Pursuant to the terms of the proposed transaction, Liberty would acquire a controlling interest of approximately 96% of BBVI from Broadband Investments LLLP, Michael J. Meluskey, and two other individuals who hold a total of 0.20% of BBVI.<sup>21</sup> Applicants explain that, upon consummation of the proposed transaction, Liberty's experienced management team would assume the operations of BBVI, including BBVI's Connect USVI Fund obligations.<sup>22</sup>

Applicants assert that a grant of the Application would serve the public interest, convenience, and necessity. They state that the proposed transaction "will promote the public interest by providing BBVI with additional financial resources, operational capability and management expertise that will allow the company to accelerate its efforts to deploy resilient fiber-based voice and broadband services in the U.S. Virgin Islands and thereby help bridge the digital divide."<sup>23</sup> Specifically, Applicants state that the proposed transaction will provide BBVI access to capital from Liberty's substantial financial resources, and that "as a result of this infusion of capital, BBVI will be well positioned to accelerate the network construction and deployment of the [Connect] USVI Fund fiber network that will make voice and Gigabit broadband available to all 46,039 locations in the U.S. Virgin Islands by the end of 2027, as required by Stage 2 of the [Connect] USVI Fund program."<sup>24</sup> Applicants further contend that Liberty "has extensive operational experience and managerial capabilities and resources, which will help steer BBVI's service enhancements and expansion, including in connection with BBVI's existing fixed wireless broadband network and deployment of the planned fiber network."<sup>25</sup> Finally, Applicants assert that the proposed transaction will not adversely affect competition and will be seamless with respect to BBVI's existing customers.<sup>26</sup>
