## WIRELINE COMPETITION BUREAU SEEKS COMMENT ON RURAL DIGITAL OPPORTUNITY FUND PETITIONS FOR DESIGNATION AS AN ELIGIBLE TELECOMMUNICATIONS CARRIER

WC Docket No. 09-197

**Comment Date: April 7, 2021**

**Reply Comment Date: April 22, 2021**

The Wireline Competition Bureau seeks comment on multiple petitions for designation as an Eligible Telecommunications Carrier (ETC), as described in the Attachment to this Public Notice, for the purpose of becoming eligible to receive universal service support. The petitioners are winning bidders, or those assigned support through the division of winning bids, in the Rural Digital Opportunity Fund (RDOF) auction (Auction 904).<sup>1</sup> ETC designation is a prerequisite to receiving universal service support available through the high-cost and Lifeline programs. Recipients of high-cost support, including recipients of RDOF support awarded pursuant to Auction 904, must offer the Lifeline discount on all qualifying services in areas where an ETC receives high-cost support, deploy a network capable of delivering service that meets the Lifeline program's minimum service standards, and commercially offer such service pursuant to their high-cost obligations.<sup>2</sup> To the extent that a petition specifically includes areas outside of RDOF-eligible census blocks, the Bureau will treat the petition as a request for Lifeline-only designation in those areas (although the petitioner will be obligated to provide Lifeline services throughout its entire designation area).<sup>3</sup>

All Commission ETC designations of RDOF support recipients will be conditioned upon successful completion of the RDOF long-form application (FCC Form 683). By June 7, 2021, all long-form applicants must upload documentation of ETC designation(s) and a certification letter to their FCC Form 683.<sup>4</sup>

<sup>3</sup> See *RDOF Closing Public Notice*, 35 FCC Rcd at n.72 (stating that Auction 904 petitioners may, in addition to seeking a high-cost designation in winning bid areas, seek a Lifeline-only ETC designation in areas not eligible for high-cost support for the limited purpose of becoming eligible to receive only Lifeline support in such areas). See, e.g., *Connect America Fund et al.*, Fourth Order on Reconsideration, 27 FCC Rcd 8814, 8821-22, paras. 19-20 (2012) (explaining that a Lifeline-only ETC designation does not enable a carrier to receive high-cost support and noting distinctions between the obligations of such carriers).

### Requirements for FCC ETC Designation

Section 254(e) of the Communications Act of 1934, as amended (the Act), provides that “only an eligible telecommunications carrier designated under section 214(e) shall be eligible to receive specific federal universal service support.”<sup>5</sup> Congress gives primary authority for ETC designations to state commissions.<sup>6</sup> The FCC has authority only when “a common carrier [is] providing telephone exchange service and exchange access that is not subject to the jurisdiction of a State commission.”<sup>7</sup> The petitioning carrier must demonstrate that the FCC has jurisdiction and may do so by submitting an “affirmative statement from the state commission or a court of competent jurisdiction that the carrier is not subject to the state commission’s jurisdiction.”<sup>8</sup> The Commission has delegated authority to the Bureau to consider appropriate ETC designation requests.<sup>9</sup>

A petition for ETC designation by the FCC must include: (1) a certification that the petitioner offers or intends to offer all services designated for support by the Commission pursuant to section 254(c) of the Act; (2) a certification that the petitioner offers or intends to offer the supported services either using its own facilities or a combination of its own facilities and resale of another carrier’s services;<sup>10</sup> (3) a description of how the petitioner advertises the availability of the supported services and the charges therefor using media of general distribution;<sup>11</sup> (4) a detailed description of the geographic service area for which the petitioner requests to be designated as an ETC;<sup>12</sup> and (5) a certification that neither the petitioner, nor any party to the application, is subject to a denial of federal benefits pursuant to the Anti-Drug Abuse Act of 1988.<sup>13</sup>

In addition, petitioners must demonstrate their ability to meet certain service standards. A petitioner seeking an ETC designation for purposes of becoming eligible to receive RDOF support must: (1) certify that it will comply with the service requirements applicable to the support that it receives; (2) demonstrate its ability to remain functional in emergency situations; and (3) demonstrate its ability to satisfy applicable consumer protection and service quality standards.<sup>14</sup> In addition, prior to designating a carrier as an ETC pursuant to section 214(e)(6) of the Act, the Commission must determine whether such designation is in the public interest.<sup>15</sup>

Although section 214(e)(5) of the Act, 47 U.S.C. § 214(e)(5), requires conformance of a competitive ETC’s service area and an incumbent rural telephone company’s service area, the Commission has separately forbore from imposing such requirements on Auction 904 support recipients. See *Rural Digital Opportunity Fund; Connect America Fund*, WC Docket Nos. 19-126, 10-90, Report and Order, 35 FCC Rcd 686, 728, para. 93-94 (2000).
