### **I. INTRODUCTION**

1. In this Public Notice, the Public Safety and Homeland Security Bureau (Bureau) seeks comment on specific mechanisms to implement multilingual Wireless Emergency Alerts (WEA), as

directed by the Federal Communications Commission (Commission).<sup>1</sup> Through these measures, the Bureau advances the Commission’s priority that WEA serve as an effective and accessible life-saving tool for many, including the millions of people living in the United States who do not primarily speak English or Spanish and the estimated one-in-four adults in the United States that have some form of disability who remain at risk for not being able to receive and understand the potentially life-saving information conveyed by WEA messages in an accessible language and format.<sup>2</sup> As discussed below, and as directed by the Commission, we propose a set of pre-translated WEA messages in English, the 13 most commonly spoken languages in the United States, and American Sign Language (ASL), that would be pre-installed and stored on mobile devices offered by Participating Commercial Mobile Service (CMS) Providers. These messages – called templates – would be displayed at the option of the alert originator. We also seek comment on support for form-fillable templates that would include information specific to the particular emergency. Finally, we seek comment on whether Participating CMS Providers’ device offerings should support templates in additional languages.

## II. BACKGROUND

2. WEA is a tool for authorized federal, state, local, and Tribal government entities to geographically target alerts and warnings to the WEA-capable mobile devices of Participating CMS Providers’ subscribers. The Warning Alert and Response Network (WARN) Act establishes WEA as a voluntary system in which CMS Providers may elect to participate. The WARN Act grants the Commission authority to adopt “relevant technical standards, protocols, procedures and other technical requirements . . . necessary to enable commercial mobile service alerting capability for commercial mobile service providers that voluntarily elect to transmit emergency alerts.”<sup>3</sup> Pursuant to this authority, the Commission has adopted requirements to prescribe WEA capabilities, WEA testing, and WEA election procedures.<sup>4</sup> While participation by wireless providers is voluntary, those providers that choose to participate must adhere to the technical and operational requirements established by the Commission.<sup>5</sup>

3. In the *2023 WEA Report and Order*, the Commission adopted rules requiring Participating CMS Providers to support multilingual WEA through the use of templates.<sup>6</sup> When an alerting authority sends a template-based multilingual alert message, the WEA-capable mobile device must be able to extract and display the relevant template in the subscriber’s default language, if available. If the default language for a WEA-capable mobile device is set to a language not among those supported by templates, the WEA-capable device must present the English-language version of the alert message.<sup>7</sup> As a baseline, the Commission required support for templates in the 13 most commonly spoken languages

<sup>2</sup> *Id.* at 2-3, para. 2, n.4.

<sup>3</sup> 47 U.S.C. § 1201(a); 47 CFR § 10.10(d) (defining a CMS Provider as an “FCC licensee providing commercial mobile service as defined in section 332(d)(1) of the Communications Act of 1934.”). Section 332(d)(1) defines the term commercial mobile service as any mobile service (as defined in 47 U.S.C. 153) that is provided for profit and makes interconnected service available to the public or to such classes of eligible users as to be effectively available to a substantial portion of the public, as specified by regulation by the Commission. See 47 U.S.C. § 332(d)(1).

<sup>4</sup> See generally *2023 WEA Report and Order*.

<sup>5</sup> See, e.g., 47 CFR §§ 10.2, 10.320-350, 10.500-5.30.

<sup>7</sup> *Id.*

in the United States, based on U.S. Census data, and ASL, in addition to English.<sup>8</sup> These languages are: American Sign Language, Arabic, Chinese, French, German, Haitian Creole, Hindi, Italian, Korean, Portuguese, Russian, Spanish, Tagalog, and Vietnamese.

4. The Commission delegated authority to the Bureau to develop specific implementation parameters for template-based multilingual alerting.<sup>9</sup> Specifically, the Commission directed the Bureau to seek comment on which alerts are most commonly used by alerting authorities, which alerts are the most time sensitive and critical for immediate comprehension, the costs of supporting additional languages, whether the English version of the alert should be displayed in addition to the multilingual version, and whether templates could incorporate event-specific information.<sup>10</sup> To the extent it is minimally burdensome to implement, the Commission directed the Bureau to designate additional languages that should be supported.<sup>11</sup> The Bureau was directed to provide an opportunity for comment and subsequently publish an Order establishing the implementation parameters for template-based alerts, including the emergency messages and accompanying templates. The Bureau was also directed to educate mobile device users about how to set the preferred language on devices.<sup>12</sup>

### III. DISCUSSION

#### A. Identifying Alert Types for Templates

5. We propose that Participating CMS Providers must support the use of the Alert Messages templates listed in Appendix C. As discussed in the *2023 WEA Report and Order*, these templates would be pre-installed and stored on mobile devices.<sup>13</sup> When an alerting authority chooses to send a template-based multilingual alert message, the WEA-capable mobile device must be able to extract and display the relevant template in the subscriber's default language, if the default language the subscriber selected is one of the thirteen most commonly spoken languages or ASL.<sup>14</sup>

6. These templates represent, in the Bureau's analysis, the most commonly issued alerts. In developing the list of templates set forth in Appendix C, the Bureau analyzed publicly available Integrated Public Alert and Warning System (IPAWS) data from 2022 and identified nine alert types that we determined were among the most commonly issued alert types: Tornado Warning; Flash Flood Warning; Severe Thunderstorm Warning; Snow Squall Warning; Dust Storm Warning; Hurricane

<sup>12</sup> *Id.* at 15, 17, paras. 25, 29.

<sup>13</sup> *Id.* at 9, para. 14.

<sup>14</sup> *Id.*

Warning; Storm Surge Warning; Extreme Wind Warning; and Test Alert.<sup>15</sup> We adapted the template language for the eight weather-related alerts from templates developed by the National Weather Service (NWS).<sup>16</sup> We adapted the language for the test alert from language previously used by the Federal Emergency Management Agency (FEMA).<sup>17</sup>

7. The templates in Appendix C also include the most time sensitive alerts sent by alert originators. We propose templates for the following nine alert types: Earthquake Warning; Tsunami Warning; Fire Warning; Hazardous Materials Warning; Avalanche Warning; Boil Water Advisory; 911 Outage Warning; Evacuation Immediate; and Shelter in Place Warning. We believe each of these emergencies poses imminent danger to the public and time is of the essence with respect to taking any protective actions. For example, in the event of an earthquake, a ten-second advance warning is crucial for the public to take protective actions that could save lives.<sup>18</sup> We adapted templates for Tsunami Warnings and Shelter in Place Warnings from templates and guidance developed by NWS.<sup>19</sup> The templates for Avalanche Warnings, Fire Warnings, Hazardous Materials Warnings, and 911 Outage Warnings are adapted from research conducted by Dr. Jeannette Sutton.<sup>20</sup> The template for Earthquake

<sup>15</sup> FEMA, *OpenFEMA Dataset: IPAWS Archived Alerts – v1*, <https://www.fema.gov/openfema-data-page/ipaws Archived-alerts-v1> (last visited Nov. 14, 2023). Of the total 8,316 WEA messages sent in 2022, the following messages were sent: 2,325 Tornado Warnings; 2,184 Flash Flood Warnings; 309 Severe Thunderstorm Warnings; 287 Snow Squall Warnings; 202 Dust Storm Warnings; 182 Hurricane Warnings; 126 Storm Surge Warnings; 5 Extreme Wind Warnings; and 467 Test Alerts (including Required Weekly Tests and Required Monthly Tests).

<sup>20</sup> See Jeannette Sutton, Michele K. Olson & Nicholas A. Waugh, *The Warning Lexicon: A Multiphased Study to Identify, Design, and Develop Content for Warning Messages*, 25 Natural Hazards Review 1 (Oct. 30, 2023), <https://ascelibrary.org/doi/10.1061/NHREFO.NHENG-1900> (*Warning Lexicon*) referencing *Warning Lexicon Supplemental Materials* (providing specific guidance on drafting of emergency alerts). Jeannette Sutton, Ph.D., is an Associate Professor in the College of Emergency Preparedness, Homeland Security, and Cybersecurity at the University at Albany, SUNY. Dr. Sutton specializes in disaster and risk with a primary focus on online informal communication, and public alerts and warning disseminated via terse messaging channels. University at Albany  
(continued....)

Warning is adapted from alerts sent by United States Geological Survey (USGS) through ShakeAlert,<sup>21</sup> and the template for Boil Water Advisory was adapted from guidance created by the Centers for Disease Control and Prevention (CDC).<sup>22</sup> Evacuation Immediate is adapted from alerts sent to the public during the Maui wildfires in August 2023.<sup>23</sup>

8. We seek comment on the proposed templates in Appendix C. Are the alert types we have identified the most commonly used by alerting authorities and the most time sensitive? Are there alerts that are not reflected in this list and should be added? To the extent commenters believe additional alerts should be incorporated or any of the template alerts should be removed, commenters should provide data to support their viewpoint. We recognize that there are alert types that may be commonly used or that are extremely time sensitive but that are not included in Appendix C. For example, in reviewing the IPAWS data, we note that AMBER alerts are among the most commonly issued alerts,<sup>24</sup> and that both AMBER alerts and active shooters alerts are time sensitive. Both of these alert types, however, typically include specific information to describe the incident. Should we require Participating CMS Providers to support static AMBER alert or active shooter alert templates? If so, what message should be associated with those templates to best ensure its effectiveness? We note that Notify NYC's approach to using template-based alerts for missing children informs the public that there is a missing child and directs the public to a website hosted by Notify NYC with a photo of the missing child along with any other pertinent details.<sup>25</sup> We observe that a static AMBER alert template would likely be unable to include a link to information that is incident-specific. Should we require support for an AMBER alert and active shooter alert templates only in the event that WEA can support form-fillable templates, as discussed in further detail below?<sup>26</sup> Similarly, IPAWS data shows that Local Area Emergencies, Law Enforcement Warnings, and Civil Emergency Messages are common, but often involve messages that are heavily tailored to the nature

<sup>23</sup> Mike Baker, Sergio Olmos & Eileen Sullivan, *Maui Sent an Evacuation Alert. Why Did So Few People Get It?*, New York Times (Sept. 5, 2023), <https://www.nytimes.com/2023/09/03/us/maui-wildfires-emergency-alerts.html> (showing the text of the alert: "Emergency Alert[.] Evacuation Order issued on Maui Island for Kelawea Mauka Subdivision in Lahaina due to a brushfire. Evacuate your family and pets now, do not delay. A shelter is open at Lahaina Civic Center. Expect conditions that may make driving difficult and watch for public safety personnel operating in the area. Maui Emergency Management Agency[.]").

<sup>24</sup> FEMA, *OpenFEMA Dataset: IPAWS Archived Alerts – v1*, <https://www.fema.gov/openfema-data-page/ipaws Archived-alerts-v1> (last visited Nov. 14, 2023).

<sup>25</sup> NYC Emergency Management, *Notify NYC: Missing Child*, [https://www.nyc.gov/site/em/resources/notify\\_nyc/missing-child-2.page](https://www.nyc.gov/site/em/resources/notify_nyc/missing-child-2.page) (last visited Nov. 8, 2023).

<sup>26</sup> See Section III.B, *infra*.

of the emergency.<sup>27</sup> Can these types of alerts be effectively supported by templates, and if so, what should those templates say?

9. We seek comment on the specific text used in the templates, as well as their translations. Are the templates in Appendix C, and their corresponding translations in Appendix E, drafted in a manner that would be clearly understood by the person receiving it and prompt immediate action? If not, what should be changed? Should any changes be made to the translated templates to improve their accuracy or effectiveness? We ask that commenters offer specific edits to the extent they believe a template message should be modified in any way. As the templates show, we do not limit the templates to 90 or 360 characters, as with alerts sent through IPAWS, because the alerts will not be distributed through IPAWS but instead be stored in the mobile devices directly. We believe allowing additional character length where necessary benefits the public and alerting authorities, as the translations can be accurate without regard to technical limitations regarding the length of the template. We seek comment on this approach. What implementation challenges related to device capabilities and performance, if any, arise from this approach?

10. We seek comment on how the translations for the 13 languages should be conducted. In the *2023 WEA Report and Order*, the Commission required that Participating CMS Providers' WEA-capable mobile devices support templates in Tagalog.<sup>28</sup> We propose that support for multilingual WEA templates be satisfied through translations into Filipino as provided in Appendix E<sup>29</sup>, and we seek comment on whether WEA-capable mobile devices can enable Filipino as the device's default language. Similarly, we propose template alerts written in simplified Chinese characters and seek comment on this approach. Should we require support for templates written with traditional Chinese characters? Should we require support for both? We also propose template alerts written in the Brazilian dialect of Portuguese. Should we support the European dialect of Portuguese? Should we support both?

11. We observe that certain templates in Appendix C direct recipients to evacuate, but evacuation may not be appropriate for all incidents. Alerting authorities may want to send alerts that direct different behavior from recipients, such as sheltering in place. For example, recommended actions to take during a wildfire may vary depending on the dangers posed by the nature of the fire.<sup>30</sup> Should there be multiple alert templates for each type of time sensitive alert that provides differing instructions to the public? For example, should there be one template for fire warnings that directs the public to evacuate and a second template for fire warnings that directs the public to shelter in place? Is there a

<sup>29</sup> Our understanding is that the standardized form of Tagalog is Filipino. Valeria Malabonga, *Heritage Voices: Language – Tagalog*, Center for Applied Linguistics at 1 (Jan. 2009), <https://www.cal.org/wp-content/uploads/2022/05/HeritageVoiceCollectionTagalog.pdf> (“Tagalog is one of the major languages in the Philippines. The standardized form of Tagalog is called Filipino. Filipino is the national language of the Philippines”).

<sup>30</sup> See FEMA, *Wildfire* <https://community.fema.gov/ProtectiveActions/s/article/Wildfire> (last visited Dec. 12, 2023) (“If you are under a wildfire warning, get to safety right away. Leave if told to do so.”). The Forest Service and the American Red Cross both have wildfire guidance that describes what to do in the event of an evacuation during a wildfire and what to do if staying in your home is recommended. Forest Service, *Take Responsibility, Be Prepared if a Wildfire Occurs*, at 1-2 [https://www.fs.usda.gov/Internet/FSE\\_DOCUMENTS/stelprdb5315416.pdf](https://www.fs.usda.gov/Internet/FSE_DOCUMENTS/stelprdb5315416.pdf) (last visited Nov. 3, 2023); American Red Cross, *Wildfire Preparedness Checklist*, at 1-2 (Aug. 1, 2021) [https://www.redcross.org/content/dam/redcross/get-help/pdfs/wildfire/EN\\_Wildfire-Safety-Checklist.pdf](https://www.redcross.org/content/dam/redcross/get-help/pdfs/wildfire/EN_Wildfire-Safety-Checklist.pdf).

public safety benefit to creating multiple templates for a single alert type? Are there any disadvantages to creating multiple templates for a single alert type?

12. We seek comment on whether alerting authorities would benefit from one or more generic alerts on this list, such as “shelter in place” or “evacuate now.” Would a template for generic alerts that are not tied to specific types of disasters be beneficial? How should such templates be written? Would a generic template risk causing confusion, panic, or otherwise making an emergency worse? Are recipients likely to follow the instructions provided in a generic template with no context provided as to the nature of the emergency? What impact would a generic template have on milling?<sup>31</sup>

13. We seek comment on whether alerting authorities would benefit from an alert “all-clear” template that would inform the public the danger has passed or the alert is no longer in effect. We recognize that alerting authorities may need to send follow-up alerts to inform the public whether an alert is cancelled, such as in the case of a false alert. It could cause confusion if an initial alert is sent in several languages but an all-clear can only be sent in English. What public safety benefits would an all-clear template confer? When could this sort of template be used? Are there any drawbacks to providing alerting authorities with an all-clear template? If so, what are they? Do all-clear templates risk public confusion if it does not specify which emergency situation has concluded? If so, how should an all-clear template be technically implemented? Should we require support for an all-clear template only in the event that WEA can support form-fillable templates, as discussed in further detail below?<sup>32</sup>

14. We seek comment on whether multilingual templates should be displayed on their own or accompanied by the English-language version of the alert. The Commission recognized those commenters in the record who suggest that the multilingual template-based alert be displayed together with the English-language alert that includes additional details, to promote a fuller understanding of the nature of the emergency.<sup>33</sup> Is it possible to display both a template-based multilingual alert together with an alert originator-issued alert that includes event-specific information? If this is not possible, is there any benefit to displaying two templates, one in English and one in the device’s default language?

15. The Commission determined based on the record received in the underlying proceeding that implementing template-based WEAs in multiple languages is feasible.<sup>34</sup> The Commission directed the Bureau to seek comment on whether support for static, multilingual templates can be made available on all mobile devices.<sup>35</sup> Based on the Commission’s determination, we believe it is technically feasible for mobile devices to know when to display a template and which template should be displayed. Could said update be done via an over-the-air software update? Could Participating CMS Providers create a new data element that is transmitted upon choosing the template that will ensure devices display the

---

<sup>31</sup> Michele M. Wood et al., *Milling and Public Warnings*, 50 Environment and Behavior 4 (2017), [https://www.researchgate.net/publication/317242672\\_Milling\\_and\\_Public\\_Warnings](https://www.researchgate.net/publication/317242672_Milling_and_Public_Warnings). (explaining milling as “(a) Collective behavior may occur when individuals are confused and do not know what to do; (b) when individuals do not know what to do, they look to see what others are doing; (c) when an individual engages in a behavior, others wait to observe the outcome; if no negative consequences occur, observers determine the action is acceptable, increasing the likelihood of others following suit; and (d) given that most people conform to social norms relevant to their surroundings, people tend to adhere to new emergent group norms”).

<sup>32</sup> See Section III.B, *infra*.

<sup>33</sup> 2023 WEA Report and Order at 14, para. 22.

<sup>34</sup> *Id.* at 10, para. 16 (“Letters from some of the largest Participating CMA Providers indicate that implementing template-based WEAs in multiple languages is feasible.”).

<sup>35</sup> *Id.* at 13, para. 21.

correct templates? Are there any other ways alerting authorities can cause mobile devices to display the correct template? Would any of these ways require updates to the Commission’s rules, such as the creation of new multilingual-specific event codes?

#### B. Incorporating Event-Specific Information into Fillable Alert Templates

16. In the *2023 WEA Report and Order*, the Commission directed the Bureau to seek comment on whether templates can be customizable to include event-specific information.<sup>36</sup> We seek comment on whether this is feasible. In doing so, we recognize and seek to address concerns about static templates that were raised in the record of the underlying proceeding. For example, AT&T stated that static templates limit the ability “to tailor the alert messages to unique emergency events or particular wireless users.”<sup>37</sup> Michigan State Police Operations Management Section (OMS) stated that static templates would reduce flexibility in “crafting regional and culturally relevant messages.”<sup>38</sup> What are the benefits of including event-specific information in templates? Are there situations where a static template is more beneficial to alerting authorities? Will it take longer to send or display alerts containing event-specific information compared to static templates? If so, does the benefit of event-specific information outweigh any potential delay?

17. We seek comment on the incorporation of four fillable elements: Sending Agency, Area Affected, Expiration Time, and (if desired) a URL. The first three elements are drawn from the five mandatory Common Alerting Protocol (CAP) elements required in each WEA message: Event Type, Area Affected, Recommended Action, Expiration Time (with time zone), and Sending Agency.<sup>39</sup> We observe the remaining two required CAP elements, Event Type and Recommended Action, are already included in the static alert templates we propose in Appendix C. We believe these elements will inform recipients that an alert is authoritative, and whether an alert is relevant to the recipient and for how long. Research indicates that when the public receives this information, they are much more likely to take the protective actions described in the alert.<sup>40</sup> In addition, the ability to include a tappable URL will afford alerting authorities greater flexibility to include additional information directing the user to a webpage of their choosing, should the alerting authority wish to include it. We seek comment on this approach, as

---

<sup>36</sup> *Id.* at 14, para. 22.

<sup>37</sup> AT&T Comments, PS Docket Nos. 15-91 and 15-94 at 19 (July 21, 2023) (AT&T Comments) (“[P]re-scripted alerts could not include information often provided by local Alert Originators, such as street names and landmarks familiar to people in the covered area[.]”); *see* Alliance for Telecommunications Industry Solutions Comments, PS Docket Nos. 15-91 and 15-94 at 8 (July 21, 2023) (ATIS Comments) (“Pre-scripted templates appear more limiting than a direct translation by the device based on the user’s preferred language settings[.]”); *see also* CTIA – The Wireless Association Comments, PS Docket Nos. 15-91 and 15-94 at 18 (July 21, 2023) (CTIA Comments) (“[T]emplate-based alerts may be less useful to end users given that they would lack the event-specific information that makes the WEA system such a valuable tool during emergency situations”).

<sup>38</sup> Michigan State Police OMS Comments, PS Docket No. 15-94 at 2 (July 21, 2023) (“[P]re-loading scripted messages onto phones . . . reduces flexibility in crafting regional and culturally relevant messages[.]”).

<sup>39</sup> 47 CFR § 10.420 (“A WEA Alert Message processed by a Participating CMS Provider shall include five mandatory CAP elements—Event Type; Area Affected; Recommended Action; Expiration Time (with time zone); and Sending Agency.”).

<sup>40</sup> *See Warning Lexicon* at 2 (“[F]ive key types of warning message content . . . motivate people to take timely and appropriate protective action in response to a warning message[.] These contents include the following: a description of the threat/event (i.e., hazard) and its consequences (i.e., what is happening and how it will affect people); protective action guidance . . . the location and population at risk . . . the time by which the public should begin taking the protective action . . . and the name of the message sender[.]”).

well as the proposed fillable templates provided in Appendix D. Are these the right elements to include in alert templates to improve their flexibility and effectiveness?

18. We seek comment on the technical feasibility of this approach. How could Participating CMS Providers enable alerting authorities to include event-specific information in templates? We anticipate that, with certain changes to standards discussed below,<sup>41</sup> Participating CMS Providers should be able to support the identification and transmittal of these four customizable elements, either as discrete data parameters sent to the phone or as specific locations within the text of the alert, which would be input into the templates residing on the devices. The fillable elements could then be input into the translated alert templates. We seek comment on this approach and any changes or additions to standards needed for its implementation. Are there any additional solutions that would support the delivery of fillable alerts to WEA-capable mobile devices? Is it technically possible to update all WEA-capable devices currently in use by subscribers to support fillable templates? If not, commenters should provide specific technical reasons why particular models of devices cannot be updated to support this functionality. How would fillable templates need to be implemented to avoid having negative effects on the delivery of alerts to WEA-capable devices that cannot support that capability?

19. We anticipate that fillable elements would not be translated into the displayed template language. For example, if the alert originator fills in the blanks of the template in English, a WEA-capable device would receive the alert in their chosen language with the exception of those particular fields, which would appear in the language the alert originator used—likely English. We believe that this approach would greatly reduce the burdens associated with implementing fillable alert templates and will minimize confusion caused by improper translations. For example, we believe it would be confusing if the formal names of alert originators were to be translated into other languages. Similarly we believe it may cause confusion if the names of roads, cities, counties, states, or other names indicating a specific location were to be translated into other languages.<sup>42</sup> We also note that such an approach would likely require the use of machine translation, which the Commission declined to adopt based on the record in the underlying proceeding demonstrating that machine translation “is not yet ripe for use today in WEA.”<sup>43</sup> We also believe that expiration times and URL addresses must not be translated. We seek comment on this approach. Do any technical difficulties arise in displaying a single alert that uses multiple character sets? Would these alerts be understandable in languages read from right to left instead of left to right, such as Arabic, or languages with different grammatical structures? Should we consider translating these elements and, if so, is there a way to reliably translate them into the languages of the templates into which they will be inserted? What would be the additional burden of translating fillable templates?

### C. Considerations for American Sign Language

20. We seek comment on the implementation of ASL templates. The Commission requires Participating CMS Providers’ WEA-capable mobile devices to provide subscribers with the ability to opt-

---

<sup>41</sup> See Section III.F, *infra*.

<sup>42</sup> Sam Burgum, *Colorado Researchers Recommend Statewide Emergency Alert Strategy*, 9News (Dec. 14, 2023), <https://www.9news.com/article/news/local/research-statewide-emergency-alert-strategy-colorado/73-60ed289a-8f60-4a19-9501-9e7a477c67c6> (describing potential errors associated with translating the name of a geographic location into another language: “Ward is an actual place but [artificial intelligence software] translated ‘Ward’ as ‘district,’ so people could be like ‘Oh, I don’t know which district they’re talking about. I’m not going to do anything.’”).

<sup>43</sup> 2023 WEA Report and Order at 68, para 65; *see id.*

in to receive ASL alerts.<sup>44</sup> The Commission stated that “the user’s voluntary selection of the option to receive WEAs in ASL [could] trigger the mobile device to download ASL templates to the device.”<sup>45</sup> A consumer who opts in to receiving emergency messages in ASL will override the preferred language setting on a user’s phone.<sup>46</sup> Should we require Participating CMS Providers to support a minimum resolution or video quality for the ASL video templates to ensure they are easily understandable to the recipient? Because of varying WEA-capable device sizes, is there a single standard that could be adopted across different devices? Are there any other implementation factors the Bureau should consider to promote the effectiveness of ASL templates?

21. We seek comment on the illustrative videos of ASL translations, which are hyperlinked in Appendix E. We note that these videos are illustrative examples of how the alert messages may be translated into ASL. Like the other translations in Appendix E, these videos are not the final versions of ASL translations that Participating CMS Providers would be required to support. Such videos will be produced based on the feedback received in the comments to this proceeding. Are the ASL translations effective at conveying the template alert message? Are any of the alerts too long when conveyed in ASL, especially when an emergency is particularly time-sensitive? If so, how can the information be effectively conveyed to an ASL speaker in a shorter amount of time? Do the demo-only ASL videos convey the same information as the written English text? If not, what elements of the ASL videos need to be modified?

22. We seek comment on whether there are specific qualifications the video signer should have to ensure the translations are effective. Telecommunications for the Deaf and Hard of Hearing, Inc. et al. urge the Commission to produce “videos of ASL interpreters . . . using deaf talent and/or deaf interpreters that are native users of ASL to ensure that information is fluently communicated” and “achieve the widest range of comprehension for ASL users in a WEA’s targeted area.”<sup>47</sup> Aside from the recommendation to use deaf talent and deaf signer(s) who are native users of ASL, what other qualifications should the Commission consider in selecting a signer to present the ASL templates? For example, should we consider deaf talent who have previous experience in signing emergency alert messages?<sup>48</sup> Should the video signer be a “certified deaf interpreter”?<sup>49</sup> Are there any best practices or guidelines that should be used in selecting the signer for ASL video templates? Are there specific settings that should be used for filming the videos, for example, the color of the background? Are there examples of similar ASL videos that we should review for guidance?<sup>50</sup> Should the same signer be used for every ASL template? Should there instead be more than one signer, and if so, why? Are there regional

<sup>44</sup> *Id.* at 12-13, para. 20.

<sup>45</sup> *Id.* at 13, para. 20, n. 71.

<sup>46</sup> *Id.* at 13, para. 20.

<sup>47</sup> See Telecommunications for the Deaf and Hard of Hearing, Inc. et al. Reply, PS Docket Nos. 15-91 and 15-94 at 3 (filed Aug. 21, 2023) (TDI Reply).

<sup>48</sup> Cf. NYC Emergency Management, Comments, PS Docket Nos. 15-91 and 15-94 at 3-4 (July 20, 2023) (NYCEM Comments) (“NYCEM embeds pre-recorded ASL videos via hyperlink to a majority of Notify NYC messages.”)

<sup>49</sup> See, e.g., Registry of Interpreters of the Deaf, Inc., *Certified Deaf Interpreter Certification* (last visited Feb. 2, 2024), <https://rid.org/certification/available-certifications/>.

<sup>50</sup> See e.g., TDI Reply at 4-6 (describing pilot program for inserting ASL videos into WEAs by the State of Washington Office of Deaf and Hard of Hearing); NYCEM Comments at 3-4 (describing use of hyperlinks to ASL videos in Notify NYC messages and proposing “creation of a website with pre-recorded ASL alerts that can be utilized by all alert originators.”).

variations in ASL that we should take into account in preparing the final ASL videos, and, if so, how can we create the most universally accessible video for an alert to reach the widest range of ASL speakers? Are there other factors we should consider to make the ASL templates accessible to the widest possible audience?

23. We seek comment on whether videos for ASL alerts should be accompanied by the English text of the alert as indicated by the demo-only ASL videos linked in Appendix E. The demo-only videos include English captions at the bottom of the video screen. Should this formatting be retained in the final translations? Would inclusion of the English text improve the ability of the recipient to understand the alert? If so, how should the accompanying English alert be presented? Instead of the English text being captioned in the video itself, should there be an independent video crawl or block text, similar to how it is displayed for the Emergency Alert System?<sup>51</sup> Would a separate captioning stream provide additional benefits to people with disabilities, such as those who use refreshable braille displays?<sup>52</sup> Because the Commission required that opting to receive alerts in ASL overrides the other language defaults on a mobile device,<sup>53</sup> are there issues with having the text crawl appear only in English? Should WEA-capable devices support the overlaying of additional languages onto the video of ASL alerts? If so, how should the language of the overlayed text be determined (e.g., by the device's default language) and how could it be technically implemented?

24. We seek comment on whether and how fillable templates could support ASL alerts. We note that, due to the nature of ASL video templates, it may not be possible for fillable elements to be directly inserted into ASL templates like they can for text-based alerts. Would it be technically feasible to overlay event-specific information in the device's default language over an ASL video alert message? Would an English text crawl, including the Sending Agency, Area Affected, Expiration Time, and URL, be confusing if it does not match exactly with what is being conveyed in ASL (e.g., if it is not feasible to adopt a form-fillable approach to ASL and a more fulsome alert-originator issued text crawl in English accompanies the static ASL video)? Are there any other ways event-specific information could be inserted in ASL templates without overwhelming the user with excessive or duplicate text?

#### D. Supporting Additional Languages

25. The Commission directed the Bureau to seek comment on whether to require Participating CMS Providers to support templates in additional languages, and if so, what those languages should be.<sup>54</sup> The 13 languages the Commission selected were the most commonly spoken in the United

---

<sup>51</sup> See 47 CFR § 11.51(d)(1)(i-iv) (“The visual message portion of an EAS alert, whether video crawl or block text, must be displayed [a]t the top of the television screen or where it will not interfere with other visual messages [i]n a manner (*i.e.*, font size, color, contrast, location, and speed) that is readily readable and understandable, [i]n a manner that does not contain overlapping lines of EAS text or extend beyond the viewable display (except for video crawls that intentionally scroll on and off of the screen), and [i]n full at least once during any EAS message.”).

<sup>52</sup> See, e.g., Accessibility Advocacy and Research Organizations Comments, GN Docket No. 21-140 at 52 (June 7, 2021) (“The compatibility of closed captioning with refreshable Braille displays and other equipment routinely used by DeafBlind people remains a perennial issue[.]”).

<sup>53</sup> *Id.* at 13, para. 20.

<sup>54</sup> 2023 WEA Report and Order at 14-15, para 23-24. The 2023 WEA Report and Order requires support for American Sign Language, Arabic, Chinese, French, German, Haitian Creole, Hindi, Italian, Korean, Portuguese, Russian, Spanish, Tagalog, and Vietnamese. *Id.* at 11-12, para. 19.

States, based on Census data,<sup>55</sup> and ASL was selected based on a robust record of support in the 2023 WEA FNPRM.<sup>56</sup> However, the record also reflected concern that these languages would be insufficient to address alerting authorities' needs.<sup>57</sup> The Attorneys General commented that WEAs should "be transmitted in all languages estimated to be spoken by at least 300,000 people in the U.S. over five years old[.]"<sup>58</sup> Alternately, the Attorneys General suggest WEA messages should be translated "in any additional languages for which there are at least an estimated 25,000 individuals over the age of five years old nationwide (based on the most recent American Community Survey data) who have especially high rates of [limited English proficiency], *i.e.*, those who report speaking English either 'not at all' or 'not well.'"<sup>59</sup> Other commenters suggest that a nationwide approach to selecting additional languages may not meet the needs of the local jurisdiction.<sup>60</sup> Looking to another context, we observe that the United States

<sup>55</sup> U.S. Census Bureau, DP02 | Selected Social Characteristics in the United States (2021), <https://data.census.gov/cedsci/table?q=DP02#> (breaking down language speakers in the United States); *Language Use in the United States* at 8, 14-15; see also US Census Bureau, *The 2020 Census Speaks More Languages* (Mar. 9, 2020), <https://www.census.gov/newsroom/pressreleases/2020/languages.html>.

<sup>56</sup> *Wireless Emergency Alerts, Amendments to Part 11 of the Commissions' Rules Regarding the Emergency Alert System*, PS Docket Nos. 15-91 and 15-94, Further Notice of Proposed Rulemaking, FCC 23-30 (Apr. 20, 2023) (2023 WEA FNPRM); Telecommunications for the Deaf and Hard of Hearing, Inc. et al. Comments., PS Docket Nos. 15-91 and 15-94 at 3-5 (July 21, 2023) ("[T]he Commission should require WEAs to be delivered in American Sign Language—the primary language of the deaf population . . . . Although certain emergency situations may require unique or specific information delivered through an WEA, the use of template-based alerts that are translated into ASL may provide a next best option to ensuring that the WEAs are accessible to persons for whom ASL is their primary language."); Disability and Communication Access Board Comments, PS. Docket Nos. 15-91 and 15-94 (July 6, 2023) ("Transmitting American Sign Language (ASL) videos . . . would increase the accessibility and effectiveness of emergency alerts."); The National Weather Service Comments, PS Docket Nos. 15-91 and 15-94 at 3 (July 21, 2023) (NOAA/NWS Comments) ("The NWS strongly supports the pursuit of American Sign Language (ASL) solutions and capabilities within WEA."); NYCEM Comments at 3-4 ("The same method could be valid for ASL videos to that of pre-loading templatized WEAs on to supported devices . . . . Even for individuals who primarily use ASL, but may be proficient in another language, it is just as important as any other language that the emergency information be distributed to as many people as possible in their primary language to promote equity and inclusion and ensure equal access to emergency information and an opportunity to take any needed steps to mitigate the emergency").

<sup>57</sup> See, e.g., Letitia James, New York State Attorney General, Philip J. Weiser, Colorado Attorney General, William Tong, Connecticut Attorney General, Brian L. Schwalb, District of Columbia Attorney General, Kwame Raoul, Illinois Attorney General, Anthony G. Brown, Maryland Attorney General, Andrea Joy Campbell, Massachusetts Attorney General, Keith Ellison, Minnesota Attorney General, Aaron D. Ford, Nevada Attorney General, Matthew J. Platkin, New Jersey Attorney General, Raúl Torrez, New Mexico Attorney General, Ellen F. Rosenblum, Oregon Attorney General, Peter Neronha, Rhode Island Attorney General, Charity R. Clark, Vermont Attorney General, Bob Ferguson, Washington Attorney General, Joshua L. Kaul, Wisconsin Attorney General, Hon. Sylvia O. Hinds-Radix, New York City Corporation Counsel Comments, PS Docket Nos. 15-91 and 15-94 at 2 (July 21, 2023) (Attorneys General Comments) ("We are also concerned that the 13 languages identified by the Commission do not take into account the limited English proficiency of millions of people. As a result, we urge the Commission to require wireless companies to issue WEAs in more languages.").

<sup>58</sup> *Id.* at 8.

<sup>59</sup> *Id.*

<sup>60</sup> See NYCEM Comments at 3 ("NYCEM understands the recommendation that WEA capable devices support delivery in the most spoken languages in the United States. However, "most common" is relative to each individual jurisdiction and the most common nationally may not meet the needs of the local population. For example, the list provided does not include several of NYC's most-common languages, including Bengali, Polish, Urdu, and Yiddish. It would be inequitable to offer these languages alerts via mass notification, but not when an incident escalates to the level of WEA").

Census Bureau uses yet another approach for determining in which languages to make its census materials available.<sup>61</sup>

26. We seek comment on whether template-based alerts should be translated into additional languages and, if so, which ones? Is there a particular approach that would be best utilized to identify any additional languages? Should multiple approaches be used? Are there other factors we should consider? How do we assess what constitutes a high rate of limited English proficiency (LEP)? We observe that there are some jurisdictions with heavy concentrations of LEP communities who speak a language that may not be included in either approach proposed by the Attorneys General.<sup>62</sup> To what extent should template-based alerts be considered for languages that are not currently supported by widely available mobile devices? We observe, for example, that default languages available for Android devices may differ from default languages available for iPhone devices.

27. We seek comment on whether there are any limitations on the ability for WEA-capable devices to add templates for additional languages. Can additional languages be added over the air through software and firmware patches? What devices currently on the market would be able to be updated to support additional languages?

28. We seek comment on the timeframe in which additional languages could be supported. In the *2023 WEA Report and Order*, the Commission determined that 30 months was a reasonable period to implement the templates for the 13 languages, English, and ASL.<sup>63</sup> We believe that the implementation of templates in additional languages will likely rely on the same standards and approach to implementation as the original 13 languages, which will minimize the amount of necessary implementation time. We also believe that over-the-air software updates can enable additional languages and corresponding templates to be added to WEA-capable mobile devices. We seek comment on these beliefs, as well as specific estimates for how much additional time would be needed to implement additional languages.

29. As explained by the Commission, in order for multilingual WEA to reach the intended recipient, users of cellular devices must first set their phones to the default language of their choice.<sup>64</sup> The Commission directed the Bureau to work with the Consumer and Governmental Affairs Bureau to create a consumer guide explaining how to do so, translated into the 13 languages adopted in the *2023 WEA Report and Order* and ASL. We seek comment on what approaches the Bureau should take to maximize the effect and reach of the guides. What information is essential to include in such a guide? How should the guides be shared with the public? What role can alert originators play in sharing this information within their jurisdictions? Would these guides need to be tailored to specific makes and

---

<sup>61</sup> The Census Bureau translated its materials into languages spoken by at least 2,000 limited-English-speaking households. The Census Bureau defined limited-English-speaking household as: “no member 14 years old and over speaks only English at home or speaks a language other than English at home and speaks English ‘very well.’” U.S. Census Bureau, *2020 Census Program Memorandum Series: 2018.06*, at 1 (Feb. 27, 2018), [https://www2.census.gov/programs-surveys/decennial/2020/program-management/memo-series/2020-memo-2018\\_06.pdf](https://www2.census.gov/programs-surveys/decennial/2020/program-management/memo-series/2020-memo-2018_06.pdf).

<sup>62</sup> See NYCEM comments at 3 (“For example, the list provided does not include several of NYC’s most-common languages, including Bengali, Polish, Urdu, and Yiddish.”).

<sup>63</sup> The 30-month period would run from the date of publication in the Federal Register of the Bureau-level Order and associated rules addressing the implementation matters raised in this Public Notice. *2023 WEA Report and Order* at 15-17, paras. 25-27.

<sup>64</sup> *Id.* at 17, para. 29.

models of devices used by consumers? Should Participating CMS Providers also be developing guidance on multilingual WEA templates for their customers, and if so, what information should it include and how should it be shared?

#### **E. Future Updates to Alert Types, Templates, and Languages**

30. We seek comment on the process by which the Bureau might update, supplement, or otherwise require improvements for templates. Should there be a process in place for alerting authorities to request that the Bureau require new alert types or support additional languages? Should such requests be filed in the Commission’s WEA docket? We anticipate that the Bureau would provide notice of such changes and an opportunity for comment prior to implementing such changes. Alternatively, should the Bureau periodically reassess the effectiveness of templates and seek comment on whether any modifications or additional languages are necessary? If so, how frequently should the Bureau make that assessment, balancing alert originator needs with the administrative burden of conducting such an analysis, as well any potential costs to Participating CMS Providers?

#### **F. Assessing the Benefits and Costs**

31. The Commission directed the Bureau to seek comment on the costs of supporting additional languages and to designate additional languages that should be supported via multilingual templates to the extent they would be minimally burdensome to implement.<sup>65</sup> The Commission also directed the Bureau to seek comment on the feasibility of implementing customizable, form-fillable alerts. Accordingly, we seek comment on the incremental benefits and costs of supporting customizable templates, as well as the cost of implementing additional languages.

32. *Benefits of Fillable Templates.* We seek comment on the benefits of allowing customization of multilingual alerts by leveraging form-fillable templates. Researchers have determined that there are five essential elements for complete and effective emergency alert messages: 1) identifying the threat and its consequences; 2) guidance on what to do; 3) the location; 4) the time the public has to respond; and 5) the name of the message sender.<sup>66</sup> Decades of research demonstrates the importance of these five elements for imminent and unfamiliar hazards.<sup>67</sup> We believe form-fillable templates incorporating these elements would enable alerting originators to send more detailed and personalized alert messages with key information to users who will receive the translated template alert, which will help them take more effective protective actions.<sup>68</sup> Therefore, we believe that considerable benefits to the safety of life and property would result from being able to take more effective protective action as a result of fillable templates. We recognize that these benefits would be particularly acute not only for speakers of the thirteen most commonly spoken languages, but also for ASL speakers, underscoring the importance of an effective way to customize alerts. We seek comment on these beliefs.

33. *Cost of Implementing Fillable Templates.* We anticipate that implementation of form-fillable templates would require similar costs to implementing static templates. In the *2023 WEA Report*

---

<sup>65</sup> *Id.* at 14-15, paras. 23-24 (“To the extent that it would be minimally burdensome to implement, we direct the Bureau to designate additional languages . . . that should be supported through templates.”)

<sup>66</sup> See *Warning Lexicon* at 2.

<sup>67</sup> *Id.* (“Decades of research investigating effective warnings has demonstrated the importance of including these contents to warn about imminent hazards, such as earthquake, tsunami, tornado, dust storm, and snow squall, especially for hazards that are unfamiliar to message receivers.”) (citations omitted).

<sup>68</sup> See, e.g., AT&T Comments at 19; ATIS Comments at 8; CTIA Comments at 18.

*and Order*, the Commission determined the costs for implementing static templates.<sup>69</sup> To implement static templates, Participating CMS Providers will need to determine what changes are required with respect to storage, standards, processes, and devices. Participating CMS Providers would need to make determinations on those same issues to implement fillable templates. The implementation of static templates would also require software development, testing, and deployment, which are the same processes that would be needed to implement fillable templates. The Commission estimated that the highest cost needed to comply with the *2023 WEA Report and Order* was \$42.4 million, and we tentatively conclude that this cost ceiling is applicable to both static and fillable templates, regardless of which approach is adopted, due to similarities in the modifications and timelines necessary for implementation.<sup>70</sup> Given the significant public safety benefits of supporting fillable templates to create more effective alerts and that the costs of implementing fillable templates are inclusive of the costs of implementing static templates, we tentatively conclude that the benefits of fillable templates instead of static templates outweigh the marginal costs. We seek comment on this conclusion. To the extent that comments disagree with this conclusion, we ask them to include specific data and timelines distinguishing the costs of fillable templates from the Commission’s cost estimate. Are there other approaches to implementing multilingual templates that we should consider that are more efficient and less burdensome, including for small entities?

34. *Costs of Supporting Additional Languages.* In the *2023 WEA Report and Order*, the Commission found that significant benefits arise from Participating CMS Providers supporting multilingual WEA.<sup>71</sup> The Commission directed the Bureau to seek comment on the costs of supporting multilingual WEA alerts in additional languages beyond the ones already adopted, and directed the Bureau to designate additional languages to the extent they would be minimally burdensome to implement.<sup>72</sup> For purposes of this analysis, we propose to define “minimally burdensome” as the necessary cost to add one new language to existing WEA standards, update software to add support for that language’s templates, and conduct any necessary testing. We anticipate that the standards and software that can be developed to implement multilingual WEA will be designed to accommodate and streamline the addition of new languages as they are needed. We also believe that because Participating CMS Providers routinely release software updates to their network infrastructure, the costs of new multilingual templates to WEA-capable mobile devices could be minimized by adding them as part of a

---

<sup>69</sup> *2023 WEA Report and Order* at 35-37, paras. 64-67.

<sup>70</sup> *Id.* at 15-16, 35-37, paras. 26-27, 64-65 (“[O]ur one-time cost \$42.4 million to update the WEA standards and software necessary to comply with the proposals in the *Further Notice* includes approximately a \$845,000 to update applicable WEA standards and approximately a \$41.5 million to update applicable software. We quantify the \$845,000 cost of modifying standards as the annual compensation for 30 network engineers compensated at the national average wage for their field (\$62.25/hour), plus a 45% mark-up for benefits (\$28.01/hour) working for the amount of time that it takes to develop a standard (one hour every other week for one year, 26 hours) for 12 distinct standards. Our \$41.5 million cost estimate for software updates consists of \$12.2 million for software modifications and \$29.3 million for software testing. The Commission quantified the cost of modifying software as the annual compensation for one software developer compensated at the national average wage for their field (\$132,930/year), plus a 45% mark-up for benefits (\$59,819/year), working for the amount of time that it takes to develop software (ten months) at each of the 76 CMS Providers that participate in WEA. The Commission quantified the cost of testing these modifications (including integration testing, unit testing and failure testing) to require 12 software developers compensated at the national average for their field working for two months at each of the 76 CMS Providers that participate in WEA.” (citations omitted)).

<sup>71</sup> *Id.* at 33-34, para. 60.

<sup>72</sup> *Id.* at 14-15, paras. 23-24 (“To the extent that it would be minimally burdensome to implement, we direct the Bureau to designate additional languages . . . that should be supported through templates.”)

regularly scheduled update. As a result, we expect that the cost of implementing a single language would either be extremely low or negligible, as identified by the Commission.<sup>73</sup>

35. We propose that we would find the addition of a new language to be more than minimally burdensome to the extent that its implementation would necessitate significant and atypical costs beyond those in the steps identified by the Commission and described above. We seek comment on these proposals. Do commenters anticipate, as we do, that standards and software for multilingual WEA alert templates be developed also in a way that supports and minimizes the costs of implementing additional languages? What specific changes to standards and software would be necessary to support additional languages after the languages required by the *2023 WEA Report and Order* are implemented? Would any actions beyond those described above be necessary for the successful implementation of additional templates? What should the compliance timeframe be for implementing templates for additional languages to best balance the public safety interest in rapid deployment and the minimizing burdens for providers? For any costs that commenters believe would rise above “minimally burdensome,” we ask commenters to provide specific estimates along with the assumptions underlying those estimates.

#### **G. Promoting Digital Equity and Inclusion**

36. To the extent not already addressed, the Commission, as part of its continuing effort to advance digital equity for all,<sup>74</sup> including people of color, persons with disabilities, persons who live in rural or Tribal areas, and others who are or have been historically underserved, marginalized, or adversely affected by persistent poverty or inequality, invites comment on any equity-related considerations<sup>75</sup> and benefits (if any) that may be associated with the proposals and issues discussed herein. Specifically, we seek comment on how our inquiries may promote or inhibit advances in diversity, equity, inclusion, and accessibility, as well the scope of the Commission’s relevant legal authority.

### **IV. PROCEDURAL MATTERS**

#### **A. Providing Accountability Through Transparency Act**

37. *Providing Accountability Through Transparency Act:* Consistent with the Providing Accountability Through Transparency Act, Public Law 118-9, a summary of this document will be available on <https://www.fcc.gov/proposed-rulemakings>.

---

<sup>73</sup> See *id.* at 14, para. 23. (“We believe that, after the relevant stakeholders standardize and develop the technology necessary to support template-based multilingual WEA messages, the costs for adding additional language support via this process would be negligible, while the countervailing public interest benefits would be significant.”).

<sup>74</sup> Section 1 of the Communications Act of 1934 as amended provides that the FCC “regulat[es] interstate and foreign commerce in communication by wire and radio so as to make [such service] available, so far as possible, to all the people of the United States, without discrimination on the basis of race, color, religion, national origin, or sex.” 47 U.S.C. § 151.

<sup>75</sup> The term “equity” is used here consistent with Executive Order 13985 as the consistent and systematic fair, just, and impartial treatment of all individuals, including individuals who belong to underserved communities that have been denied such treatment, such as Black, Latino, and Indigenous and Native American persons, Asian Americans and Pacific Islanders and other persons of color; members of religious minorities; lesbian, gay, bisexual, transgender, and queer (LGBTQ+) persons; persons with disabilities; persons who live in rural areas; and persons otherwise adversely affected by persistent poverty or inequality. See Exec. Order No. 13985, 86 Fed. Reg. 7009, Executive Order on Advancing Racial Equity and Support for Underserved Communities Through the Federal Government (January 20, 2021).

**B. Regulatory Flexibility Act**

38. The Regulatory Flexibility Act of 1980, as amended (RFA)<sup>76</sup>, requires that an agency prepare a regulatory flexibility analysis for notice and comment rulemakings, unless the agency certifies that “the rule will not, if promulgated, have a significant economic impact on a substantial number of small entities.”<sup>77</sup> Accordingly, we have prepared an Supplemental Regulatory Flexibility Analysis (Supplemental IRFA) concerning the possible impact of the rule and policy changes contained in this Public Notice. The Supplemental IRFA is set forth in Appendix B. Written public comments are requested on the Supplemental IRFA. Comments must have a separate and distinct heading designating them as responses to the Supplemental IRFA and must be filed by the deadlines for comments on the first page of this document.

**C. Paperwork Reduction Act Analysis**

39. This document contains proposed new or modified information collection requirements. The Commission, as part of its continuing effort to reduce paperwork burdens, invites the general public and the Office of Management and Budget (OMB) to comment on the information collection requirements contained in this document, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. In addition, pursuant to the Small Business Paperwork Relief Act of 2002, Public Law 107-198, see 44 U.S.C. 3506(c)(4), we seek specific comment on how we might further reduce the information collection burden for small business concerns with fewer than 25 employees. The Bureau does not believe that the new or modified information collection requirements we adopt here will be unduly burdensome on small businesses.

**D. Deadlines and Filing Procedures**

40. Pursuant to sections 1.415 and 1.419 of the Commission’s rules, 47 CFR §§ 1.415, 1.419, interested parties may file comments and reply comments on or before the dates indicated on the first page of this document. Comments may be filed using the Commission’s Electronic Comment Filing System (ECFS). *See Electronic Filing of Documents in Rulemaking Proceedings*, 63 FR 24121 (1998).

- *Electronic Filers.* Comments may be filed electronically using the Internet by accessing the ECFS: <http://apps.fcc.gov/ecfs/>.
- *Paper Filers.* Parties who choose to file by paper must file an original and one copy of each filing.

41. Filings can be sent by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail. All filings must be addressed to the Commission’s Secretary, Office of the Secretary, Federal Communications Commission.

- Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9050 Junction Drive, Annapolis Junction, MD 20701. U.S. Postal Service first-class, Express, and Priority mail must be addressed to 45 L Street NE, Washington, DC 20554
- Effective March 19, 2020, and until further notice, the Commission no longer accepts any hand or messenger delivered filings. This is a temporary measure taken to help protect the health and safety of individuals, and to mitigate the transmission of COVID-19. See

---

<sup>76</sup> See 5 U.S.C. § 603. The RFA, 5 U.S.C. §§ 601–612, was amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA), Pub. L. No. 104-121, Title II, 110 Stat. 857 (1996).

<sup>77</sup> *Id.* § 605(b).

FCC Announces Closure of FCC Headquarters Open Window and Change in Hand-Delivery Policy, Public Notice, DA 20-304 (March 19, 2020).  
<https://www.fcc.gov/document/fcc-closes-headquarters-open-window-and-changes-hand-delivery-policy>.

42. *People with Disabilities.* To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to [fcc504@fcc.gov](mailto:fcc504@fcc.gov) or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice).

43. *Ex Parte Rules.* The proceeding this Notice initiates shall be treated as a “permit-but-disclose” proceeding in accordance with the Commission’s *ex parte* rules.<sup>78</sup> Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentation must (1) list all persons attending or otherwise participating in the meeting at which the *ex parte* presentation was made, and (2) summarize all data presented and arguments made during the presentation. If the presentation consisted in whole or in part of the presentation of data or arguments already reflected in the presenter’s written comments, memoranda or other filings in the proceeding, the presenter may provide citations to such data or arguments in his or her prior comments, memoranda, or other filings (specifying the relevant page and/or paragraph numbers where such data or arguments can be found) in lieu of summarizing them in the memorandum. Documents shown or given to Commission staff during *ex parte* meetings are deemed to be written *ex parte* presentations and must be filed consistent with rule 1.1206(b). In proceedings governed by rule 1.49(f) or for which the Commission has made available a method of electronic filing, written *ex parte* presentations and memoranda summarizing oral *ex parte* presentations, and all attachments thereto, must be filed through the electronic comment filing system available for that proceeding, and must be filed in their native format (e.g., .doc, .xml, .ppt, searchable .pdf). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules.

44. *Contact Information.* For further information, please contact Joshua Gehret, Cybersecurity and Communications Reliability Division, Public Safety and Homeland Security Bureau at (202) 418-7816 or by email at [Joshua.Gehret@fcc.gov](mailto:Joshua.Gehret@fcc.gov).

## V. ORDERING CLAUSES

45. ACCORDINGLY IT IS ORDERED, pursuant to the authority contained in Sections 1, 2, 4(i), 4(n), 5(c), 301, 303(b), 303(e), 303(g), 303(j), 303(r), 307, 309, 316, 403, and 706 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152, 154(i), 154(n), 155(c), 301, 303(b), 303(e), 303(g), 303(j), 303(r), 307, 309, 403, and 606, as well as by sections 602(a), (b), (c), (f), 603, 604 and 606 of the Warning Alert and Response Network (WARN) Act, 47 U.S.C. §§ 1201(a), (b), (c), (f), 1203, 1204 and 1206, the Wireless Emergency Alerts, Amendments to Part 11 of the Commission’s Rules Regarding the Emergency Alert System, PS Docket Nos. 15-91 and 15-94, Third Report and Order, FCC 23-88 (2023), and 47 CFR §§ 0.5(c), 0.191, 0.201, 0.204, and 0.392 that this Public Notice IS hereby ADOPTED.

---

<sup>78</sup> 47 C.F.R. §§ 1.1200 *et seq.*

46. IT IS FURTHER ORDERED that the Office of the Secretary, Reference Information Center, SHALL SEND a copy of this Public Notice, including the Supplemental Initial Regulatory Flexibility Analyses, to the Chief Counsel for Advocacy of the Small Business Administration.

FEDERAL COMMUNICATIONS COMMISSION

Debra Jordan  
Chief  
Public Safety and Homeland Security Bureau

**APPENDIX A****Proposed Rules**

For the reasons discussed in the document above, the Federal Communications Commission proposes to amend 47 CFR part 10 as follows:

**PART 10 – WIRELESS EMERGENCY ALERTS**

1. The authority citation for part 10 is revised to read as follows:

**Authority:** 47 U.S.C. 151, 152, 154(i), 154(n), 201, 301, 303(b), 303(e), 303(g), 303(j), 303(r), 307, 309, 316, 403, 544(g), 606, 1201, 1202, 1203, 1204, and 1206.

\* \* \* \* \*

2. Delayed indefinitely, amend § 10.480 by adding paragraphs (b), (c), and (d) to read as follows:

**§ 10.480 Language support.**

\* \* \* \* \*

(b) [Reserved]

(c) The pre-scripted alert templates that must be supported are provided in paragraph (d) of this section.

(d) The material listed in this paragraph (d) is incorporated by reference into this section with the approval of the Director of the Federal Register under 5 U.S.C. 552(a) and 1 CFR part 51. To enforce any edition other than that specified in this section, the Federal Communications Commission (FCC) must publish notice of change in the Federal Register and the material must be available to the public. All approved material is available for inspection at the FCC and at the National Archives and Records Administration (NARA). Contact FCC at: the address indicated in § 0.401(a) of this chapter (Reference Information Center). For information on the availability of this material at NARA, email: fr.inspection@nara.gov, or go to: <https://www.archives.gov/federal-register/cfr/ibr-locations.html>. The material may be obtained from the following sources in this paragraph (d).

(1) The following document is available from the Federal Communications Commission, 45 L Street NE, Washington, DC 20554, or go to [hyperlink].

(i) [“Required Multilingual Templates for Wireless Emergency Alerts” [date]].

(ii) [Reserved]

(2) [Reserved]

\* \* \* \* \*

**APPENDIX B****Supplemental Regulatory Flexibility Analysis**

1. As required by the Regulatory Flexibility Act of 1980, as amended (RFA),<sup>1</sup> the Bureau has prepared this Supplemental Initial Regulatory Flexibility Analysis (Supplemental IRFA) of the possible significant economic impact on small entities of the policies and rules discussed in this Public Notice to supplement the Commission's Initial and Final Regulatory Flexibility Analyses completed in the *2023 WEA FNPRM* released in April 2023,<sup>2</sup> and the *2023 WEA Report and Order* released in October 2023.<sup>3</sup> Written public comments are requested on this Supplemental IRFA. Comments must be identified as responses to the Supplemental IRFA and must be filed by the same deadline for comments specified on the first page of this Public Notice. The Bureau will send a copy of this Public Notice, including this Supplemental IRFA, to the Chief Counsel for Advocacy of the Small Business Administration (SBA).<sup>4</sup> In addition, this Public Notice and Supplemental IRFA (or summaries thereof) will be published in the *Federal Register*.<sup>5</sup>

2. *Need for, and Objectives of, the Proposed Rules.* Pursuant to the Commission's directive in the *2023 WEA Report and Order*, in this Public Notice the Bureau has identified and proposed a group of the most common WEA message alerts and the most time sensitive alerts for support via template which would be pre-installed and stored on devices by Participating CMS Providers in English, the 13 most commonly spoken languages in the U.S. (Arabic, Chinese, French, German, Haitian Creole, Hindi, Italian, Korean, Portuguese, Russian, Spanish, Tagalog, and Vietnamese), and ASL. These templates, which would be displayed at the option of the alert originator, will enable alerting authorities to reach communities during emergency situations that would otherwise not understand an alert by providing WEA alerts and potentially life-saving emergency information in one of the languages identified above. Millions of people living in the United States do not primarily speak (and likely do not understand) English or Spanish, and an estimated one-in-four U.S. adults have some form of disability. Therefore, the accurate translation of emergency information is critical for alerting authorities to have confidence in the emergency alert information in the transmitted language, and that the alert will be understood by the target community.

3. Consistent with and in furtherance of the Commission's priority that WEA as an effective live-saving tool be accessible to as many people as possible, in this Public Notice the Bureau seeks comment on whether Participating Commercial Mobile Service (CMS) Providers should be required to support templates in additional languages, and how additional languages can be selected for WEA support. At the Commission's direction, the Bureau also seeks comment on the costs to support

---

<sup>1</sup> 5 U.S.C. § 603. The RFA, 5 U.S.C. §§ 601-612, has been amended by the Small Business Regulatory Enforcement Fairness Act of 1996, Pub. L. No. 104-121, 110 Stat. 857 (1996).

<sup>2</sup> See *Wireless Emergency Alerts, Amendments to Part 11 of the Commissions' Rules Regarding the Emergency Alert System*, PS Docket Nos. 15-91 and 15-94, Further Notice of Proposed Rulemaking, FCC 23-30, Appx. B at 53-81, paras. 1-79 (Apr. 23, 2023) (*2023 WEA FNPRM*).

<sup>3</sup> See *Wireless Emergency Alerts, Amendments to Part 11 of the Commission's Rules Regarding the Emergency Alert System*, PS Docket Nos. 15-91 and 15-94, Third Report and Order, FCC 23-88, Appx. B at 43-69, paras. 1-67 (Oct. 20, 2023) (*2023 WEA Report and Order*).

<sup>4</sup> See 5 U.S.C. § 603(a).

<sup>5</sup> See *id.*

WEA alerts in languages beyond those already required,<sup>6</sup> and seeks to designate additional languages that are minimally burdensome to implement.<sup>7</sup> The scope of the costs included in the Bureau’s proposed definition of “minimally burdensome” encompass the costs to add one new language to current WEA standards, software updates to add support for the language’s template, and necessary testing. The Bureau also proposes form-fillable templates that would include emergency specific information and seeks comment on the technical implementation of the templates. The Bureau also seeks comment on how to best implement ASL templates.

4. *Legal Basis.* The proposed action is authorized under sections 1, 2, 4(i), 4(n), 301, 303(b), 303(e), 303(g), 303(j), 303(r), 307, 309, 316, 403, and 706 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 151, 152, 154(i), 154(n), 301, 303(b), 303(e), 303(g), 303(j), 303(r), 307, 309, 316, 403, 544(g), and 606; the Warning Alert and Response Network (WARN) Act, WARN Act §§ 602(a), (b), (c), (f), 603, 604, and 606, 47 U.S.C. §§ 1201(a),(b),(c), (f), 1203, 1204 and 1206, the Wireless Emergency Alerts, Amendments to Part 11 of the Commission’s Rules Regarding the Emergency Alert System, PS Docket Nos. 15-91 and 15-94, Third Report and Order, FCC 23-88 (2023), and 47 CFR §§ 0.5(c), 0.191(e), 0.201, 0.204, and 0.392.

5. *Description and Estimate of the Number of Small Entities to Which the Proposed Rules Will Apply.* The RFA directs agencies to provide a description and, where feasible, an estimate of the number of small entities that may be affected by the proposed rules and policies, adopted.<sup>8</sup> The RFA generally defines the term “small entity” as having the same meaning as the terms “small business,” “small organization,” and “small governmental jurisdiction.”<sup>9</sup> In addition, the term “small business” has the same meaning as the term “small business concern” under the Small Business Act.<sup>10</sup> A “small business concern” is one which: (1) is independently owned and operated; (2) is not dominant in its field of operation; and (3) satisfies any additional criteria established by the SBA.<sup>11</sup>

6. As noted above, Regulatory Flexibility Analyses were incorporated into the *2023 WEA FNPRM* and the *2023 WEA Report and Order*. In those analyses, the Commission described in detail the small entities that might be significantly affected. Accordingly, in this Public Notice, for the Supplemental IRFA, we incorporate by reference the descriptions and estimates of the number of small entities from the previous Regulatory Flexibility Analyses in the *2023 WEA FNPRM* and the *2023 WEA Report and Order*.<sup>12</sup>

---

<sup>6</sup> *2023 WEA Report and Order* at 14, para. 23.

<sup>7</sup> *Id.* at 14-15, paras. 23-24 (“To the extent that it would be minimally burdensome to implement, we direct the Bureau to designate additional languages . . . that should be supported through templates.”)

<sup>8</sup> 5 U.S.C. § 603(b)(3).

<sup>9</sup> *Id.* § 601(6).

<sup>10</sup> *Id.* § 601(3) (incorporating by reference the definition of “small-business concern” in the Small Business Act, 15 U.S.C. § 632). Pursuant to 5 U.S.C. § 601(3), the statutory definition of a small business applies “unless an agency, after consultation with the Office of Advocacy of the Small Business Administration and after opportunity for public comment, establishes one or more definitions of such term which are appropriate to the activities of the agency and publishes such definition(s) in the Federal Register.”

<sup>11</sup> 15 U.S.C. § 632.

<sup>12</sup> See *2023 WEA FNPRM*, Appx. B at 54-74, paras. 6-55; *2023 WEA Report and Order*. Appx. B at 44-64, paras. 9-58.

7. *Description of Projected Reporting, Recordkeeping, and Other Compliance*

*Requirements for Small Entities.* The Bureau expects the actions proposed in this Public Notice with respect to the creation of WEA templates in English, the 13 most commonly spoken languages in the U.S., and ASL will not impose additional reporting and recordkeeping on small entities who are Participating CMS Providers voluntarily participating in WEA. We note that the obligations regarding these templates were detailed and adopted by the Commission in the *2023 WEA Report and Order*. This Public Notice serves to develop the parameters for how these obligations must be implemented. The Bureau proposes a list of specific multilingual templates representing the most commonly utilized and the most time sensitive alert types, the costs of which are included in the *2023 WEA Report and Order*. The proposals and discussions in the Public Notice include potential compliance requirements for small and other Participating CMS Providers to support template alerts written in other languages; to support minimum video resolution or video quality for ASL video templates; or the inclusion of multiple templates for a single type of alert. This Public Notice also seeks comment on whether Participating CMS Providers should be required to support static or fillable templates, the costs of which the Commission has already identified in the *2023 WEA Report and Order*.<sup>13</sup> The Bureau's discussion of this potential requirement included the feasibility of including event-specific information in templates; the incorporation of Sending Agency, Area Affected, Expiration Time and a URL as the fillable template elements; and whether, and if so, how fillable templates can be used for ASL alerts.

8. The Commission directed the Bureau to seek comment on the costs of supporting multilingual WEA alerts in additional languages beyond the ones already adopted,<sup>14</sup> and directed the Bureau to designate additional languages to the extent they would be minimally burdensome to implement.<sup>15</sup> We discuss the Bureau's proposed definition of "minimally burdensome" above in the Supplemental IRFA, and the scope of the costs included in the definition for purposes of this analysis. The three elements we have identified to add one additional new language are: adding a new language to current WEA standards; updating software to add support for the language's template; and testing. We expect very minimal or negligible implementation costs for several reasons. The Bureau believes the standards and software developed for multilingual WEA will be designed to accommodate and streamline the future addition of new languages. Further, by implementing any additional new language templates as a regularly scheduled update with routinely released software updates, the costs for small and other Participating CMS Providers can be minimized.

9. In the Public Notice, we note that in the *2023 WEA Report and Order* the Commission estimated \$42.4 million as the maximum cost ceiling for implementation of the templates in English, the 13 most commonly spoken languages in the U.S., and ASL. This estimate included the costs for both static and fillable templates which we address in the Public Notice. Regarding compliance costs for small entities, we further note that Participating CMS Providers will not be responsible for the costs of translating templates and will only be required to support additional template languages if the costs for such additions will be minimally burdensome. For these reasons, we expect the proposed actions in the

---

<sup>13</sup> *2023 WEA Report and Order* at 35-37, paras. 64-65 ("We estimate that the rules we adopt today could result in an industry-wide, one-time compliance cost of, at most, \$42.4 million to update the WEA standards and software necessary to comply with the rules adopted in this *Report and Order*").

<sup>14</sup> *Id.* at 14, para. 23.

<sup>15</sup> *Id.* at 14-15, paras. 23-24 ("To the extent that it would be minimally burdensome to implement, we direct the Bureau to designate additional languages . . . that should be supported through templates.")

Public Notice, if adopted, to be a minimal burden for small entities and we do not expect that small entities will have to hire professionals to implement any requirements that may be adopted.

10. To help the Bureau more fully evaluate the cost of compliance for small entities should its proposals be adopted, in this Public Notice, we request comments on the cost implications of our proposals and ask whether there are more efficient and less burdensome alternatives (including cost estimates) for the Bureau to consider. We expect the information we received in comments including cost and benefit analyses, to help the Bureau identify and evaluate relevant matters for small entities, including compliance costs and other burdens that may result from the proposals and inquiries we make in the Public Notice.

11. *Steps Taken to Minimize the Significant Economic Impact on Small Entities, and Significant Alternatives Considered.* The RFA requires an agency to describe any significant, specifically small businesses, alternatives that it has considered in reaching its proposed approach, which may include the following four alternatives (among others): “(1) the establishment of differing compliance or reporting requirements or timetables that take into account the resources available to small entities; (2) the clarification, consolidation, or simplification of compliance and reporting requirements under the rule for such small entities; (3) the use of performance rather than design standards; and (4) an exemption from coverage of the rule, or any part thereof, for such small entities.”<sup>16</sup>

12. The Bureau is mindful that in meeting its duty to develop the nation’s emergency preparedness by making WEA more accessible, small entities may incur costs. In the preceding paragraph, we note that the costs for template development and implementation addressed in this Public Notice for the already designated languages were included in the costs for Participating CMS Providers associated with implementing the *2023 WEA Report and Order*. We believe that because the Commission is responsible for the costs of translating templates, a significant step has been taken to help reduce the impact on small entities. The Bureau’s development of the proposed templates in Appendices C and D, whether to require additional alerts such as AMBER alerts (a time-sensitive, commonly issued alert), or to require time-sensitive active shooter alerts are alternatives the Bureau has considered. The Bureau seeks comment on these alternatives as well as whether to require support for an AMBER alert or active shooter alert template only in the event that WEA can support form-fillable templates. Other alternatives we considered and seek comment on in the Public Notice are whether the required templates should include multiple alert templates for each type of time-sensitive alert directing different actions, such as to shelter in place or to evacuate; a template for generic alerts that are not tied to specific types of disasters; and an all-clear template. The Bureau also considered whether multilingual templates should be displayed in only the designated language, or whether the alert should contain a version of the alert in English. Further, for ASL alerts, in assessing whether and how templates could work, we inquired whether it is technically feasible to overlay event-specific information in a device’s default language over an ASL video alert message.

13. Participating CMS Providers are only required to support additional languages if the costs of the addition will be minimally burdensome. This should significantly minimize the impact of any additional language template support that may subsequently be required. Any language deemed beyond minimally burdensome—which the Bureau proposes to define as imposing significant and atypical costs beyond those discussed in the *2023 WEA Report and Order* and defined in this Public Notice—would not be required to be supported under this approach. Alternatives the Bureau considered in evaluating additional language template requirements include whether a single approach or multiple approaches

---

<sup>16</sup> 5 U.S.C. § 603(c)(1)-(4).

should be used to determine additional template languages, and whether there are any limitations on the ability of additional language templates to be added to WEA-capable devices. Additionally, we discussed and seek comment on whether there is a need for a process for alerting authorities to request that the Bureau require new alert types, or support of additional template languages, where such requests would be made by a filing in the Commission's WEA docket, and subject to notice and comment. Alternatively, we asked whether the Bureau should periodically review the effectiveness of the existing alert templates, and seek comment on whether any changes or new languages are needed.

14. *Federal Rules that May Duplicate, Overlap, or Conflict with the Proposed Rules.* None.

**APPENDIX C**  
**Static Alert Templates**

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	TORNADO EMERGENCY. Tornado spotted in this area. This is a life-threatening situation. Take shelter now in a basement or an interior room on the lowest floor of a sturdy building. If you are outdoors, in a mobile home, or in a vehicle, move to the closest substantial shelter and protect yourself from flying debris. Check media.
<b>Flash Flood Warning</b>	A FLASH FLOOD EMERGENCY in effect for this area. This is an extremely dangerous and life-threatening situation. Do not attempt to travel unless you are fleeing an area subject to flooding or under an evacuation order.
<b>Severe Thunderstorm Warning</b>	SEVERE THUNDERSTORM WARNING in effect for this area for DESTRUCTIVE 80 mile per hour winds. Take shelter in a sturdy building, away from windows. Flying debris may be deadly to those caught without shelter.
<b>Snow Squall Warning</b>	SNOW SQUALL WARNING in effect for this area. Slow down or delay travel! Be ready for a sudden drop to near zero visibility and icy roads in heavy snow.
<b>Dust Storm Warning</b>	DUST STORM WARNING for this area. Be ready for sudden drop to zero visibility. Pull Aside, Stay Alive! When visibility drops, pull far off the road and put your vehicle in park. Turn the lights off and keep your foot off the brake. Infants, the elderly and those with respiratory issues urged to take precautions.
<b>Hurricane Warning</b>	A HURRICANE WARNING is in effect for this area for dangerous and damaging winds. This warning is issued up to 36 hours before hazardous conditions begin. Urgently complete efforts to protect life and property. Have food, water, cash, fuel, and medications for 3+ days. FOLLOW INSTRUCTIONS FROM LOCAL OFFICIALS.
<b>Storm Surge Warning</b>	A STORM SURGE WARNING is in effect for this area for the danger of life-threatening flooding. This warning is issued up to 36 hours before hazardous conditions begin. Urgently complete efforts to protect life and property. Follow evacuation orders if given for this area to avoid drowning or being cut off from emergency services.
<b>Extreme Wind Warning</b>	An EXTREME WIND WARNING is in effect for this area for the immediate danger of life-threatening winds. Take cover NOW in an interior

	room of a sturdy building, away from windows. Protect your head from flying debris. Do NOT go out in the calm of the hurricane eye! Winds will quickly become dangerous again.
<b>Test Alert</b>	THIS IS A TEST of the National Wireless Emergency Alert System. The purpose is to maintain and improve alert and warning capabilities at the federal, state, local, Tribal and territorial levels and to evaluate the nation's public alert and warning capabilities. No action is required by the public.
<b>MOST TIME SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	TSUNAMI WARNING. A series of powerful waves and strong currents may impact coasts near you. You are in danger. Get away from coastal waters. Move to high ground or inland now. Keep away from the coast until local officials say it is safe to return.
<b>Earthquake Warning</b>	EARTHQUAKE DETECTED! Drop, Cover, Hold On. Protect Yourself.
<b>Boil Water Advisory</b>	BOIL WATER ALERT issued for your area. Water in your community can make you sick. Use bottled water if available. Do not drink, cook with, brush your teeth with, or clean your home with tap or filtered water until you boil it. Bring water to a full rolling boil for THREE MINUTES. Let water cool before use. Do not use ice made with water that has not been boiled. If you use formula to feed your child, use ready-to-use formula. Make sure pets do not drink water that has not been boiled. Check local media.
<b>911 Outage Alert</b>	911 OUTAGE ALERT in this area. Please contact police, fire, medical, or other emergency services directly at their local phone numbers in case of emergency. If you dial 911, you may not get help.
<b>Avalanche Warning</b>	AVALANCHE WARNING in this area. Unstable, fast-moving snow can happen quickly, causing injury or death and can block roads and damage property in affected areas. LEAVE this area. DO NOT return to area after evacuation until directed by local officials. Travel in avalanche terrain is not recommended. Avalanches may run long distances.
<b>Fire Warning</b>	FIRE WARNING in this area. Evacuate your family and pets now, do not delay. Visibility in area will be reduced and roads can become blocked. If you do not leave now, you could be trapped, injured, or killed. Expect reduced visibility, heavy smoke, and difficulty breathing. Be careful when driving. Watch for public safety personnel operating in the area and follow their instructions.
<b>Hazardous Materials Warning</b>	A HAZARDOUS MATERIALS release has occurred in your area. Exposure may cause difficulty breathing, loss of coordination, burning sensation in eyes, nose, throat, or lungs, nausea, and possibly death. LEAVE this area. IF

	DRIVING to evacuate area, keep car windows and vents closed. DO NOT return to area after evacuation until directed by local officials.
<b>Evacuation Immediate</b>	EVACUATE IMMEDIATELY. Evacuation order issued in your area. Evacuate your family and pets now, do not delay. Watch for public safety personnel operating in the area and follow their instructions.
<b>Shelter in Place Warning</b>	SHELTER IN PLACE WARNING issued in your area. Danger in your area. Go inside to an interior room, close the doors and windows, and stay where you are. Check local media. Stay alert and use caution.

No action is required by the public. [URL]
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tsunami Warning</b>	[SENDING AGENCY]: TSUNAMI WARNING for [LOCATION] is in effect until [TIME]. A series of powerful waves and strong currents may impact coasts near you. You are in danger. Get away from coastal waters. Move to high ground or inland now. Keep away from the coast until local officials say it is safe to return. [URL]
<b>Earthquake Warning</b>	EARTHQUAKE DETECTED! Drop, Cover, Hold On. Protect Yourself. [SENDING AGENCY] [URL]
<b>Boil Water Advisory</b>	[SENDING AGENCY]: BOIL WATER ALERT issued for [LOCATION] is in effect until [TIME]. Water in your community can make you sick. Use bottled water if available. Do not drink, cook with, brush your teeth with, or clean your home with tap or filtered water until you boil it. Bring water to a full rolling boil for THREE MINUTES. Let water cool before use. Do not use ice made with water that has not been boiled. If you use formula to feed your child, use ready-to-use formula. Make sure pets do not drink water that has not been boiled. [URL]
<b>911 Outage Alert</b>	[SENDING AGENCY]: 911 OUTAGE ALERT in [LOCATION] until [TIME]. Please contact police, fire, medical, or other emergency services directly at their local phone numbers in case of emergency. If you dial 911, you may not get help. [URL]

<b>Avalanche Warning</b>	[SENDING AGENCY]: AVALANCHE WARNING in effect in [LOCATION] is in effect until [TIME]. Unstable, fast-moving snow can happen quickly, causing injury or death and can block roads and damage property in affected areas. LEAVE areas near [LOCATION]. DO NOT return to area after evacuation until directed by local officials. Travel in avalanche terrain is not recommended. Avalanches may run long distances. [URL]
<b>Fire Warning</b>	[SENDING AGENCY] FIRE WARNING in [LOCATION] is in effect until [TIME]. Evacuate your family and pets now, do not delay. Visibility in area will be reduced and roads can become blocked. If you do not leave now, you could be trapped, injured, or killed. LEAVE areas near [LOCATION]. Expect reduced visibility, heavy smoke, and difficulty breathing. Be careful when driving. Watch for public safety personnel operating in the area and follow their instructions. [URL]
<b>Hazardous Materials Warning</b>	[SENDING AGENCY]: A HAZARDOUS MATERIALS release has occurred at [TIME] in [LOCATION]. Exposure may cause difficulty breathing, loss of coordination, burning sensation in eyes, nose, throat, or lungs, nausea, and possibly death. LEAVE areas near [LOCATION]. IF DRIVING to evacuate area, keep car windows and vents closed. DO NOT return to area after evacuation unless directed by local officials. [URL]
<b>Evacuation Immediate</b>	[SENDING AGENCY] has issued an evacuation order for [LOCATION] in effect until [TIME]. Evacuate your family and pets now, do not delay. Watch for public safety personnel operating in the area and follow their instructions. [URL]
<b>Shelter in Place Warning</b>	[SENDING AGENCY] issued a shelter in place warning for [LOCATION] is in effect until [TIME]. Danger in your area. Go inside to an interior room, close the doors and windows, and stay where you are. Stay alert and use caution. [URL]

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	AVIS DE TORNADE. Une tornade a été repérée dans cette zone. La vie des personnes concernées est en danger. Abritez-vous dès maintenant dans un sous-sol ou dans une pièce intérieure au niveau le plus bas d'un bâtiment robuste. Si vous vous trouvez à l'extérieur, dans une maison mobile ou dans un véhicule, rejoignez l'abri approprié le plus proche et protégez-vous des débris volants. Consultez les médias.
<b>Flash Flood Warning</b>	Un AVIS D'INONDATION SOUDAINE est en vigueur pour cette zone. Il s'agit d'une situation extrêmement dangereuse et potentiellement mortelle. Évitez de vous déplacer à moins que vous ne quittiez une zone inondable ou que vous ne fassiez l'objet d'un ordre d'évacuation.
<b>Severe Thunderstorm Warning</b>	Un AVIS D'ORAGE VIOLENT est en vigueur pour cette zone avec des vents DESTRUCTEURS de 130 km/heure. Mettez-vous à l'abri dans un bâtiment robuste, loin des fenêtres. Les débris volants peuvent être mortels pour les personnes n'ayant pu trouver un abri.
<b>Snow Squall Warning</b>	Un AVIS DE BOURRASQUE DE NEIGE est en vigueur pour cette zone. Ralentissez ou reportez vos déplacements ! Préparez-vous à une chute soudaine de la visibilité, qui pourrait devenir presque nulle, et à des routes verglacées en cas de neige abondante.
<b>Dust Storm Warning</b>	Un AVIS DE TEMPÊTE DE POUSSIÈRE est en vigueur pour cette zone. Préparez-vous à une baisse soudaine de la visibilité, qui pourrait devenir nulle. Arrêtez-vous, restez en vie ! Lorsque la visibilité diminue, quittez la route et mettez votre véhicule en position de stationnement. Éteignez les phares et n'appuyez pas sur la pédale de frein. Les nourrissons, les personnes âgées et les personnes souffrant de problèmes respiratoires sont invités à prendre des précautions.
<b>Hurricane Warning</b>	Un AVIS D'OURAGAN est en vigueur pour cette zone en raison de vents dangereux et destructeurs. Cet avis est émis au moins 36 heures avant le début des conditions dangereuses. Prenez de toute urgence des mesures pour protéger votre vie et vos biens. Prévoyez suffisamment de nourriture, d'eau, d'argent, de carburant et de médicaments pour 3 jours ou plus. SUIVEZ LES INSTRUCTIONS DES AUTORITÉS LOCALES.
<b>Storm Surge Warning</b>	Un AVIS D'ONDES DE TEMPÊTE est en vigueur pour cette zone en raison du risque d'inondations potentiellement mortelles. Cet avis est émis au moins 36 heures avant le début des conditions dangereuses. Prenez de toute urgence des mesures pour protéger votre vie et vos biens. Suivez les ordres d'évacuation donnés pour cette zone afin d'éviter de vous noyer ou d'être coupé des services d'urgence.
<b>Extreme Wind Warning</b>	Un AVIS DE VENT EXTRÊME est en vigueur pour cette zone en raison du danger immédiat de vents potentiellement mortels. Mettez-vous à l'abri dès MAINTENANT dans une pièce intérieure d'un bâtiment robuste, loin des fenêtres. Protégez votre tête des débris volants. Ne sortez PAS dans le calme de l'œil du cyclone ! Les vents sont susceptibles de redevenir dangereux rapidement.

<b>Test Alert</b>	CECI EST UN TEST du Système national d'alertes d'urgence sans fil. L'objectif est de maintenir et d'améliorer les capacités d'alerte et d'avertissement aux niveaux fédéral, étatique, local, tribal et territorial et d'évaluer les capacités d'alerte et d'avertissement du pays. Aucune action n'est requise de la part du public.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	AVIS DE TSUNAMI. Une série de vagues puissantes et de forts courants peuvent déferler sur les côtes situées près de chez vous. Vous êtes en danger. Éloignez-vous des eaux côtières. Réfugiez-vous sur les hauteurs ou à l'intérieur des terres dès maintenant. Restez éloigné des côtes jusqu'à ce que les autorités locales vous permettent de rentrer chez vos en toute sécurité.
<b>Earthquake Warning</b>	TREMLEMENT DE TERRE DÉTECTÉ ! Baissez-vous, couvrez-vous et tenez-vous bien. Protégez-vous.
<b>Boil Water Advisory</b>	Un AVIS DE FAIRE BOUILLIR L'EAU a été émis pour votre zone. L'eau de votre communauté peut vous rendre malade. Utilisez de l'eau en bouteille si possible. Vous ne devez pas boire, cuisiner, vous brosser les dents et nettoyer votre maison avec de l'eau du robinet ou de l'eau filtrée sans l'avoir faite bouillir. Portez l'eau à ébullition pendant TROIS MINUTES. Laissez l'eau refroidir avant de l'utiliser. N'utilisez pas de glace produite avec de l'eau non bouillie. Si vous utilisez du lait maternisé pour nourrir votre enfant, utilisez du lait maternisé prêt à l'emploi. Veillez à ce que les animaux domestiques ne boivent pas d'eau non bouillie au préalable. Consultez les médias locaux.
<b>911 Outage Alert</b>	AVIS D'INTERRUPTION DU 911 dans cette zone. En cas d'urgence, veuillez contacter la police, les pompiers, les services médicaux ou tout autre service d'urgence directement en appelant leur numéro de téléphone local. Si vous composez le 911, vous risquez de ne pas obtenir d'aide.
<b>Avalanche Warning</b>	AVIS D'AVALANCHE dans cette zone. Une neige instable, qui atteint des vitesses élevées en mouvement, peut se produire rapidement et entraîner des blessures ou la mort, bloquer les routes et causer des dégâts matériels dans les zones touchées. QUITTEZ cette zone. NE retournez PAS dans les zones impactées par l'ordre d'évacuation à moins d'avoir reçu la permission des autorités locales. Les déplacements en terrain avalancheux sont déconseillés. Les avalanches peuvent couvrir de longues distances.
<b>Fire Warning</b>	AVIS D'INCENDIE dans cette zone. Évacuez votre famille et vos animaux de compagnie dès maintenant, sans plus attendre. La visibilité dans la région va diminuer et les routes risquent d'être bloquées. Si vous ne partez pas maintenant, vous risquez d'être bloqué, blessé ou tué. Attendez-vous à une visibilité réduite, à une forte fumée et à des difficultés respiratoires. Soyez prudent en conduisant. Faites attention au personnel des services de sécurité publique opérant dans la zone et suivez leurs instructions.
<b>Hazardous Materials Warning</b>	Un déversement de MATIÈRES DANGEREUSES s'est produit dans votre zone. Le contact avec ces matières peut entraîner des difficultés respiratoires, une perte de coordination, une sensation de brûlure dans les yeux, le nez, la gorge ou les poumons, des nausées et, éventuellement, la mort. QUITTEZ cette zone. SI VOUS CONDUISEZ pour évacuer la zone, gardez les fenêtres et les bouches d'aération de la voiture fermées.

	NE retournez PAS dans la zone après évacuation à moins d'avoir reçu la permission des autorités locales.
<b>Evacuation Immediate</b>	ÉVACUATION IMMÉDIATE. Un ordre d'évacuation a été émis pour votre zone. Évacuez votre famille et vos animaux de compagnie dès maintenant, ne tardez pas. Faites attention au personnel des services de sécurité publique opérant dans la zone et suivez leurs instructions.
<b>Shelter in Place Warning</b>	Un AVIS D'ABRI SUR PLACE a été émis pour votre zone. Il existe un danger dans votre zone. Réfugiez-vous dans une pièce située à l'intérieur, fermez les portes et les fenêtres et restez là où vous vous trouvez. Consultez les médias locaux. Restez vigilant et faites preuve de prudence.

Prévoyez suffisamment de nourriture, d'eau, d'argent, de carburant et de médicaments pour 3 jours ou plus. SUIVEZ LES INSTRUCTIONS DES AUTORITÉS LOCALES. [URL]
<b>Storm Surge Warning</b>	[SENDING AGENCY] : un AVIS D'ONDES DE TEMPÊTE est en vigueur pour [LOCATION] jusqu'à [TIME] en raison du risque d'inondations potentiellement mortelles. Cet avis est émis au moins 36 heures avant le début des conditions dangereuses. Prenez de toute urgence des mesures pour protéger votre vie et vos biens. Suivez les ordres d'évacuation donnés pour cette zone afin d'éviter de vous noyer ou d'être coupé des services d'urgence. [URL]
<b>Extreme Wind Warning</b>	[SENDING AGENCY] : un AVIS DE VENT EXTRÊME est en vigueur pour [LOCATION] en raison du danger immédiat de vents potentiellement mortels jusqu'à [TIME]. Mettez-vous à l'abri MAINTENANT dans une pièce située à l'intérieur d'un bâtiment robuste, loin des fenêtres. Protégez votre tête des débris volants. Ne sortez PAS dans le calme de l'œil du cyclone ! Les vents sont susceptibles de redevenir dangereux rapidement. [URL]
<b>Test Alert</b>	CECI EST UN TEST du Système national d'alertes d'urgence sans fil envoyé par [SENDING AGENCY]. L'objectif est de maintenir et d'améliorer les capacités d'alerte et d'avertissement aux niveaux fédéral, étatique, local, tribal et territorial et d'évaluer les capacités d'alerte et d'avertissement du pays. Aucune action n'est requise de la part du public. [URL]
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	[SENDING AGENCY] : un AVIS DE TSUNAMI pour [LOCATION] est en vigueur jusqu'à [TIME]. Une série de vagues puissantes et de forts courants peuvent déferler sur les côtes situées près de chez vous. Vous êtes en danger. Éloignez-vous des eaux côtières. Réfugiez-vous sur les hauteurs ou à l'intérieur des terres dès maintenant. Éloignez-vous des côtes jusqu'à ce que les autorités locales vous permettent de rentrer chez vous en toute sécurité. [URL]
<b>Earthquake Warning</b>	TREMLEMENT DE TERRE DÉTECTÉ ! Baissez-vous, couvrez-vous et tenez-vous bien. Protégez-vous. [SENDING AGENCY] [URL]
<b>Boil Water Advisory</b>	[SENDING AGENCY] : un AVIS DE FAIRE BOUILLIR L'EAU a été émis pour [LOCATION] jusqu'à [TIME]. L'eau de votre communauté peut vous rendre malade. Utilisez de l'eau en bouteille si possible. Vous ne devez pas boire, cuisiner, vous brosser les dents et nettoyer votre maison avec de l'eau du robinet ou de l'eau filtrée sans l'avoir faite bouillir. Portez l'eau à ébullition pendant TROIS MINUTES. Laissez l'eau refroidir avant de l'utiliser. N'utilisez pas de glace produite avec de l'eau non bouillie. Si vous utilisez du lait maternisé pour nourrir votre enfant, utilisez du lait maternisé prêt à l'emploi. Veillez à ce que les animaux domestiques ne boivent pas d'eau non bouillie au préalable. Consultez les médias locaux. [URL]
<b>911 Outage Alert</b>	[SENDING AGENCY] : AVIS D'INTERRUPTION DU 911 pour [LOCATION] jusqu'à [TIME]. En cas d'urgence, veuillez contacter la police, les pompiers, les services

	médicaux ou tout autre service d'urgence directement en appelant leur numéro de téléphone local. Si vous composez le 911, vous risquez de ne pas obtenir d'aide. [URL]
<b>Avalanche Warning</b>	[SENDING AGENCY] : un AVIS D'AVALANCHE pour [LOCATION] est en vigueur jusqu'à [TIME]. Une neige instable, qui atteint des vitesses élevées en mouvement, peut se produire rapidement et entraîner des blessures ou la mort, bloquer les routes et causer des dégâts matériels dans les zones touchées. QUITTEZ les zones situées à proximité de [LOCATION]. NE retournez PAS dans les zone impactées par l'ordre d'évacuation à moins d'avoir reçu la permission des autorités locales. Les déplacements en terrain avalancheux sont déconseillés. Les avalanches peuvent couvrir de longues distances. [URL]
<b>Fire Warning</b>	UN AVIS D'INCENDIE DE [SENDING AGENCY] pour [LOCATION] est en vigueur jusqu'à [TIME]. Évacuez votre famille et vos animaux de compagnie dès maintenant, sans plus attendre. La visibilité dans la région va diminuer et les routes risquent d'être bloquées. Si vous ne partez pas maintenant, vous risquez d'être bloqué, blessé ou tué. QUITTEZ la zone située à proximité de [LOCATION]. Attendez-vous à une visibilité réduite, à une forte fumée et à des difficultés respiratoires. Soyez prudent en conduisant. Faites attention au personnel des services de sécurité publique opérant dans la zone et suivez leurs instructions. [URL]
<b>Hazardous Materials Warning</b>	[SENDING AGENCY] : un déversement de MATIÈRES DANGEREUSES s'est produit à [TIME] à [LOCATION]. Le contact avec ces matières peut entraîner des difficultés respiratoires, une perte de coordination, une sensation de brûlure dans les yeux, le nez, la gorge ou les poumons, des nausées et, éventuellement, la mort. QUITTEZ la zone située à proximité de [LOCATION]. SI VOUS CONDUISEZ pour évacuer la zone, gardez les fenêtres et les bouches d'aération de la voiture fermées. NE retournez PAS dans la zone après évacuation à moins d'avoir reçu la permission des autorités locales. [URL]
<b>Evacuation Immediate</b>	Un ordre d'évacuation a été émis par le/la [SENDING AGENCY] pour [LOCATION]. L'avis reste en vigueur jusqu'à [TIME]. Évacuez votre famille et vos animaux de compagnie dès maintenant, ne tardez pas. Faites attention au personnel des services de sécurité publique opérant dans la zone et suivez leurs instructions. [URL]
<b>Shelter in Place Warning</b>	Un avis d'abri en place a été émis par le/la [SENDING AGENCY] pour [LOCATION]. L'avis reste en vigueur jusqu'à [TIME]. Il existe un danger dans votre zone. Réfugiez-vous dans une pièce située à l'intérieur, fermez les portes et les fenêtres et restez là où vous vous trouvez. Consultez les médias locaux. Restez vigilant et faites preuve de prudence. Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	TORNADO-NOTFALL. In dieser Gegend wurde ein Tornado gesichtet. Es handelt sich um eine lebensbedrohliche Situation. Suchen Sie sofort Schutz in einem Keller oder Innenraum im untersten Stockwerk eines stabilen Gebäudes. Wenn Sie sich im Freien, in einem Wohnmobil oder in einem Fahrzeug aufhalten, suchen Sie den nächstgelegenen sicheren Unterstand auf und schützen Sie sich vor umherfliegenden Trümmern. Informieren Sie sich in den Medien.
<b>Flash Flood Warning</b>	Für dieses Gebiet gilt eine STURZFLUTWARNUNG. Dies ist eine äußerst gefährliche und lebensbedrohliche Situation. Versuchen Sie nicht zu fahren, es sei denn, Sie fliehen aus einem Überschwemmungsgebiet oder haben einen Evakuierungsbefehl.
<b>Severe Thunderstorm Warning</b>	Für dieses Gebiet gilt eine SCHWERE GEWITTER WARNUNG mit zerstörerischen Windgeschwindigkeiten von 128 Kilometer pro Stunde. Suchen Sie Schutz in einem stabilen Gebäude, fern von Fenstern. Umherfliegende Trümmer können für Menschen, die keinen Schutz haben, tödlich sein.
<b>Snow Squall Warning</b>	Für dieses Gebiet gilt eine SCHNEEBÖENWARNUNG. Verlangsamen oder verzögern Sie die Reise! Seien Sie auf einen plötzlichen Abfall der Sichtverhältnisse und vereiste Straßen bei starkem Schneefall vorbereitet.
<b>Dust Storm Warning</b>	STAUBSTURMWARNUNG für dieses Gebiet. Seien Sie auf einen plötzlichen Abfall der Sichtverhältnisse vorbereitet. Zur Seite fahren und am Leben bleiben! Wenn die Sicht schlechter wird, fahren Sie weit von der Straße ab und parken Sie das Fahrzeug. Schalten Sie das Licht aus und lassen Sie den Fuß von der Bremse. Kleinkinder, ältere Menschen und Personen mit Atemwegserkrankungen werden aufgefordert Vorsichtsmaßnahmen zu treffen.
<b>Hurricane Warning</b>	Für dieses Gebiet gilt eine ORKANWARNUNG wegen gefährlichen und schädlichen Winden. Diese Warnung wird bis zu 36 Stunden vor Beginn gefährlicher Bedingungen ausgegeben. Die Bemühungen zum Schutz von Leben und Eigentum müssen dringend abgeschlossen werden. Halten Sie Lebensmittel, Wasser, Bargeld, Treibstoff und Medikamente für mehr als 3 Tage bereit. BEFOLGEN SIE DIE ANWEISUNG VON ÖRTLICHEN BEAMTEN.
<b>Storm Surge Warning</b>	Für dieses Gebiet gilt eine STURMFLUTWARNUNG wegen der Gefahr lebensgefährlicher Überschwemmungen. Diese Warnung wird bis zu 36 Stunden vor Beginn gefährlicher Bedingungen ausgegeben. Die Bemühungen zum Schutz von Leben und Eigentum müssen dringend abgeschlossen werden. Befolgen Sie gegebenenfalls für diesen Bereich gegebene Evakuierungsanweisungen, um zu vermeiden, dass Sie ertrinken oder Rettungsdiensten abgeschnitten werden.
<b>Extreme Wind Warning</b>	Für dieses Gebiet gilt eine EXTREME WINDWARNUNG wegen lebensbedrohlichen Windstärken. Gehen Sie SOFORT in Deckung, bestens in einen Innenraum eines

	stabilen Gebäudes. Schützen Sie Ihren Kopf vor umherfliegenden Trümmern. Gehen Sie NICHT während dem Orkanauge hinaus! Winde werden schnell wieder gefährlich.
<b>Test Alert</b>	DAS IST EIN TEST des bundesweiten Warnsystems. Der Zweck besteht darin, die Alarm- und Warnfunktionen auf Bundes-, Landes-, lokaler, Stammes- und Territorialebene aufrechtzuerhalten und zu verbessern und die öffentlichen Alarm- und Warnfunktionen des Landes zu bewerten. Es besteht kein Handlungsbedarf seitens der Öffentlichkeit.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	TSUNAMI-WARNUNG. Eine Reihe starker Wellen und starker Strömungen können Auswirkungen auf die Küsten in Ihrer Nähe haben. Bleiben Sie außer Gefahr und vermeiden Sie Küstengewässer. Gehen Sie sofort auf eine Anhöhe oder ins Landesinnere. Halten Sie sich von der Küste fern, bis die örtlichen Behörden sagen, daß die Rückkehr gesichert ist.
<b>Earthquake Warning</b>	ERDBEBEN ERKANNT! Hinlegen, abdecken, festhalten. Schützen Sie sich.
<b>Boil Water Advisory</b>	Für Ihre Region wurde ein ABKOCHGEBOT FÜR TRINKWASSER ausgegeben. Wasser in Ihrer Gemeinde kann Sie krank machen. Verwenden Sie, sofern verfügbar, Wasser in Flaschen. Trinken Sie nicht, kochen Sie nicht damit, putzen Sie sich nicht die Zähne und reinigen Sie Ihr Zuhause nicht mit Leitungswasser oder gefiltertem Wasser, bevor Sie es abgekocht haben. Bringen Sie das Wasser DREI MINUTEN lang zum Kochen. Lassen Sie das Wasser vor dem Gebrauch abkühlen. Verwenden Sie kein Eis, das mit nicht abgekochtem Wasser hergestellt wurde. Wenn Sie Ihr Kind mit Säuglingsnahrung ernähren, verwenden Sie Fertignahrung. Stellen Sie sicher, dass Haustiere kein Leitungswasser trinken, das nicht abgekocht ist. Verfolgen Sie die lokalen Medien.
<b>911 Outage Alert</b>	112-AUSFALLALARM in diesem Bereich. Bitte wenden Sie sich im Notfall direkt an die Polizei, die Feuerwehr, den Arzt oder andere Rettungsdienste unter deren örtlichen Telefonnummern. Wenn Sie 112 wählen, erhalten Sie möglicherweise keine Hilfe.
<b>Avalanche Warning</b>	LAWINENWARNUNG in diesem Gebiet. Instabiler und gleitender Schnee kann schnell zu Verletzungen oder zum Tod führen und in den betroffenen Gebieten Straßen blockieren und Eigentum beschädigen. VERLASSEN Sie diesen Bereich. Kehren Sie nach der Evakuierung NICHT in das Gebiet zurück, bis Sie von den örtlichen Beamten dazu aufgefordert werden. Reisen in Lawinengebiete werden nicht empfohlen. Lawinen können weite Strecken zurücklegen.
<b>Fire Warning</b>	BRANDWARNUNG in diesem Bereich. Evakuieren Sie sofort Ihre Familie und Haustiere, zögern Sie nicht. Die Sicht in der Umgebung wird eingeschränkt und Straßen können blockiert werden. Wenn Sie jetzt nicht gehen, könnten Sie eingeklemmt, verletzt oder getötet werden. Rechnen Sie mit eingeschränkter Sicht, starker Rauchentwicklung und Atembeschwerden. Seien Sie beim Fahren vorsichtig. Achten Sie auf das in der Gegend tätige Personal der öffentlichen Sicherheit und befolgen Sie deren Anweisungen.

<b>Hazardous Materials Warning</b>	In Ihrer Region sind GEFAHRSTOFFE freigesetzt worden. Die Auslieferung kann zu Atembeschwerden, Koordinationsverlust, Brennen in Augen, Nase, Rachen oder Lunge, Übelkeit und möglicherweise zum Tod führen. VERLASSEN Sie diesen Bereich. Wenn Sie in einen Evakuierungsbereich fahren, halten Sie die Fenster und Lüftungsschlüsse des Autos geschlossen. Kehren Sie nach der Evakuierung NICHT in das Gebiet zurück, bis Sie von den örtlichen Beamten dazu aufgefordert werden.
<b>Evacuation Immediate</b>	SOFORT evakuieren. In Ihrer Nähe erlassener Evakuierungsbefehl. Evakuieren Sie sofort Ihre Familie und Haustiere, zögern Sie nicht. Achten Sie auf das in der Gegend tätige Personal der öffentlichen Sicherheit und befolgen Sie deren Anweisungen.
<b>Shelter in Place Warning</b>	AUSGANSSPERRE in Ihrer Nähe. Gefahr in Ihrer Nähe. Gehen Sie in einen Innenraum, schließen Sie die Türen und Fenster und bleiben Sie, wo Sie sind. Überwachen Sie die lokalen Medien. Bleiben Sie wachsam und vorsichtig.

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	EMERGENZA TORNADO. Tornado avvistato in zona. Questo evento rappresenta un pericolo per la vita. Si esortano gli utenti a mettersi al riparo in un seminterrato o in una stanza cieca al piano più basso di un edificio resistente. Chi si trova all'aperto, in una casa mobile o in un veicolo, deve mettersi al riparo in una struttura adeguata più vicina e proteggersi dai detriti volanti. Tenersi sempre aggiornati sui mezzi di comunicazione.
<b>Flash Flood Warning</b>	EMERGENZA ALLUVIONE IMMEDIATA in vigore per quest'area. Si tratta di una situazione estremamente pericolosa, anche per la vita. Si esortano gli utenti a non mettersi in viaggio a meno che non ci si stia allontanando da un'area soggetta ad inondazioni o ad un ordine di evacuazione.
<b>Severe Thunderstorm Warning</b>	AVVISO DI FORTI TEMPORALI in vigore per quest'area, caratterizzati da VIOLENTE raffiche di vento che potrebbero raggiungere quasi 130 chilometri (80 miglia) all'ora. Ripararsi in un edificio resistente e lontano dalle finestre. I detriti volanti potrebbero causare danni letali a coloro che si trovano all'aperto.
<b>Snow Squall Warning</b>	AVVISO BUFERA DI NEVE in vigore per quest'area. Si esortano gli utenti che si trovano in viaggio di rallentare o di posticipare il viaggio! Gli utenti devono tenersi pronti a possibili perdite improvvise di visibilità, anche pressoché totale, e alla presenza di ghiaccio sul manto stradale in caso di forti nevicate.
<b>Dust Storm Warning</b>	AVVISO DI TEMPESTA DI SABBIA in questa zona. Tenersi pronti ad un improvviso calo di visibilità fino a zero. Si esortano i guidatori di accostarsi per tenersi in sicurezza! Quando la visibilità diminuisce, accostarsi e parcheggiare il proprio veicolo. Spegnere le luci e tenere il piede lontano dal pedale del freno. Neonati, anziani e persone con patologie espiratorie sono invitati a prendere precauzioni.
<b>Hurricane Warning</b>	In quest'area è in vigore un'ALLARME URAGANO con venti pericolosi e dannosi. Il presente avviso viene emesso fino a 36 ore prima che si verifichino condizioni pericolose. Si esortano gli utenti ad affrettarsi a fare i dovuti preparativi per proteggere la vita e le proprietà. Avere a disposizione cibo, acqua, contanti, carburante e farmaci per più di 3 giorni. SEGUIRE LE ISTRUZIONI FORNITE DAI FUNZIONARI LOCALI.

<b>Storm Surge Warning</b>	In quest'area è in vigore un'AVVISO DI MAREGGIATA con pericolo di inondazioni potenzialmente letali. Il presente avviso viene emesso fino a 36 ore prima che si verifichino condizioni pericolose. Si esortano gli utenti ad affrettarsi a fare i dovuti preparativi per proteggere la vita e le proprietà. Seguire gli ordini di evacuazione applicabili a quest'area, per evitare di annegare o di non poter fare uso dei servizi di emergenza.
<b>Extreme Wind Warning</b>	In quest'area è in vigore un' AVVISO DI VENTO ESTREMO con pericolo immediato di raffiche di vento potenzialmente letali. Mettersi al riparo in QUESTO MOMENTO in una stanza cieca di un edificio resistente e lontano dalle finestre. Proteggersi da eventuali detriti volanti. NON recarsi all'aperto durante periodi di calma nel corso dell'uragano! Raffiche di vento si verificano all'improvviso anche dopo periodi di calma.
<b>Test Alert</b>	QUESTO È UN TEST condotto dal Sistema nazionale di allarme di emergenza wireless. Lo scopo è quello di mantenere e migliorare le capacità di allerta e di allarme a livello federale, statale, locale, tribale e territoriale, e di valutare le capacità di allerta e di allarme pubblico della nazione. Non è richiesta alcuna azione da parte del pubblico.

**MOST TIME-SENSITIVE ALERTS**

<b>Tsunami Warning</b>	ALLARME TSUNAMI. Una serie di onde alte e forti correnti possono colpire le coste vicino alla tua zona. Chi vive in questa zona si trova in pericolo. Allontanarsi dalla costa. Spostarsi in questo momento su un'altura o nell'entroterra. Tenersi lontani dalla costa finché le autorità locali non avranno dichiarato che è sicuro rientrare in zona.
<b>Earthquake Warning</b>	RILEVATO TERREMOTO! Allungarsi sul pavimento, coprirsi e restare sul posto. Tenersi al sicuro.
<b>Boil Water Advisory</b>	AVVISO DI BOLLITURA DELL'ACQUA emesso per la tua zona. L'acqua nella tua comunità potrebbe causare problemi di salute. Se disponibile, utilizzare acqua in bottiglia. Non bere, cucinare, lavarsi i denti o fare pulizie con acqua del rubinetto o filtrata finché non sia stata bollita. Portare l'acqua ad ebollizione completa per TRE MINUTI. Lasciare raffreddare l'acqua prima dell'uso. Non utilizzare ghiaccio prodotto con acqua non bollita. Chi fa uso di latte artificiale per nutrire neonati deve utilizzare latte artificiale pronto all'uso. Assicurarsi che gli animali domestici non bevano acqua che non sia stata bollita. Tenersi sempre aggiornati sui mezzi di comunicazione locali.
<b>911 Outage Alert</b>	AVVISO DI INTERRUZIONE del servizio 911 in quest'area. In caso di emergenza, contattare la Polizia, i Vigili del Fuoco, i servizi medici o altri servizi di emergenza direttamente ai numeri di telefono locali. Il 911 potrebbe non essere disponibile in caso di emergenza.
<b>Avalanche Warning</b>	ALLARME VALANGE in questa zona. La neve instabile potrebbe mettersi rapidamente in movimento, causando lesioni o morte, bloccando strade e danneggiando proprietà nelle aree colpite. ALLONTANARSI da questa zona. NON ritornare nell'area

	finché non siano i funzionari locali ad emettere il permesso di rientro. Si sconsiglia di transitare su terreni soggetti a valanghe. Le valanghe possono attraversare anche lunghe distanze.
<b>Fire Warning</b>	AVVISO INCENDIO in questa zona. Abbandonare immediatamente l'area con la propria famiglia ed eventuali animali domestici, non attardarsi. La visibilità nell'area sarà ridotta e le strade potrebbero essere bloccate. Chi si attarda ad evadere potrebbe restare intrappolato, ferito o perire. Aspettarsi di incontrare visibilità ridotta, fumo pesante e difficoltà respiratorie. Fare attenzione durante la guida. Prestare attenzione al personale di pubblica sicurezza che opera nella zona e seguire le loro istruzioni.
<b>Hazardous Materials Warning</b>	Si è verificata una fuoriuscita di MATERIALI PERICOLOSI nella tua zona. L'esposizione può causare difficoltà di respirazione, perdita di coordinazione, sensazione di bruciore agli occhi, al naso, alla gola o ai polmoni, nausea e possibilmente il decesso. ALLONTANARSI da questa zona. CHI SI METTE ALLA GUIDA per evadere l'area deve tenere chiusi i finestrini e le prese d'aria dell'auto. NON ritornare nell'area finché non siano i funzionari locali ad emettere il permesso di rientro.
<b>Evacuation Immediate</b>	EVACUARE IMMEDIATAMENTE. Ordine di evacuazione emesso nella tua zona. Abbandonare immediatamente l'area con la propria famiglia ed eventuali animali domestici, non attardarsi. Prestare attenzione al personale di pubblica sicurezza che opera nella zona e seguire le loro istruzioni.
<b>Shelter in Place Warning</b>	AVVISO DI TENERSI AL CHIUSO emesso nella tua zona. Pericolo nella tua zona. Spostarsi in una stanza cieca, chiudere porte e finestre e restare sul posto. Tenersi sempre aggiornati sui mezzi di comunicazione locali. Prestare attenzione e agire con cautela.

