**PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ANNOUNCES  
REGION 10 (GEORGIA) REGIONAL PLANNING COMMITTEES TO HOLD  
700 MHZ AND 800 MHZ MEETINGS**

**PR Docket No. 92-189 and WT Docket 02-378**

The Region 10 (Georgia) Regional Planning Committees (RPCs)<sup>1</sup> will hold two consecutive planning meetings on Thursday, December 8, 2022. Beginning at 10:00 a.m., the 700/800 MHz RPC will convene at the Georgia Public Safety Training Center (GPSTC), 1000 Indian Springs Drive, Forsyth, Georgia 31029. A continental breakfast will be served from 8:30-10:00 a.m.

The 700/800 MHz meeting agenda is as follows:

- Informal information sharing
- Welcome and Introduction of Officers
- Review and approval of minutes
- FCC Application process
- CAPRAD
- Old business
- New business
  - 800 MHz Plan changes per NRPC
- Standing Committee Reports (including technical committee)
- Discuss and vote on proposed changes to Region 10's 700 and 800 MHz Plan
- FCC Regulatory Update
- Nomination and election of new RPC officers
- Schedule 2023 (and recurring) RPC meetings
- Adjourn

Both Region 10 RPC meetings are open to the public. All eligible public safety providers in Region 10 may utilize these frequencies. It is essential that eligible public safety agencies in all areas of government, including state, municipality, county, and Native American Tribal be represented in order to ensure that each agency's future spectrum needs are considered in the allocation process. Administrators who are not oriented in the communications field should delegate someone with this knowledge to attend, participate, and represent their agency's needs. It is critical that agencies currently licensed to operate on the public safety 700 MHz or 800 MHz bands, or who are considering designing and building a 700 MHz or 800 MHz system must attend this meeting.

---

<sup>1</sup> The Region 10 700 MHz and 800 MHz Regional Planning Committees' area includes all 159 counties in the State of Georgia.

All interested parties wishing to participate in planning for the use of public safety spectrum in the 700 MHz and 800 MHz bands within Region 10 should plan to attend. For further information, please contact:
