**MEMORANDUM OPINION AND ORDER**

**Adopted: May 24, 2023**

**Released: May 24, 2023**

By the Senior Deputy Chief, Policy Division, Media Bureau:

**I. INTRODUCTION**

1. TV-49, Inc. (WZME or Petitioner), licensee of television station WZME, Bridgeport, Connecticut (Facility ID No. 70493) (WZME or Station) filed the above-captioned Petitions<sup>1</sup> requesting modification of the Stations' television market to include the communities located in the New York Designated Market Area (DMA) and served by Comcast, Spectrum, and Altice cable systems that are not currently included in WZME's television market.<sup>2</sup> The Petitions are unopposed. For the reasons stated below, we grant the Petitions.

**II. BACKGROUND**

**A. Market Modification Procedures**

2. Pursuant to section 614 of the Communications Act of 1934, as amended (the Act), and implementing rules adopted by the Commission in its *Must Carry Order*, commercial broadcast television stations are entitled to assert mandatory carriage rights on cable systems located within the station's

---

<sup>1</sup> See *TV-49, Inc. for Modification of the Television Market for Station WZME, Bridgeport, Connecticut, Facility ID 70493*, Petition for Special Relief, MB Docket No. 23-56 (filed Feb. 15, 2023) (Comcast Petition); *TV-49, Inc. for Modification of the Television Market for Station WZME, Bridgeport, Connecticut, Facility ID 70493*, Petition for Special Relief, MB Docket No. 23-57 (filed Feb. 15, 2023) (Spectrum Petition); *TV-49, Inc. for Modification of the Television Market for Station WZME, Bridgeport, Connecticut, Facility ID 70493*, Petition for Special Relief, MB Docket No. 23-58 (filed Feb. 15, 2023) (Altice Petition) (collectively, the Petitions). The Media Bureau released a public notice seeking comment on the Petitions. Special Relief and Show Cause Petitions, Public Notice, Report No. 0506 (MB Feb. 17, 2023) (*Public Notice*). A corrected *Public Notice* was subsequently issued eliminating a typographical error. See Special Relief and Show Cause Petitions, Public Notice, Report No. 0506-A (MB Mar. 15, 2023).

<sup>2</sup> The Petitions specify the business names under which each cable operator conducts business. See Comcast Petition at 1; Spectrum Petition at 1; Altice Petition at 1. The Petitions seek to add the communities identified therein (the Communities). Comcast Petition at 1 and Exhibit A; Spectrum Petition at 1 and Exhibit A; Altice Petition at 1 and Exhibit A. The Petitioner is seeking to add the communities identified on Exhibit A herein.

market.<sup>3</sup> A station's default market for this purpose is its DMA as defined by Nielsen Media Research.<sup>4</sup> A DMA is a geographic market designation that defines each television market exclusive of others, based on measured viewing patterns. Essentially, each county in the continental United States is allocated to a market based on which stations receive a preponderance of total viewing hours in the county.<sup>5</sup>

3. Under the Act, however, the Commission also is directed to consider changes in a station's local market. Section 614(h)(1)(C) provides that the Commission may:

with respect to a particular television broadcast station, include additional Communities within its television market or exclude communities from such Station's television market to better effectuate the purposes of this section.<sup>6</sup>

In considering such requests, the Act provides that:

the Commission shall afford particular attention to the value of localism by taking into account such factors as –

- (I) whether the station, or other stations located in the same area, have been historically carried on the cable system or systems within such community;
  - (II) whether the television station provides coverage or other local service to such community;
  - (III) whether modifying the market of the television station would promote consumers' access to television broadcast station signals that originate in their State of residence;<sup>7</sup>
  - (IV) whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community;
- and
- (V) evidence of viewing patterns in cable and noncable households within

---

<sup>3</sup> *Implementation of the Cable Television Consumer Protection and Competition Act of 1992, Broadcast Signal Carriage Issues*, Report and Order, 8 FCC Rcd 2965, 2976-77, paras. 42-47 (1993) (*Must Carry Order*).

<sup>4</sup> Section 614(h)(1)(C) of the Act, as amended by the Telecommunications Act of 1996, provides that a station's market shall be determined by the Commission by regulation or order using, where available, commercial publications which delineate television market based on viewing patterns. See 47 U.S.C. § 534(h)(1)(C). Section 76.55(e) requires that a commercial broadcast television station's market be defined by Nielsen Media Research's DMAs. 47 CFR § 76.55(e). See *Definition of Markets for Purposes of the Cable Television Broadcast Signal Carriage Rules*, Order on Reconsideration and Second Report and Order, 14 FCC Rcd 8366 (1999) (*Modification Final Report and Order*).

<sup>5</sup> For purposes of Nielsen's calculation, both over-the-air and cable television viewing are included. For a more complete description of how counties are allocated, see Nielsen Media Research's *Nielsen Station Index: Methodology Techniques and Data Interpretation*.

<sup>6</sup> 47 U.S.C. § 534(h)(1)(C).

<sup>7</sup> The STELA Reauthorization Act of 2014, Pub. L. No. 113-200, 128 Stat. 2059 (2014), enacted December 4, 2014 added a new statutory factor, denominated as factor III above. See also *Amendment to the Commission's Rules Concerning Mkt. Modification, Implementation of Section 102 of the STELA Reauthorization Act of 2014*, Report and Order, 30 FCC Rcd 10406 (2015) (*STELAR Market Mod. Order*).

the areas served by the cable system or systems in such community.<sup>8</sup>

4. In order to establish a station's relationship to the community at issue as required by the Act, section 76.59(b) of the Commission's rules requires requests for market modification to be supported by the following evidence:

- (1) A map or maps illustrating the relevant community locations and geographic features, station transmitter sites, cable system headend locations, terrain features that would affect station reception, mileage between the community and the television station transmitter site, transportation routes and any other evidence contributing to the scope of the market;
- (2) Noise-limited service contour maps (for full-power digital stations) or protected contour maps (for Class A and low power television stations) delineating the station's technical service area and showing the location of the cable system headends or satellite carrier local receive facilities and communities in relation to the service areas;<sup>9</sup>
- (3) Available data on shopping and labor patterns in the local market;
- (4) Television station programming information derived from station logs or the local edition of the television guide;
- (5) Cable system channel line-up cards or other exhibits establishing historic carriage, such as television guide listings;
- (6) Published audience data for the relevant station showing its average all day audience (i.e., the reported audience averaged over Sunday-Saturday, 7 a.m.-1 a.m., or an equivalent time period) for both cable and noncable households or other specific audience indicia, such as station advertising and sales data or viewer contribution records; and
- (7) If applicable, a statement that the station is licensed to a community within the same state as the relevant community.<sup>10</sup>

<sup>8</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(I)-(V). The legislative history of the provision states that:

where the presumption in favor of [DMA] carriage would result in cable subscribers losing access to local stations because they are outside the [DMA] in which a local cable system operates, the FCC may make an adjustment to include or exclude particular communities from a television station's market consistent with Congress' objective to ensure that television stations be carried in the area in which they serve and which form their economic market.

\* \* \* \*

[This subsection] establishes certain criteria which the Commission shall consider in acting on requests to modify the geographic area in which stations have signal carriage rights. These factors are not intended to be exclusive, but may be used to demonstrate that a community is part of a particular station's market.

H.R. Rep. 102-628, 102d Cong., 2d Sess. 97 (1992). In adopting rules to implement section 614(h)(1)(C), the Commission indicated that requested changes should be considered on a community-by-community basis rather than on a county-by-county basis, and that they should be treated as specific to particular stations rather than applicable in common to all stations in the market. *Must Carry Order*, 8 FCC Rcd at 2977, n.139.

<sup>9</sup> Section 76.59(b)(2) contains the following note: "Service area maps using Longley-Rice (version 1.2.2) propagation curves may also be included to support a technical service exhibit." 47 CFR § 76.59(b)(2).

<sup>10</sup> 47 CFR § 76.59(b). Petitions for special relief to modify television markets that do not include the above evidence may be dismissed without prejudice and may be re-filed at a later date with the appropriate filing fee.

(continued....)

## B. The Petitions

5. Petitioner states that WZME is a full power television station licensed to Bridgeport, Connecticut that has been serving the New York DMA since 1987.<sup>11</sup> Between 1996 and 1997, WZME was subject to numerous market modification decisions that resulted in a substantial number of communities being deleted from its television market in the New York DMA.<sup>12</sup> At the time, the Bureau found that WZME offered no evidence of historical carriage, significant local programming, Grade B coverage, or actual viewership, and noted in some cases a significant distance between the community of license and the communities at issue.<sup>13</sup> Since 2017, WZME has broadcast on a shared channel with Connecticut Public Broadcasting Station WEDW, Stamford, Connecticut, from a tower located in Shelton, Connecticut.<sup>14</sup> However, on February 12, 2023, WZME commenced broadcasting from a “second Distributed Transmission System (DTS) facility at the Empire State Building in New York City” in coordination with WEDW.<sup>15</sup> Petitioner asserts that the DTS now enables WZME to reach most of the New York and New Jersey communities served by Comcast, Spectrum, and Altice, and therefore requests that the Commission add back in to its market the communities not currently included.<sup>16</sup> Because the three Petitions are based upon the same set of facts, evidence, and arguments, they have been consolidated in this order.

## III. DISCUSSION

6. After evaluation of the five market modification factors enumerated below, we find support for the addition of the Communities to WZME’s market and grant the Petitions in full.

### A. Statutory Factors

#### 1. Historical Carriage

7. The first statutory factor that we must consider is “whether the station, or other stations

<sup>13</sup> *Id.*

<sup>14</sup> Comcast Petition at 4; Spectrum Petition at 4; Altice Petition at 4.

<sup>15</sup> *Id.*

<sup>16</sup> *Id.*

located in the same area, have been historically carried on the cable system or systems within such community.”<sup>17</sup> When analyzing a station’s historic carriage, consideration is given not only to carriage by the operator that is the subject of the request, but also to whether the station is carried by competitors in the relevant communities.<sup>18</sup> The Bureau has explained that “such carriage is evidence of a petitioner station’s nexus with a community” and that “[e]ven when a station has no history of carriage in a community, the Commission [gives] weight to this factor when another station based in the same area has been carried in the community.”<sup>19</sup>

8. Petitioner asserts that four other stations, WABC-TV, WPIX, WFUT-DT, and WXTV-DT (co-located stations) are currently broadcasting from the same site at the Empire State Building and are carried on the Comcast, Spectrum, and Altice cable systems in the Communities.<sup>20</sup> Because these co-located stations are carried on the respective cable systems, Petitioner argues that WZME would be placed at a competitive disadvantage if it is not carried on the Comcast, Spectrum, and Altice systems in these Communities.<sup>21</sup> Petitioner further asserts that WZME has been carried by other MVPDs (Verizon FiOS, DISH, and DIRECTV) in the New York DMA.<sup>22</sup> In sum, Petitioner contends that the installation of the DTS system at the Empire State Building, carriage by MVPDs in the relevant communities of the other co-located stations broadcasting from the Empire State Building, and the history of carriage of WZME by other MVPDs within and adjacent to these communities weigh in its favor.<sup>23</sup>

9. We find that the first statutory factor weighs in favor of the requested modification. With regard to this statutory factor, the Petitioner has demonstrated that WZME has been carried by other MVPDs within and immediately adjacent to the Communities, and carriage of the station by other MVPDs in the relevant communities has been viewed by the Bureau as weighing in support of this factor.<sup>24</sup> In this regard, we place particular emphasis on WZME’s carriage in the communities by Verizon FiOS and, consistent with our precedent, accord lesser, but still positive, relevance to the DMA-wide carriage of WZME by DISH and DIRECTV.<sup>25</sup> WZME’s Petition is further bolstered by evidence that Comcast, Spectrum, and Altice carry co-located stations in the relevant communities.<sup>26</sup> Our precedent

(continued....)

recognizes that the carriage of other co-located stations by MVPDs should weigh in favor of satisfying this market modification factor.<sup>27</sup>

## 2. Local Service

10. Second, we consider “whether the television station provides coverage or other local service to such community.”<sup>28</sup> This statutory factor can be satisfied by demonstrating the Station’s signal coverage, its geographic proximity to the Communities, its shopping and labor patterns between the Station’s community of license and the Communities, as well as locally-focused programming broadcast by the Station. Less significance, however, may be accorded to locally-focused programming when these other factors evidence a sufficient nexus to the Communities.<sup>29</sup>

