INTERNATIONAL BUREAU REMINDS CABLE LANDING LICENSEES AND COMMON CARRIERS TO FILE THEIR ANNUAL SUBMARINE CABLE CIRCUIT CAPACITY REPORTS BY MARCH 31, 2022

Electronic Filing Window to Be Open from March 1, 2022 through March 31, 2022

We remind cable landing licensees and common carriers that, by rule, data as of December 31, 2021 for the annual Circuit Capacity Reports are due no later than March 31, 2022.¹ Section 43.82 of the Commission's rules requires (1) any licensee of a submarine cable between the United States and a foreign point and (2) any common carrier with capacity on a submarine cable between the United States and a foreign point to file Circuit Capacity Reports.² Submarine cable landing licensees must file a Cable Operator Report with the available capacity (both lit and unlit capacity) of the cable as of December 31, 2021 and the planned capacity (the intended capacity, both lit and unlit, of the cable two years out from December 31, 2021).³ Cable landing licensees and common carriers must file a Capacity Holder Report identifying the capacity that they own or hold through an indefeasible right of use (IRU) or an intercarrier lease (ICL) as of December 31, 2021.⁴

Filers should refer to the International Bureau's Filing Manual for Section 43.82 Circuit Capacity Reports (Filing Manual) for instructions on how to file the reports, who must file, which reports to file, the required information, and the filing procedures.⁵ To assist Filing Entities with their submissions, the Filing Manual provides examples.⁶ The Filing Manual is available at <https://docs.fcc.gov/public/attachments/DOC-362660A1.pdf>.

Section 43.82 Online Filing System. Filing Entities must file their Circuit Capacity Reports through the section 43.82 online filing system at <https://apps2.fcc.gov/section4362/login.xhtml>. Licensees of each cable must file a single Cable Operator Report for the cable. Where there are multiple licensees for a cable, only one cable landing licensee may file the Cable Operator Report for that cable.⁷ The licensees shall determine which licensee will file the capacity data for that cable.⁸ Each licensee

must file a Capacity Holder Report with its capacity holdings on all cables, including cables on which it is not a licensee.⁹ Common carriers must file Capacity Holder Reports.¹⁰

We remind Filing Entities of the following concerning Consolidated Reports:

- **Consolidated Cable Operator Report.** If the Filing Entity is filing on behalf of other cable landing licensees on the cable or on behalf of an affiliated entity or entities, the Filing Entity should submit a list of the licensees or entities for which it is filing data in an email at: Circuit.Capacity@fcc.gov.¹¹
- **Consolidated Capacity Holder Report.** If a Filing Entity is filing on behalf of an affiliated entity or entities, the Filing Entity should submit a list of the entities for which it is filing data in an email at: Circuit.Capacity@fcc.gov.¹²

Enforcement of Circuit Capacity Rules. We remind cable landing licensees and common carriers of their obligation to file timely and accurate reports **by March 31, 2022**. We encourage Filing Entities to file their reports as early as possible during the filing window. Failure to comply with section 43.82 requirements may subject such entities to enforcement action.¹³

Each Filing Entity must use a single CORES FCC Registration Number (FRN) to submit data on: (1) Filing Entity contact information; (2) preparer contact information; (3) authorizations/licenses; (4) submarine cable operator data; (5) submarine cable capacity holder data; and (6) certifying official's information. Filers must enter the data directly into the online forms in the section 43.82 online filing system. With respect to (4) submarine cable operator data and (5) submarine cable capacity holder data, the data should be added to templates that are accessed through the online filing system and then uploaded into the online filing system. Additionally, each Filing Entity must provide the correct FCC authorization/license numbers associated with its filing.

For ease of reference, we provide sample templates of the Cable Operator Report and the Capacity Holder Report in Attachments 1 and 2. We also provide the current license number for each U.S.-international submarine cable in Attachment 3. **Filing Entities should use the templates from the section 43.82 online filing system to file their data.**
