NOTICE OF APPARENT LIABILITY FOR FORFEITURE

Adopted: February 25, 2021

Released: February 25, 2021

By the Chief, Enforcement Bureau:

I. INTRODUCTION

1. Ryan Root d/b/a Root Automation and 4Fast.net (Root Automation), a facilities-based broadband provider, apparently failed to file FCC Form 477 twenty times and apparently filed late one time. Taking into account Root Automation’s history of apparent Form 477 violations, we propose a penalty of \$20,000 against Root Automation for apparently failing to timely file its broadband data.

II. BACKGROUND

2. To accomplish its broadband goals, the Federal Communications Commission (Commission or FCC) requires facilities-based broadband service providers to file FCC Form 477 twice each year. The March 1 filing reports data as of December 31 of the prior year, and the September 1 filing reports data as of June 30 of the current year.¹ Form 477 contains important information that assists the Commission in carrying out its statutory mandates, including the requirement that the Commission “shall encourage the deployment on a reasonable and timely basis of advanced telecommunications capability to all Americans.”² Form 477 filings contain service speed and subscriber information that the Commission uses to assess the state of broadband availability in the United States, and to take steps to further the goal of increasing that availability.³ The Commission uses data obtained from FCC Form 477 to “describe the deployment of broadband infrastructure,”⁴ and the collected data enable the Commission to appropriately target universal service funds to unserved and underserved regions and to meet public

¹ See 47 CFR §§ 1.7001, 1.7002; *FCC Form 477 Local Telephone Competition and Broadband Reporting Instructions for Filing as of December 31, 2019 and Beyond* at 32 (*December 31, 2019 FCC Form 477 Instructions*). Section 1.7001 directs FCC Form 477 filers to make filings “in accordance with the Commission’s rules and instructions to the FCC Form 477,” and warns that “[f]ailure to file the FCC Form 477 in accordance with the Commission’s rules and instructions to the Form 477 may lead to enforcement action pursuant to the Act and any other applicable law.” From time-to-time the Commission has issued a Public Notice shifting the filing data beyond March 1st or September 1st because those data coincide with a date that the Commission was officially closed (*e.g.*, due to a weekend or Federal holiday) or because of maintenance of the electronic filing system.

safety obligations. Federal and state agencies and the general public also benefit from the data reported on Form 477.

3. Since 2005, and beginning with the filing due September 1, 2005 for data as of June 30, 2005, the Commission has required “all facilities-based providers” of fixed and mobile broadband connections to end-users to submit counts of broadband connections in FCC Form 477.⁵ As explained in a related 2004 FCC news release, this includes facilities-based providers in rural areas, regardless of their size.⁶ Fixed wireless facilities-based broadband providers have been required to file both “deployment” and “subscription” data on their FCC Form 477 filings since 2014.⁷ The Commission has underscored the importance of timely and accurate FCC Form 477 filings through enforcement advisories and enforcement action.⁸

4. Root Automation is a facilities-based provider of broadband connections to end users via terrestrial fixed wireless.⁹ Root Automation holds several Commission licenses.¹⁰

5. Although Root Automation and its predecessor Root Automation, Inc. appear to have offered broadband services to end users since at least 2009,¹¹ it apparently did not make its first Form 477

In 2018, Ryan Root registered

filings with the FCC until 2019. Root Automation apparently made its first ever Form 477 filing on August 26, 2019.¹² That filing had been due on March 8, 2019, over five months earlier. Root Automation made a timely filing of its June 2019 data, but since that time it has made no further filings. Specifically, Root Automation apparently never submitted its Form 477 filings due on March 2 and September 1, 2020.

III. DISCUSSION

6. Violations of the FCC Form 477 filing requirements are significant because FCC Form 477 is a critical fact-gathering instrument that informs the Commission's efforts to advance broadband availability. Moreover, in many instances service providers submitting FCC Form 477 data have the best, if not the only, reliable data about where their facilities are located and which areas they can serve. Timely data is essential to the mission of fostering the availability of broadband services across the United States, and failing to provide it materially impairs the Commission's ability to assess broadband deployment and to measure the subscribership upon which Commission policy is based.