11. The Petitioner asserts that WZME’s signal contour supports the inclusion of the Communities in the Station’s market because the previously deleted Communities are now within WMZE’s noise-limited service contour and the Station is geographically proximate to them.<sup>30</sup> The Petitioner credits WZME’s change in circumstances to its installation of the DTS facility on the Empire State Building in New York City in February 2023, which has resulted in the substantial expansion of WMZE’s signal coverage in the DMA to include many of the Communities that were deleted from its market pursuant to the previously issued Bureau modification orders.<sup>31</sup> Because the new DTS facility in New York City is closer to the Communities than its community of license, Petitioner asserts that WMZE’s DTS signal currently covers all of the subject communities relevant to these Petitions.<sup>32</sup>

12. Petitioner observes that the Bureau has issued a prior decision regarding the installation of a new DTS facility that it believes is relevant precedent. Specifically, the Petitioner cites the 2015 market modification decision involving KAZN-TV, Licensee, LLC (KAZN Licensee), in which certain communities were added to television station KILM’s market.<sup>33</sup> KILM-TV, like WMZE, was previously the subject of a Bureau order that had resulted in the deletion of communities from its television market because it failed to provide a Grade B service contour over the communities, and the distance between the Station’s community of license and the communities it sought to reach with its signal coverage was substantial.<sup>34</sup> However, in 2014, KAZN-TV Licensee constructed a three-site DTS transmission facility, which resulted in the station providing a noise-limited service level over the communities that were the subject of the prior market modification.<sup>35</sup> Based on these changed circumstances, KAZN Licensee

---

Opinion and Order, 23 FCC Rcd 3928, 3934, para. 10 (MB 2008) (finding that carriage of a competing station in the same community provides evidence to support market modification)).

<sup>27</sup> See *Entravision Order*, 33 FCC Rcd at 2225, para. 15 (“Because Comcast and Cox carry WUSA, along with every other full-power television station in the area, we believe that WJAL would be at a competitive disadvantage if these cable operators did not carry WJAL in the Communities.”); *WRNN-Spectrum Order*, 34 FCC Rcd 6452, para. 12 (“Because Spectrum is carrying WRNN’s channel sharing partner on its Bergen County system . . . [and] since Spectrum also carries other co-located and nearby stations, we believe that WRNN would be at a competitive disadvantage if Spectrum did not carry WRNN in the Communities”). See also *WRNN-Altice Order*, 35 FCC Rcd at 8, para. 15.

<sup>28</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(II)

<sup>34</sup> *Id.*

<sup>35</sup> *Id.*

sought to add back certain communities in the Los Angeles DMA served by all cable operators to KILM's market as a result of the earlier market modification petitions filed by cable operators.<sup>36</sup> In granting KAZN-TV Licensee's petition, the Bureau found a history of carriage in the communities and surrounding communities and that KILM had demonstrated that the station now provides signal coverage to all of the communities.<sup>37</sup>

13. In addition, the Petitioner cites a more recent Bureau order that granted the market modification petitions of stations based upon a change in circumstances arising out of channel sharing agreements that were entered into pursuant to the Commission's Broadcast Incentive Auction.<sup>38</sup> The Petitioner asserts that the Bureau granted orders for petitions filed in 2019 and 2020 by WRNN License Company, LLC to add to WRNN-TV's must-carry market many of the same communities in the New York DMA that the Petitioner seeks to add, while noting that some of the WZME and WRNN markets were modified to exclude them in the same order.<sup>39</sup> Pursuant to the Broadcast Incentive Auction, WRNN entered into a sharing arrangement with WWOR-TV, Secaucus, NJ and began broadcasting from facilities at One World Trade Center in New York City, rather than its previous site in Woodstock, New York, which put its transmitter significantly closer to each of the communities at issue. WRNN thereby placed a noise-limited contour over all the relevant communities,<sup>40</sup> and the Bureau granted WRNN-TV's petition. WZME believes this decision supports granting its Petitions.<sup>41</sup>

14. Petitioner also contends that its noise-limited service contour is "equivalent to the contours for the other stations co-located at the Empire State Building[,] each of which have broad carriage within the DMA" on each of the cable systems.<sup>42</sup> The Petitioner has submitted maps showing WZME's current signal contour in relation to the Communities and the relevant headends for the cable systems serving the Communities.<sup>43</sup>

15. The Petitioner further asserts that WZME is now geographically proximate to the Communities and that the current distance is "significantly smaller than the distance between WZME's transmitter and the communities at the time of the previous market modifications" because of the addition of the transmitter at the Empire State Building.<sup>44</sup> However, the Petitioner acknowledges that the distance between the communities at issue and WZME's community of licensee, Bridgeport, Connecticut remains the same.<sup>45</sup>

