WIRELESS TELECOMMUNICATIONS BUREAU GRANTS 24 GHZ BAND UPPER MICROWAVE FLEXIBLE USE SERVICE LICENSES

Auction No. 102

On May 28, 2019, the Federal Communications Commission (“Commission”) completed the auction of 24 GHz Upper Microwave Flexible Use Service (UMFUS) licenses (Auction 102), and announced the results on June 3, 2019.¹ This auction, which was designated Auction 102, raised a total of \$2,022,676,752 in net bids (\$2,024,268,941 in gross bids), with 29 bidders winning a total of 2,904 licenses.² Some of the FCC long-form applications (FCC Form 601) of winning bidders were accepted for filing on October 30, 2019.³ On December 11, 2019, the Commission released the first public notice granting applications in Auction 102.⁴

Upon further review and examination, the application for the licenses listed in Attachment A has been found to be complete and in conformance with the Commission’s rules, and there are no petitions to deny or other requests pending that would prevent grant of these licenses. We find that granting the application for the licenses listed in Attachment A serves the public interest, convenience, and necessity. Furthermore, the Commission has received full payment for the licenses listed in Attachment A, as required by Section 1.2109(a) of its rules.⁵ Accordingly, by this Public Notice, we announce the grant of the licenses listed in Attachment A. We grant these licenses pursuant to Section 309(a) of the Communications Act, 47 U.S.C. § 309(a), and Sections 0.131 and 0.331 of the Commission’s rules, 47 C.F.R. §§ 0.131, 0.331, because it will serve the public interest, convenience, and necessity.
