are required to file location information with USAC through the High-Cost Universal Broadband (HUBB) portal.<sup>15</sup> This information includes geolocation data for each qualifying location to which they are offering the requisite service and the technology the winning bidder is using to offer the requisite service to the qualifying locations. The requisite service is: at least one standalone voice plan and one service plan that provides broadband at the relevant performance tier and latency requirements at

rates that are reasonably comparable to rates offered in urban areas.<sup>16</sup> The locations must be in the eligible census blocks covered by the long-form applicant's winning bids.<sup>17</sup>

The Commission has consistently encouraged carriers subject to defined deployment obligations and HUBB reporting obligations to report location data on a rolling basis and has adopted a best practice of filing this information within 30 days after the initial offering of service.<sup>18</sup> While reporting on a rolling basis is encouraged, the first deadline for **all** authorized long-form applicants to submit their location data is **March 1, 2021**.<sup>19</sup> All support recipients must continue to report this information by March 1 in each year thereafter<sup>20</sup> until all build-out requirements are satisfied. For more information about the HUBB portal and reporting location data, visit <https://www.usac.org/hc/annual-requirements/hubb.aspx>.

- **Service milestones.** As a result of the recent *Alignment Order*, January 1, 2020 is the commencement of the deployment timeline for **all** CAF Phase II auction support recipients, rather than the release date of the Bureau's authorization public notice.<sup>21</sup> Thus, the service milestones for **all** CAF Phase II auction support recipients, including recipients of CAF Phase II support through New York's New NY Broadband Program, will be as follows:<sup>22</sup>

Percentage of Locations in a State	Service Milestone Deadline
40	December 31, 2022
60	December 31, 2023
80	December 31, 2024
100	December 31, 2025

Next, the *Alignment Order* waived the related deadline imposed by section 54.316(b)(4) of the Commission's rules.<sup>23</sup> As we stated above, **all** support recipients that are being authorized for CAF Phase II auction support must file their certifications in the HUBB by **March 1** following each service milestone.

If an ETC is unable to meet a service milestone, it must notify the Commission, USAC, and the relevant state, U.S. Territory, or Tribal government as appropriate, no later than ten business days after the applicable deadline.<sup>24</sup> If the ETC is unable to meet the required deployment obligations

due to circumstances beyond its control, it may also seek waiver of the service milestones.<sup>25</sup> The Commission has repeatedly warned Phase II support recipients, however, that it does not expect to routinely grant such waiver requests, emphasizing the difficulty of demonstrating good cause under circumstances where carriers fail to plan for contingencies that would prevent compliance with defined deployment obligations.<sup>26</sup>

- **Annual section 54.313 report.** The long-form applicant authorized in this Public Notice will be required to file its first annual section 54.313 report by **July 1, 2021** and each subsequent year until the year after their support terms have ended.<sup>27</sup> Annual reports are filed with USAC.<sup>28</sup> Support recipients must complete the FCC Form 481 on USAC's website.<sup>29</sup> They must also test and certify compliance with relevant performance requirements in section 54.309 of the Commission's rules.<sup>30</sup> WCB, the Wireless Telecommunications Bureau, and the Office of Engineering and Technology have adopted a uniform framework to measure and report on the performance of ETCs' service.<sup>31</sup>
- **Annual section 54.314 certification.** The first annual section 54.314 certification is due for the long-form applicants that are being authorized by this Public Notice by **October 1, 2021**.<sup>32</sup>

Pursuant to section 54.314 of the Commission's rules, if a support recipient was designated by a state, that state must certify on the support recipient's behalf "that all federal high-cost support provided . . . within that State was used in the preceding calendar year and will be used in the coming calendar year only for the provision, maintenance, and upgrading of facilities and services for which the support is intended."<sup>33</sup>

relevant facts.<sup>34</sup> Certifications must be filed with both the Commission and USAC. ETCs may submit their certifications to USAC via its online filing system or by sending the appropriate certification sample letter (provided on USAC’s website) via email or U.S. mail.<sup>35</sup> Certifications must also be submitted to the Commission’s Office of the Secretary on or before **October 1<sup>st</sup>**. The submission should clearly reference WC Docket No. 14–58, ETC Annual Reports and Certifications.

All post-designation ETC-related filings must be submitted in good faith and include a certification that, to the best of the ETC’s knowledge and belief, the information is complete and accurate.<sup>36</sup> In addition, ETCs have an on-going duty to correct or amend information if they have reason to believe, either through their own investigation or upon notice from USAC, that the data are inaccurate, incomplete, or contain errors or anomalies.<sup>37</sup> The failure to timely file information may result in penalties in the form of a reduction in support.<sup>38</sup>

*National Security Supply Chain Proceeding.* We remind winning bidders that recipients of CAF Phase II auction support will be subject to the Commission’s National Security Supply Chain proceeding, including the rule that “no universal service support may be used to purchase, obtain, maintain, improve, modify, or otherwise support any equipment or services produced or provided by any company posing a national security threat to the integrity of communications networks or the communications supply chain.”<sup>39</sup> The prohibition on using universal service funds applies “to upgrades and maintenance of existing equipment and services.”<sup>40</sup>