16. Additionally, the Petitioner addresses shopping and labor patterns and maintains that WZME's community of license shares strong economic connections with the Communities.<sup>46</sup> The

Exhibit E shows the distance between the WZME transmitter at the Empire State Building/Bridgeport, Connecticut, and communities served by Comcast, Spectrum, and Altice in the NY DMA that "appear to have never been affirmatively excluded from WZME's market." See Comcast Petition at 17, n.44; Spectrum Petition at 15, n.40; Altice Petition at 17, n.50.

<sup>44</sup> Comcast Petition at 16; Spectrum Petition at 15; Altice Petition at 17.

<sup>45</sup> Comcast Petition at 18; Spectrum Petition at 16; Altice Petition at 19.

<sup>46</sup> Comcast Petition at 18; Spectrum Petition at 17; Altice Petition at 19.

Petitioner states that Bridgeport is Connecticut's largest city and home to multiple event and performance venues, such as the Hartford Healthcare Amphitheater, Total Mortgage Arena, Stress Factory Comedy Club, Downtown Cabaret Theater, and the Klein Memorial Auditorium, which hosts musical performances, sporting events, and live entertainment that attract audiences from around the region.<sup>47</sup> In addition, according to Petitioner, Bridgeport has museums and tourist attractions, such as the Sacred Heart University's Discovery Science Center and Planetarium, Museum of Art, the Captain's Cove Seaport Marina, Beardsley's Zoo, and Barnum Museum,<sup>48</sup> and Bridgeport also hosts an annual Bridgeport Art Trail event, which is a weekend-long celebration of local art, artists, and crafters.<sup>49</sup> Furthermore, the Petitioner notes that Bridgeport is on several highways that provide direct access to New York City, including, I-95, US-1, and the Merritt Parkway.<sup>50</sup> The Petitioner also asserts that Bridgeport has a "stop on the Metro-North Railroad's New Haven Line, which provides daily service between Grand Central Station in Manhattan and Bridgeport, Connecticut, extending on to New Haven."<sup>51</sup> Petitioner also states that Amtrak's Northeast Regional and Vermonter lines provides daily service between Bridgeport and New York City and that the Northeast Regional line has service that continues on to New Jersey's Metropark Station.<sup>52</sup> Finally, Petitioner states that Bridgeport serves as a port for the Bridgeport and Port Jefferson Ferry, which is one of two ferries that provides "daily service between Connecticut and Long Island, New York across the Long Island Sound."<sup>53</sup>

17. Furthermore, the Petitioner asserts that in addition to travel and tourism, labor patterns also closely connect Bridgeport to the Communities.<sup>54</sup> Petitioner states that a September 2019 New York City Department of City Planning Report found that "eight percent of the employed residents of Fairfield County, Connecticut – where Bridgeport is located – are employed in New York City and, it contends that this thereby "demonstrates that a significant percentage of residents" in the Communities are employed in New York City.<sup>55</sup> Consequently, WZME argues that there appears to be a "substantial economic interconnectedness between Bridgeport, Connecticut and the communities that are the subject of the Petitions."<sup>56</sup>

18. With regard to local programming, the Petitioner asserts that the Bureau has assigned less weight to this statutory factor when "the other aspects—i.e., signal coverage, geographic proximity, and shopping and labor patterns—support a finding of local coverage and service."<sup>57</sup> The Petitioner states that it is affiliated with the Story network, which airs historical and current events programming that appeals to a wide variety of viewers.<sup>58</sup> In addition, WZME airs two weekly local programs: the Suki and Scott Show, which features segments on area non-profits and community issues such as cultural and entertainment events in the Tri-State area; and Job Hunt New York, which provides viewers with

information on local career and job training opportunities.<sup>59</sup>

19. We find that the second statutory factor weighs in favor of WZME's Petitions. As WZME concedes, the location of a DTS transmitter has no bearing on determining a station's proximity to a community.<sup>60</sup> Further we find that WZME offers little locally-relevant programming aimed at the Communities. However, the Petitioner has presented substantial evidence regarding WZME's signal coverage of, and shopping and labor patterns in relation to, the Communities. We find that this substantial evidence demonstrates that the second statutory factor weighs in favor of the requested modifications.

