REPORT AND ORDER

(Proceeding Terminated)

Adopted: November 29, 2022

Released: November 29, 2022

By the Chief, Video Division, Media Bureau:

1. The Video Division, Media Bureau (Bureau), has before it a Notice of Proposed Rulemaking¹ issued in response to a Petition for Rulemaking filed by Scripps Broadcasting Holdings LLC (Petitioner), the licensee of full power television station KRTV(TV), Great Falls, Montana (Station or KRTV). The Petitioner has requested the substitution of UHF channel 22 for VHF channel 7 in the Table of Allotments. The Petitioner filed comments in support of the petition, as required by the Commission’s rules (rules),² reaffirming its commitment to apply for channel 22. No other comments were received.

2. We believe the public interest would be served by substituting channel 22 for channel 7 at Great Falls, Montana.³ According to the Petitioner, it has received many complaints from viewers unable to receive a reliable signal on VHF channel 7, and the Commission has recognized that VHF channels have certain characteristics that pose challenges for their use in providing digital television service.⁴ The Engineering Statement provided with the Petition confirmed that the proposed channel 22 contour would continue to reach virtually all of the population within the Station’s current service area and fully cover the city of Great Falls.⁵ An analysis using the Commission’s *TVStudy* software tool indicates that KRTV’s move from channel 7 to channel 22 is predicted to create a small area where 554

¹ *Amendment of Section 73.622(j), Table of Allotments, Television Stations (Great Falls, Montana)*, MB Docket No. 22-117, Notice of Proposed Rulemaking, DA 22-251 (rel. Mar. 10, 2022) (*NPRM*). We note that the Petitioner amended its Petition on January 25, 2022 to explain that its channel change petition was filed contemporaneously with a channel change petition for co-owned station KXLF-TV, Butte, Montana, which, like KRTV, is a CBS affiliate. It further explained that the loss area created by the proposed KRTV channel change is partially covered by the KXLF-TV contour, and that the number of persons losing CBS service remains the same whether taking into account the current or proposed KXLF-TV noise limited contour. *Id.* at n.1. Today we have also granted Petitioner’s request to substitute channel 15 for channel 5 for KXLF-TV. *See Amendment of Section 73.622(j), Table of Allotments, Television Broadcast Stations (Butte, Montana)*, Report and Order, DA No. 22-1232 (rel. Nov. 29, 2022).

² 47 CFR §§ 1.415, 1.419; *see also Buffalo, Iola, Normangee, and Madisonville, Texas*, MB Docket No. 07-729, Report and Order, 24 FCC Rcd 8192, 8194, para. 9 (Aud. Div. 2009).

³ In this *Report and Order*, the Bureau is amending the Table of TV Allotments, 47 CFR § 73.622(j), adopted in *Expanding the Economic and Innovation Opportunities of Spectrum Through Incentive Auction*, Docket No. 12-268, Order, 36 FCC Rcd 15891 (2021). *See NPRM* at n.2.

⁴ *Id.* at para. 2.

⁵ *Id.*

persons are predicted to lose service.⁶ The loss area, however, is partially overlapped by the noise limited contour of other CBS affiliated stations. Once those other sources of CBS programming are factored into the loss analysis, the new loss area that would be created by the proposed channel substitution would contain only 255 persons, which is a level of service loss the Commission considers to be *de minimis*.⁷

3. As proposed, channel 22 can be substituted for channel 7 at Great Falls, Montana, in compliance with the principal community coverage requirements of section 73.625(a) of the rules,⁸ at coordinates 47° 32' 07.5" N and 111° 17' 05.5" W. Although the Petitioner's proposal would result in a loss for a limited number of viewers, we find that the overall benefits of the proposed channel change outweighs any possible harm to the public interest when taking into account the ability of all but a *de minimis* number of viewers to access CBS network programming from another over-the-air television source. In addition, we find that this channel change meets the technical requirements set forth in sections 73.616 and 73.623 of the rules with the following specifications:⁹

<u>City and State</u>	<u>Channel</u>	<u>Power (kW)</u>	<u>Antenna HAAT (m)</u>	<u>Service Pop.</u>
Great Falls, Montana	22	1000	145.69	91,624

4. We also conclude that good cause exists to make this channel change effective immediately upon publication in the Federal Register, pursuant to section 553(d)(3) of the Administrative Procedure Act.¹⁰ An expedited effective date is necessary in this case to ensure that KRTV can operate with improved service to its viewers as quickly as possible.

5. Accordingly, pursuant to the authority contained in sections 4(i), 5(c)(1), 303(g), (r) and 307(b) of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 155(c)(1), 303(g), (r), and 307(b), and sections 0.61, 0.204(b) and 0.283 of the rules, 47 CFR §§ 0.61, 0.204(b), and 0.283, **IT IS ORDERED**, That effective immediately upon the date of publication in the Federal Register, the Table of Allotments, section 73.622(j) of the rules, 47 CFR § 73.622(j), **IS AMENDED**, with respect to the community listed below, to read as follows:

<u>City and State</u>	<u>Channel No.</u>
Great Falls, Montana	8, 17, *21, 22, 26

6. **IT IS FURTHER ORDERED**, That within 10 days of the effective date of this Order, Scripps Broadcasting Holdings LLC shall submit to the Commission a minor change application for a construction permit (Form 2100, Schedule A) specifying channel 22 in lieu of channel 7.

⁶ *Id.*

⁷ *Id.* See *WSET, Inc.*, 80 FCC 2d 233, 246 (1980) (finding that loss of service to approximately 550 persons is *de minimis*). In its calculation of viewer loss, Scripps relies on the CBS network service provided by commonly owned full power television station KXLF-TV Butte, Montana, as well as three Scripps-owned translator stations that retransmit CBS network programming: KXLF-LD, Helena, Montana, K11WK-D, Stanford, Montana, and K15LD-D, Lewistown, Montana. While the translator stations are secondary and can be displaced, we believe given the rural nature of Montana and neighboring states it is unlikely that these stations would be displaced, and if they were, Scripps would easily be able to find displacement channels for them. The NPRM also noted that the loss area would be served by a number of other full power major network stations. NPRM at n.7.

⁸ 47 CFR § 73.625(a).

⁹ 47 CFR §§ 73.616, 73.623. Since the proposed facility is located within the Canadian coordination zone, concurrence from the Canadian government was required and has subsequently been obtained. See NPRM at n.10.

¹⁰ 5 U.S.C. § 553(d)(3).

7. **IT IS FURTHER ORDERED**, That pursuant to section 801(a)(1)(A) of the Congressional Review Act, 5 U.S.C. § 801(a)(1)(A), the Commission **SHALL SEND** a copy of the Order to Congress and to the Government Accountability Office.

8. **IT IS FURTHER ORDERED**, That should no petitions for reconsideration or petitions for judicial review be timely filed, MB Docket No. 22-117 and RM-11923 **SHALL BE TERMINATED** and its docket closed.

9. For further information concerning the proceeding listed above, contact Joyce L. Bernstein, Video Division, Media Bureau, (202) 418-1647, Joyce.Bernstein@fcc.gov.
