AU Docket No. 17-182
WC Docket No. 10-90

By this Public Notice, the Wireline Competition Bureau (WCB) announces the conclusion of the Connect America Fund Phase II auction (Auction 903 or CAF Phase II auction) long-form application review. There were 195 authorized applicant state combinations, totaling \$1.48 billion authorized in 10-year support, covering 708,494 locations in 45 states. Authorized bids included a range of performance tiers, with more than one-half of the winning bids at 100/20 Mbps or higher. Additionally, 10 applicants were authorized to receive CAF Phase II auction support in conjunction with New York's New NY Broadband Program totaling \$65.49 million in 10-year support, covering 47,200 locations in New York.¹

All Auction 903 winning bids have been authorized or defaulted, with state-level summaries of authorizations posted under the "Data" tab on the Auction 903 webpage at <https://www.fcc.gov/auction/903>. The summary provides for each authorized Auction 903 long-form applicant: 1) the total support amount over 10 years and total number of locations that the long-form applicant is authorized for in each state; 2) the total number of locations to which the authorized support recipient must offer the required voice and broadband services for each performance tier and latency in each state; and 3) the eligible census blocks included in the winning bids that are authorized in each state.²

As part of the Rural Broadband Accountability Plan,³ the Commission is also making available additional information from the long-form applications submitted by applicants (FCC Form 683 and FCC Form 5625). The Auction 903 FCC Form 683 long-form applications will be viewable through the application search feature, which can be accessed through the "Application" tab on the Auction 903 web page.⁴ The FCC Form 5625 long-form applications for New York applicants will be viewable on the "New York" tab on the Auction 903 web page.