### 3. Promoting Consumer Access to Local Stations

20. The third statutory factor we consider is "whether modifying the market of the television station would promote consumers' access to television broadcast station signals that originate in their State or residence."<sup>61</sup> This factor is intended to ensure that MVPD subscribers are "receiving news, politics, sports, emergency information, and other television programming relevant to their home state" and is licensed to a community within the same state as the new community.<sup>62</sup> A petitioner is considered to satisfy this factor if the involved station is licensed to a community within the same state as the new community.<sup>63</sup> This factor may be given increased weight if the station provides programming specifically related to subscribers' state of residence, and may be given even more weight if subscribers in the existing market have little or no access to such in-state programming.<sup>64</sup> However, this new in-state factor was not intended to bar a market modification because it did not result in increased consumer access to an in-state station's programming.<sup>65</sup> In such cases, the Commission determined that the "in-state factor would be inapplicable and the modification request would be evaluated based on the other statutory factors."<sup>66</sup>

21. We assign no weight to this factor with regard to the Communities. WZME is licensed to Bridgeport, Connecticut and broadcasts from a transmitter located in Shelton, Connecticut and a DTS transmitter located on top of the Empire State Building in New York City, whereas the Communities are solely located in New York and New Jersey. Thus, the in-state factor does not apply.

### 4. Carriage of Other Eligible Stations

22. Fourth, we consider "whether any other television station that is eligible to be carried by a cable system in such community in fulfillment of the requirements of this section provides news coverage of issues of concern to such community or provides carriage or coverage of sporting and other events of interest to the community."<sup>67</sup> In general, this factor is interpreted as enhancing a station's market modification petition if other stations do not sufficiently serve the communities at issue; however,

<sup>67</sup> 47 U.S.C. § 534(h)(1)(C)(ii)(IV).

other stations' service to the communities rarely has counted against a petition.<sup>68</sup> The Petitioner states that “[u]pon information and belief,” the Comcast, Spectrum, and Altice cable systems serving the “New York DMA carry other local television stations that provide coverage of news, sports, and other issues of local interest.”<sup>69</sup> Accordingly, consistent with our precedent, we assign no weight to this factor.

### 5. Viewing Patterns

23. The fifth statutory factor focuses on “evidence of viewing patterns in cable and noncable households within the areas served by the cable system or systems in such community.”<sup>70</sup> The Petitioner states that the Bureau has “given ‘this factor limited weight in similar circumstances where the petitioning station’s market was previously modified to exclude the relevant communities,’” and “has also considered improved signal coverage to be a mitigating factor with respect to a lack of viewership in the communities.”<sup>71</sup> The Petitioner argues that the Bureau “should discount this factor in its analysis.”<sup>72</sup> However, the Petitioner notes that “published audience data from Nielsen does in fact show that WZME has actual viewers in the DMA.”<sup>73</sup> Petitioner therefore argues that “to the extent that the Bureau assigns this factor any weight, it should weigh in favor of the requested modification.”<sup>74</sup>

24. Petitioner has provided data indicating WZME has minimal viewership throughout the New York DMA. Our precedent requires a “significant” level of viewership in the specific communities at issue in order to give this factor positive weight.<sup>75</sup> WZME correctly asserts that the Bureau has given this factor limited weight in situations similar to those presented by this Petition, and we do so here. This does not obviate the fact that WZME has demonstrated extremely small viewership in the Communities. In the absence of a demonstration of significant viewing in the Communities, we are compelled to find that this factor weighs slightly against grant of the petition.

### 6. Conclusion

25. We conclude that the facts support the grant of the Petitioner’s request to modify the market of WZME, Bridgeport, Connecticut, to include all of the Communities identified in the Petitions and served by the Comcast, Spectrum, and/or Altice cable systems. We find that the first and second, statutory factors weigh in favor of the market modification request. We find that the fifth factor weighs slightly against the petition, and assign no weight to the third and fourth factors. Further, because Comcast, Spectrum, and Altice are carrying other full power stations broadcasting from the Empire State Building on its systems in the Communities, we agree with that WZME that it would be at a competitive disadvantage to those stations absent grant of its Petition. On balance, upon consideration of all the statutory and non-statutory factors raised by Petitioner, and for the reasons discussed herein, we grant the Petitions.