*Document Retention and Compliance Audits.* Under section 54.320 of the Commission’s rules, recipients of high-cost support must retain, for at least ten years, all records necessary to demonstrate to auditors that the support received was consistent with universal service high-cost program rules and to make these documents available upon request to the Commission (and any of its Bureaus or Offices) and to USAC, and to their respective auditors.<sup>41</sup> In addition, all ETCs that receive high-cost support are subject to random compliance audits and other investigations to ensure compliance with program rules and orders, including verification of actual deployment to reported locations.<sup>42</sup>

*Consequences for Non-Compliance.* A support recipient is subject to non-compliance measures once it becomes a support recipient if it fails or is unable to meet its minimum coverage requirement or

other service requirements, or fails to fulfill any other term or condition of Phase II support.<sup>43</sup> These measures scale with the extent of non-compliance and include additional reporting, withholding of support, and support recovery.<sup>44</sup> A defaulting support recipient may also be subject to sanctions, including, but not limited to, potential revocation of ETC designations and suspension or debarment.<sup>45</sup>

*ETC Obligations.* All support recipients were required to obtain a high-cost ETC designation prior to being authorized for Phase II support, and thus should be familiar with ETC requirements. For example, all high-cost ETCs commit to serving the entire area covered by an ETC designation and must offer Lifeline voice and broadband service throughout such area to qualifying low-income consumers pursuant to the Lifeline program rules.<sup>46</sup> While a New York winning bidder that receives support was not required to obtain an ETC designation that was limited only to the eligible census blocks covered by its winning bids, it may only use its Phase II support to offer the required voice and broadband services to locations in eligible census blocks. If a New York Broadband Program participant receiving Phase II support has obtained an ETC designation that covers more area than the eligible census blocks in its winning bids, that support recipient has the obligation to provide Lifeline services throughout its designated service area, including in areas where it cannot use its Phase II support.<sup>47</sup> A high-cost ETC may also be subject to state-specific requirements imposed by the state that designated it as an ETC.

*Discontinuance of Service and/or Relinquishment of Support.* It is a violation of Commission rules to receive universal service support if that support is not used to provide, maintain, and upgrade voice and/or broadband facilities and services in eligible areas or if the recipient is no longer offering supported services. A carrier that cannot appropriately use universal service support must relinquish its ETC designation pursuant to section 214(a) of the Act and section 54.205 of the Commission's rules.<sup>48</sup> The ETC must file a notice of relinquishment in WC Docket No. 09-197, Telecommunications Carriers Eligible for Universal Service Support, using the Commission's Electronic Comment Filing System (ECFS). WCB will release an order approving the relinquishment if the relinquishing ETC demonstrates that the affected area will continue to be served by at least one ETC.<sup>49</sup> The ETC must then send a copy of its relinquishment notice and a copy of the relinquishment order (within one week of its release) to USAC at [hcorders@usac.org](mailto:hcorders@usac.org). A carrier that intends to discontinue service must first seek authorization to discontinue service under section 63.71 of the Commission's rules.<sup>50</sup>

*Transfers of Control.* ETCs seeking to transfer control of their domestic authorizations to operate pursuant to section 214 of the Communications Act of 1934, as amended, or to engage in the sale of assets under section 214 must first receive approval from the Commission in accordance with sections 63.03 and 63.04 of the Commission's rules governing the procedures for domestic transfer of

*Price Cap Carrier Obligations.* Price cap carriers that serve the census blocks where a CAF Phase II auction support recipient that is not the incumbent price cap carrier has been authorized to receive support will no longer have a federal high-cost ETC obligation to continue to offer voice service in those census blocks pursuant to the forbearance granted in the *December 2014 Connect America Order*.<sup>53</sup>

*Transitioning Legacy Support.* WCB will soon update the list of census blocks where incumbent price cap carriers will continue to receive legacy support by removing the eligible census blocks that are covered by the winning bids in Attachment A.<sup>54</sup> Incumbent price cap carriers will no longer receive legacy support in the eligible census blocks covered by the winning bids in Attachment A beginning on the first day of the next month.<sup>55</sup>

We will remove these census blocks from the list of census blocks where price cap carriers continue to have the federal high-cost ETC obligation to provide voice service. The “List of Census Blocks Subject to Federal High-Cost Voice Obligations” is available at <https://www.fcc.gov/encyclopedia/price-cap-resources>.

<sup>54</sup> Incumbent price cap carriers were also given the option of declining legacy support in each state that they serve. *See Wireline Competition Bureau Announces Universal Service Support Amounts Offered to Price Cap Carriers and Fixed Competitive Eligible Telecommunications Carriers after Authorization of Connect America Phase II Auction Support*, Public Notice, 34 FCC Rcd 1296 (WCB 2019).

<sup>55</sup> *Connect America Fund*, WC Docket No. 10-90, Report and Order, FCC 19-8, at 5-6, paras. 14-15 (Feb. 15, 2019) (stating that price cap carriers will no longer receive legacy support for the census blocks where CAF Phase II auction support is authorized beginning on the first day of the month after the CAF Phase II auction support is authorized for those census blocks).