A. Root Automation Apparently Violated Sections 1.7001 and 1.7002 of the Commission's Rules

7. We conclude that Root Automation apparently violated sections 1.7001 and 1.7002 of the Commission's rules by failing to make twenty required Form 477 filings –twice each year from 2010-2018 and twice in 2020 – and by failing to timely file one Form 477, which was due on March 8, 2019.¹³

8. Even though Root Automation has been providing facilities-based broadband service to end users for at least eleven years¹⁴ and has been required to file FCC Forms 477 twice every year during that period,¹⁵ it apparently never made a required filing until 2019. Specifically, Root Automation apparently failed to file FCC Form 477 twenty times: twice every year from 2010 through 2018, and twice in 2020. In addition, Root Automation apparently late-filed one Form 477 due on March 8, 2019.¹⁶ Of these, only the missed filings due on March 2, 2020 and September 1, 2020, are within our one-year statute of limitations for proposing a forfeiture.¹⁷

¹⁷ Section 503(b)(6) of the Communications Act of 1934, as amended (Act), prohibits the Commission from proposing a forfeiture penalty if the violation charged occurred more than one year prior to the date of the issuance of the notice of apparent liability. 47 U.S.C. § 503(b)(6).

B. Proposed Forfeiture

9. Section 503(b) of the Act authorizes the Commission to impose a forfeiture against any entity that “willfully or repeatedly fail[s] to comply with any of the provisions of the [Act] or of any rule, regulation, or order issued by the Commission.”¹⁸ For the type of violation at issue here, section 503(b)(2)(D) of the Act authorizes us to assess a forfeiture of up to \$20,731 for each violation or each day of a continuing violation, up to a statutory maximum of \$155,485 for a single act or failure to act.¹⁹ In exercising our forfeiture authority, we must consider the “nature, circumstances, extent, and gravity of the violation and, with respect to the violator, the degree of culpability, any history of prior offenses, ability to pay, and such other matters as justice may require.”²⁰

10. In addition, the Commission has established forfeiture guidelines that establish base penalties for certain violations and identify criteria that we consider when determining the appropriate penalty in any given case.²¹ Section 1.80(b) of the Commission’s rules establishes a base forfeiture of \$3,000 for failure to file a required form or information, for each violation or each day of a continuing violation. We have discretion, however, to depart from these guidelines, taking into account the particular facts of each individual case.²²

11. Given the critical need to ensure accurate broadband services data and the fundamental role that FCC Form 477 data plays in policymaking and broadband subsidy funding decision-making, including accurate targeting of such subsidies only to areas in need of them, violations of FCC Form 477 filing obligations are especially serious.²³ Here, Root Automation apparently has missed twenty filings in total. All twenty are violations of our rules. In addition, Root Automation filed the Form 477 due in March of 2019 in August 2019 – over five months late.²⁴ Even though the statute of limitations for assessing a forfeiture has run on all but the two most recent violations,²⁵ this is compelling evidence of a history of disregard for the Commission’s filing requirements.

12. Considering that Root Automation has an apparent history of prior offenses that fall outside the statute of limitations, an upward adjustment of the \$3,000 base forfeiture is justified. As a result of its one late-filed and twenty never-filed Forms 477, Root Automation’s data were not included in Commission reports and analysis, which distorted the actual broadband deployment and subscription figures for the United States. Thus, based on these factors, as well as the gravity of impact that such missing data have on guiding broadband policy and monetary decision-making, we propose an upward adjustment of \$7,000 per violation for Root Automation’s apparently never filed March 2020 and

September 2020 Forms 477, which takes into account the circumstances surrounding the apparent violations and Root Automation's history of apparently failing to file, and to timely file, Form 477.²⁶

13. Therefore, after applying section 1.80 of the Commission's rules, and the statutory factors, we propose a total forfeiture of \$20,000, for which Root Automation is apparently liable.²⁷

IV. CONCLUSION

14. We have determined that Root Automation apparently willfully or repeatedly violated sections 1.7001 and 1.7002 of the Commission's rules. Accordingly, Root Automation is apparently liable for a \$20,000 forfeiture.

V. ORDERING CLAUSES

15. Accordingly, **IT IS ORDERED** that, pursuant to section 503(b) of the Act and section 1.80 of the Rules,²⁸ Ryan Root d/b/a Root Automation and 4Fast.net is hereby **NOTIFIED** of this **APPARENT LIABILITY FOR FORFEITURE** in the amount of twenty thousand dollars (\$20,000) for apparently willfully and repeatedly violating sections 1.7001 and 1.7002 of the Commission's rules.²⁹

16. **IT IS FURTHER ORDERED** that, pursuant to section 1.80 of the Commission's rules,³⁰ within thirty (30) calendar days of the release date of this Notice of Apparent Liability for Forfeiture, Ryan Root d/b/a Root Automation and 4Fast.net **SHALL PAY** the full amount of the proposed forfeiture or **SHALL FILE** a written statement seeking reduction or cancellation of the proposed forfeiture consistent with paragraph 19 below.

