By the Chief, Video Division, Media Bureau:

I. INTRODUCTION

1. The Video Division, Media Bureau (Bureau), has before it a petition for rulemaking filed November 27, 2020 (Petition) by Sinclair Eugene Licensee, LLC (Petitioner), the licensee of KVAL-TV (CBS), channel 13 (KVAL or Station), Eugene, Oregon.¹ The Petitioner requests the substitution of channel 28 for channel 13 at Eugene, Oregon in the DTV Table of Allotments.²

II. BACKGROUND

2. In support of its channel substitution request, the Petitioner states that the Commission has recognized that VHF channels have certain propagation characteristics which may cause reception issues for some viewers, and also that the “reception of VHF signals require larger antennas . . . relative to UHF channels”³ and that studies suggest a “large variability in indoor antennas . . . with most antennas receiving fairly well at UHF and the substantial majority not so well to very poor at high-VHF.”⁴

¹ Petition of Sinclair Eugene Licensee, LLC for Rulemaking as amended (filed Nov. 27, 2020), LMS File No. 0000127644 (Petition). The Petitioner amended its petition on March 3, 2021 to provide additional information regarding predicted loss population figures (Amended Engineering Statement).

² On April 13, 2017, the Commission completed the incentive auction and broadcast television spectrum repacking authorized by the Spectrum Act. See Middle Class Tax Relief and Job Creation Act of 2012, Pub. L. No. 112-96, §§ 6402 (codified at 47 U.S.C. § 309(j)(8)(G)), 6403 (codified at 47 U.S.C. § 1452), 126 Stat. 156 (2012) (Spectrum Act); *Incentive Auction Closing and Channel Reassignment Public Notice: The Broadcast Television Incentive Auction Closes; Reverse Auction and Forward Auction Results Announced; Final Television Band Channel Assignments Announced; Post-Auction Deadlines Announced*, GN Docket No. 12-268, Public Notice, 32 FCC Rcd 2786 (2017). The post-incentive auction transition period ended on July 13, 2020. The Media Bureau will amend the rules to reflect all new full power channel assignments in a revised Table of Allotments. Because the Table has not yet been amended, the Division will continue to refer to the Post-Transition Table of DTV Allotments, 47 CFR § 73.622(i) (2018), for the purpose of this proceeding.

³ Petition at 2, citing *Innovation in the Broadcast Television Bands: Allocations, Channel Sharing and Improvements to VHF*, ET Docket No. 10-235, Notice of Proposed Rulemaking, 25 FCC Rcd 16498, 16511, para. 42 (2010) (*Innovation NPRM*).

⁴ *Innovation NPRM* at 16512, para. 44 (2010) and *Amendment of Parts 73 and 74 of the Commission’s Rules to Establish Rules for Digital Low Power Television, Television Translator, and Television Booster Stations and to Amend Rules for Digital Class A Television Stations*, MB Docket No. 03-185, Second Report and Order, 25 FCC Rcd 10732, 10750, para. 37 (2011).

According to the Petitioner, “KVAL has received numerous complaints from viewers unable to receive the Station’s over-the-air signal, despite being able to receive signals from other stations,”⁵ that its channel substitution proposal “will result in more effective building penetration for indoor antenna reception...”⁶

3. The Petitioner further states that while the proposed channel 28 noise limited contour does not completely encompass the channel 13 noise limited contour, KVAL is a CBS affiliate and there are three other CBS affiliated stations that, together, overlap all areas where the channel 28 noise limited contour does not extend beyond the channel 13 noise limited contour, except in one small geographic area with no population.⁷ Thus, the Petitioner’s channel substitution proposal will not result in any loss of CBS network coverage.⁸

III. DISCUSSION

4. We believe that the Petitioner’s channel substitution proposal warrants consideration. Channel 28 can be substituted for channel 13 at Eugene, Oregon, as proposed, in compliance with the principal community coverage requirements of section 73.625(a) of the Commission’s rules⁹ at coordinates 44-00-06.0 N and 123-06-57.0 W. In addition, we find that this channel change meets the technical requirements set forth in sections 73.616 and 73.623 of the rules (rules).¹⁰ We propose to substitute channel 28 for channel 13 for KVAL with the following specifications:

<u>City and State</u>	<u>DTV Channel</u>	<u>DTV Power (kW)</u>	<u>Antenna HAAT (m)</u>
Eugene, Oregon	28	1000	441.0

5. Accordingly, we seek comment on the proposed amendment of the Post-Transition Table of DTV Allotments, section 73.622(i) of the rules,¹¹ for the community listed below, to read as follows:

<u>City and State</u>	<u>Channel No.</u>	
	<u>Present</u>	<u>Proposed</u>
Eugene, Oregon	9, 13, 17, *29, 31	9, 17, 28, *29, 31

IV. PROCEDURAL MATTERS

6. *Showings Required.* Comments are invited on the proposal discussed in this Notice of Proposed Rulemaking (*NPRM*). The Petitioner or any proponent that expresses interest in the allotment will be expected to answer whatever questions are presented in initial comments. The petitioner of a proposed allotment is required to file comments even if it only resubmits or incorporates by reference its former pleadings. The petitioner must restate its present intention to apply for the channel if it is allotted and, if authorized, to build a station promptly.¹² Failure to file may lead to denial of the request. Any