17. Ryan Root d/b/a Root Automation and 4Fast.net, shall send electronic notification of payment to Victoria Randazzo, Enforcement Bureau, Federal Communications Commission, at Victoria.Randazzo@fcc.gov on the date said payment is made. Payment of the forfeiture must be made by credit card, ACH (Automated Clearing House) debit from a bank account using the Commission's Fee Filer (the Commission's online payment system),³¹ or by wire transfer. The Commission no longer accepts forfeiture payments by check or money order. Below are instructions that payors should follow based on the form of payment selected.³²

- Payment by wire transfer must be made to ABA Number 021030004, receiving bank TREAS/NYC, and Account Number 27000001. A completed Form 159 must be faxed to the Federal Communications Commission at 202-418-2843 or e-mailed to RROGWireFaxes@fcc.gov on the same business day the wire transfer is initiated. Failure to provide all required information in Form 159 may result in payment not being recognized as having been received. When completing FCC Form 159, enter the Account Number in block number 23A (call sign/other ID), enter the letters "FORF" in block number 24A (payment type

code), and enter in block number 11 the FRN(s) captioned above (Payor FRN).³³ For additional detail and wire transfer instructions go to <https://www.fcc.gov/licensing-databases/fees/wire-transfer>.

- Payment by credit card must be made by using the Commission’s Fee Filer website at <https://apps.fcc.gov/FeeFiler/login.cfm>. To pay by credit card, log-in using the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select “Pay bills” on the Fee Filer Menu, and select the bill number associated with the NAL Account – the bill number is the NAL Account number with the first two digits excluded – and then choose the “Pay by Credit Card” option. Please note that there is a \$24,999.99 limit on credit card transactions.
- Payment by ACH must be made by using the Commission’s Fee Filer website at <https://apps.fcc.gov/FeeFiler/login.cfm>. To pay by ACH, log in using the FRN captioned above. If payment must be split across FRNs, complete this process for each FRN. Next, select “Pay bills” on the Fee Filer Menu and then select the bill number associated to the NAL Account – the bill number is the NAL Account number with the first two digits excluded – and choose the “Pay from Bank Account” option. Please contact the appropriate financial institution to confirm the correct Routing Number and the correct account number from which payment will be made and verify with that financial institution that the designated account has authorization to accept ACH transactions.

18. Any request for making full payment over time under an installment plan should be sent to: Chief Financial Officer – Financial Operations, Federal Communications Commission, 45 L Street, NE, Washington, DC 20554 and e-mailed to Scott Radcliffe, Revenue & Receivables Operations Group, FCC Office of the Managing Director, at Scott.Radcliffe@fcc.gov.³⁴ If you have any questions regarding payment procedures, please contact the Financial Operations Group Help Desk by phone, 1-877-480-3201, or by e-mail, ARINQUIRES@fcc.gov.

19. The written statement seeking reduction or cancellation of the proposed forfeiture, if any, must include a detailed factual statement supported by appropriate documentation and affidavits pursuant to sections 1.16 and 1.80(f)(3) of the Commission’s rules.³⁵ The written statement must be mailed to Jeffrey J. Gee, Chief, Investigations and Hearings Division, Enforcement Bureau, Federal Communications Commission, 45 L Street, NE, Washington, DC 20554, and must include the NAL/Acct. No. referenced in the caption. The written statement shall also be e-mailed to Jeffrey J. Gee at Jeffrey.Gee@fcc.gov and to Victoria Randazzo at Victoria.Randazzo@fcc.gov.

20. The Commission will not consider reducing or canceling a forfeiture in response to a claim of inability to pay unless the petitioner submits: (1) federal tax returns for the most recent three year period; (2) financial statements prepared according to generally accepted accounting principles (GAAP); or (3) some other reliable and objective documentation that accurately reflects the petitioner’s current financial status. Any claim of inability to pay must specifically identify the basis for the claim by reference to the financial documentation submitted. Inability to pay, however, is only one of several factors that the Commission will consider in determining the appropriate forfeiture, and we have discretion to not reduce or cancel the forfeiture if other prongs of 47 U.S.C. § 503(b)(2)(E) support that result.³⁶