**PORTUGUESE (BRAZILIAN) TRANSLATION**  
**STATIC ALERT TEMPLATES**

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	EMERGÊNCIA DE TORNADO. Um tornado foi avistado nesta região. Sua vida está em perigo. Procure imediatamente abrigo em um porão ou dentro de um cômodo no andar mais baixo de um prédio seguro. Se você estiver ao ar livre, em uma casa móvel ou em um veículo, dirija-se ao prédio seguro mais próximo e proteja-se de detritos voadores. Acompanhe a cobertura da mídia.
<b>Flash Flood Warning</b>	Um ALERTA DE EMERGÊNCIA DE INUNDAÇÕES REPENTINAS está em vigor para esta região. Esta é uma situação extremamente perigosa e de risco de vida. Não tente viajar, a menos que esteja deixando uma área sujeita a inundações ou sob uma ordem de evacuação.
<b>Severe Thunderstorm Warning</b>	Um AVISO DE TEMPESTADE SEVERA está em vigor para esta região com ventos DESTRUTIVOS de 80 milhas por hora. Procure abrigo em um prédio seguro e longe de janelas. Os detritos voadores podem ser fatais para aqueles sem abrigo.
<b>Snow Squall Warning</b>	Um ALERTA DE TEMPESTADE DE NEVE está em vigor para esta região. Diminua a velocidade ou adie a sua viagem! Prepare-se para uma queda repentina de visibilidade e gelo nas estradas em caso de neve intensa.
<b>Dust Storm Warning</b>	Um AVISO DE TEMPESTADE DE POEIRA está em vigor para esta região. Esteja preparado para uma queda repentina na visibilidade. Pare no acostamento, fique vivo! Quando a visibilidade diminuir, pare seu veículo fora da estrada. Apague as luzes e tire o pé do freio. Crianças, idosos e pessoas com problemas respiratórios devem tomar precauções.
<b>Hurricane Warning</b>	Um AVISO DE FURACÃO está em vigor para esta região devido aos ventos perigosos. Este aviso é emitido até 36 horas antes do início das condições perigosas. Complete seus preparativos para proteger a vida e a propriedade com urgência. Tenha comida, água, dinheiro, combustível e medicamentos para 3 dias ou mais. SIGA AS INSTRUÇÕES DAS AUTORIDADES LOCAIS.
<b>Storm Surge Warning</b>	Um ALERTA DE MARÉ DE TEMPESTADE (RESSACA) está em vigor para esta região para o perigo de inundações potencialmente fatais. Este alerta é emitido até 36 horas antes do início das condições perigosas. Complete seus preparativos para proteger a vida e a propriedade com urgência. Siga as ordens de evacuação se forem emitidas para esta região para evitar afogamentos ou ficar sem acesso aos serviços de emergência.
<b>Extreme Wind Warning</b>	Um ALERTA DE VENTOS EXTREMOS está em vigor nesta região para perigo imediato de ventos potencialmente fatais. Proteja-se AGORA em um

	cômodo interno de um prédio seguro e longe das janelas. Proteja sua cabeça de detritos voadores. NÃO saia do abrigo durante a calmaria do olho do furacão! Os ventos rapidamente se tornarão perigosos novamente.
<b>Test Alert</b>	ESTE É UM TESTE do Sistema Nacional de Alertas de Emergência Sem Fio. O objetivo é manter e melhorar as capacidades de aviso e alerta a nível federal, estadual, local, tribal e territorial e avaliar as capacidades públicas de aviso e alerta do país. Não é necessária qualquer ação por parte do público.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	ALERTA DE MAREMOTO. Uma série de ondas poderosas e correntes fortes podem atingir o litoral perto de você. Você está em perigo. Afaste-se das águas costeiras. Vá imediatamente para um local elevado ou para o interior. Mantenha-se longe do litoral até as autoridades locais informarem que é seguro voltar.
<b>Earthquake Warning</b>	TERREMOTO DETECTADO! Abaixe-se, proteja-se e aguarde.
<b>Boil Water Advisory</b>	Um ALERTA PARA A FERVURA DE ÁGUA está em vigor para a sua região. A água na sua região pode deixá-lo doente. Use água engarrafada, se disponível. Não beba, cozinhe, escove os dentes ou limpe a casa com água da torneira ou filtrada até ferver. Deixe a água ferver por TRÊS MINUTOS. Deixe a água esfriar antes de usar. Não use gelo feito com água que não tenha sido fervida. Se você usa fórmula para alimentar seu filho, use fórmula pronta para consumo. Certifique-se de que os animais de estimação não bebam água que não tenha sido fervida. Acompanhe a cobertura da mídia local.
<b>911 Outage Alert</b>	ALERTA DE INTERRUPÇÃO DO SERVIÇO 911 nesta região. Em caso de emergência, entre em contato com a polícia, bombeiros, médicos ou outros serviços de emergência diretamente por meio dos seus números de telefone locais. É possível você não conseguir ajuda ao discar 911.
<b>Avalanche Warning</b>	ALERTA DE AVALANCHE nesta região. Neve instável e em movimento rápido pode ocorrer rapidamente, causando ferimentos ou morte e pode bloquear estradas e danificar propriedades nas áreas afetadas. SAIA desta área. NÃO retorne à área após a evacuação até receber instruções das autoridades locais. Não é recomendado viajar em terrenos propensos a avalanche. As avalanches podem percorrer longas distâncias.
<b>Fire Warning</b>	AVISO DE INCÊNDIO nesta região. Evacue sua família e animais de estimação agora, não demore. A visibilidade na região estará prejudicada e as estradas podem ficar bloqueadas. Se você não sair agora, você pode ficar preso, ferido ou morto. Espere por visibilidade reduzida, fumaça pesada e dificuldade para respirar. Tenha cuidado ao dirigir. Fique atento ao pessoal de segurança pública que atua na região e siga as suas instruções.

<b>Hazardous Materials Warning</b>	Houve vazamento de SUBSTÂNCIAS PERIGOSAS em sua região. A exposição pode causar dificuldade para respirar, perda de coordenação, sensação de queimação nos olhos, nariz, garganta ou pulmões, náuseas e, possivelmente, morte. SAIA desta área. Se estiver CONDUZINDO UM VEÍCULO para evacuar área, mantenha os vidros e saídas de ar do carro fechados. NÃO retorne à área após a evacuação até receber instruções das autoridades locais.
<b>Evacuation Immediate</b>	EVACUAR IMEDIATAMENTE. Uma Ordem de Evacuação foi emitida para sua região. Evacue sua família e animais de estimação agora, não demore. Fique atento ao pessoal de segurança pública que atua na região e siga as suas instruções.
<b>Shelter in Place Warning</b>	Um ALERTA DE ABRIGUE-SE NO LOCAL foi emitida para sua região. Existe perigo na sua região. Entre em uma sala interna, feche as portas e janelas e fique onde está. Acompanhe a cobertura da mídia local. Fique alerta e tenha cuidado.

**RUSSIAN TRANSLATION**  
**STATIC ALERT TEMPLATES**

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	ЧРЕЗВЫЧАЙНАЯ СИТУАЦИЯ: ТОРНАДО. В зоне, где вы находитесь, обнаружен торнадо. Это явление опасно для жизни. Укройтесь в подвале или внутреннем помещении на нижнем этаже устойчивого здания. Если вы на улице, в передвижном доме или в транспортном средстве, отправляйтесь в ближайшее надежное укрытие, чтобы защититься от летящих обломков. Следите за новостями.
<b>Flash Flood Warning</b>	В зоне, где вы находитесь, объявлено ЭКСТРЕННОЕ ПРЕДУПРЕЖДЕНИЕ о ВНЕЗАПНОМ НАВОДНЕНИИ. Это явление крайне опасно для жизни. Не совершайте поездок, если вы не эвакуируетесь из затопленного района самостоятельно или по приказу об эвакуации.
<b>Severe Thunderstorm Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ о СИЛЬНОЙ ГРОЗЕ с РАЗРУШИТЕЛЬНЫМИ порывами ветра скоростью 129 км/ч. Укройтесь в устойчивом здании и не подходите к окнам. Если вы не в укрытии, столкновение с летящими обломками может оказаться смертельным.
<b>Snow Squall Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ о ШКВАЛИСТОМ СНЕГЕ. По возможности отложите поездки. В противном случае снизьте скорость передвижения. Возможно резкое ухудшение видимости до нулевой, а также обледенение дорог из-за сильного снегопада.
<b>Dust Storm Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ о ПЫЛЕВОЙ БУРЕ. Возможно резкое ухудшение видимости до нулевой. Съездите на обочину, чтобы остаться в живых! При ухудшении видимости съездите на обочину дороги и припаркуйте транспортное средство. Выключите фары и уберите ногу с тормоза. Младенцам, пожилым людям и лицам, испытывающим трудности с дыханием, может потребоваться помощь.
<b>Hurricane Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ ОБ УРАГАНЕ с опасными и разрушительными порывами ветра. Это предупреждение разослано за 36 часов до начала чрезвычайной ситуации. Срочно примите меры по защите своей жизни и собственности. Подготовьте еду, питьевую воду, наличные деньги, топливо и медикаменты на срок более 3 дней. СЛЕДУЙТЕ ИНСТРУКЦИЯМ МЕСТНЫХ ВЛАСТЕЙ.
<b>Storm Surge Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ о ШТОРМОВОМ ПРИЛИВЕ и существует риск опасного для жизни подтопления. Это предупреждение разослано за 36 часов до начала чрезвычайной ситуации. Срочно примите меры по защите своей жизни и собственности. Если в вашем районе действует приказ об эвакуации, следуйте ему, чтобы не утонуть или не оказаться вне досягаемости экстренных служб.

<b>Extreme Wind Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ ОБ УРАГАННОМ ВЕТРЕ с опасными для жизни порывами. НЕМЕДЛЕННО укройтесь во внутреннем помещении устойчивого здания и оставайтесь вдали от окон. Защитите голову от летящих обломков. НЕ ВЫХОДИТЕ наружу, если находитесь в центре урагана! Опасные порывы ветра могут возобновиться в любой момент.
<b>Test Alert</b>	ЭТО ТЕСТОВОЕ ПРЕДУПРЕЖДЕНИЕ от Национальной беспроводной системы аварийного оповещения. Его цель — убедиться, что оповещения и предупреждения можно получить на уровне страны, штата, района, резервации и других территорий, улучшить систему рассылки предупреждений и оценить ее эффективность. От населения не требуется никаких действий.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	ПРЕДУПРЕЖДЕНИЕ о ЦУНАМИ. Серия мощных волн и сильных течений может достичь побережья в зоне, где вы находитесь. Вы в опасности. Покиньте территорию рядом с побережьем и перейдите на возвышенности или отдаленные от воды зоны. Не приближайтесь к побережью до тех пор, пока местные власти не подтвердят, что это безопасно.
<b>Earthquake Warning</b>	ОБНАРУЖЕНО ЗЕМЛЕТРЯСЕНИЕ. Опуститесь на четвереньки, прикройте голову и держитесь за какую-либо устойчивую конструкцию. Защитите себя.
<b>Boil Water Advisory</b>	В зоне, где вы находитесь, необходимо ОБЯЗАТЕЛЬНО КИПЯТИТЬ ВОДУ. Вода в вашем районе может вызвать проблемы со здоровьем. По возможности используйте бутилированную воду. Не используйте воду из-под крана или фильтра для питья, готовки, чистки зубов или уборки до того, как прокипятите ее. Кипятите воду в течение ТРЕХ МИНУТ. Дайте воде остыть перед применением. Не используйте лед из некипяченой воды. Если вы кормите грудного ребенка смесью, используйте готовые смеси. Не давайте домашним животным пить некипяченую воду. Следите за местными новостями.
<b>911 Outage Alert</b>	В зоне, где вы находитесь, НЕДОСТУПЕН НОМЕР 911. При возникновении чрезвычайной ситуации вызывайте полицию, пожарных, скорую помощь или другие экстренные службы по местным телефонным номерам. Если вы наберете 911, помощь может не прибыть.
<b>Avalanche Warning</b>	В зоне, где вы находитесь, возможен СХОД ЛАВИНЫ. Быстрый сход нестабильных масс снега может привести к травмам или гибели, заблокировать дороги и повредить здания. ПОКИНЬТЕ эту зону. После эвакуации НЕ ВОЗВРАЩАЙТЕСЬ в нее до тех пор, пока местные власти не подтвердят, что это безопасно. Передвижение в возможной зоне схода лавины не рекомендуется, так как лавины могут преодолевать большие расстояния.
<b>Fire Warning</b>	В зоне, где вы находитесь, объявлено ПРЕДУПРЕЖДЕНИЕ о ПРИРОДНОМ ПОЖАРЕ. Немедленно эвакуируйтесь со своей семьей и домашними животными. Ожидается ухудшение видимости и пробки на дорогах. Если вы не покинете эту зону, вы рискуете быть изолированными, получить травму или погибнуть. Возможны ухудшение видимости, сильная задымленность и проблемы с дыханием. Соблюдайте осторожность при вождении транспортного средства.

	Найдите сотрудников экстренных служб в зоне, где вы находитесь, и следуйте их указаниям.
<b>Hazardous Materials Warning</b>	В зоне, где вы находитесь, произошел ВЫБРОС ОПАСНЫХ МАТЕРИАЛОВ. При воздействии этих материалов возможны проблемы с дыханием, нарушение координации движений, жжение в глазах, носу, горле или легких, а также тошнота и даже смерть. ПОКИНЬТЕ эту зону. Если вы эвакуируетесь НА ТРАНСПОРТНОМ СРЕДСТВЕ, не открывайте окна и не используйте вентиляционную систему. После эвакуации НЕ ВОЗВРАЩАЙТЕСЬ в эту зону до тех пор, пока местные власти не подтвердят, что это безопасно.
<b>Evacuation Immediate</b>	НЕМЕДЛЕННО ЭВАКУИРУЙТЕСЬ. Для зоны, где вы находитесь, выпущен приказ об эвакуации. Немедленно эвакуируйтесь со своей семьей и домашними животными. Найдите сотрудников экстренных служб в зоне, где вы находитесь, и следуйте их указаниям.
<b>Shelter in Place Warning</b>	В зоне, где вы находитесь, НЕОБХОДИМО УКРЫТЬСЯ НА МЕСТЕ. В этой зоне возникла опасная ситуация. Укройтесь во внутреннем помещении, закройте двери и окна и оставайтесь на месте. Следите за местными новостями. Будьте осторожны и бдительны.

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	EMERGENCIA POR TORNADO. Un tornado se ha detectado en esta área. Esta es una situación con peligro de muerte. Resguárdese ahora en un subterráneo o en una habitación interior en el piso más bajo de algún edificio resistente. Si usted está en exteriores, en una casa rodante o en un vehículo, trasládese al lugar más resguardado posible y protéjase de los escombros que vuelan por el aire. Siga los medios de comunicación.
<b>Flash Flood Warning</b>	UNA EMERGENCIA POR INUNDACIÓN REPENTINA está en efecto para esta área. La situación es extremadamente peligrosa y con riesgo de muerte. No intente movilizarse, excepto si es para abandonar un área de inundación o por orden de evacuación.
<b>Severe Thunderstorm Warning</b>	ADVERTENCIA DE FUERTE TORMENTA ELÉCTRICA en efecto para esta área por vientos DESTRUCTIVOS de 80 millas por hora. Resguárdese en un edificio resistente, lejos de las ventanas. Los escombros que vuelan impulsados por los fuertes vientos pueden ser mortales para quienes no estén resguardados.
<b>Snow Squall Warning</b>	ADVERTENCIA DE TORMENTA DE NIEVE en efecto para esta área. ¡Baje la velocidad o postergue su viaje! Prepárese para una repentina reducción o ausencia total de visibilidad y hielo en las carreteras con intensas nevadas.
<b>Dust Storm Warning</b>	ADVERTENCIA DE TORMENTA DE POLVO Y ARENA en efecto para esta área. Prepárese para una repentina reducción o total ausencia de visibilidad. Hágase a un lado. ¡No pierda su vida! Cuando pierda visibilidad, salga de la carretera y ponga el embrague de su vehículo en “estacionar”. Apague las luces y saque el pie de los frenos. Se insta a tomar precauciones adicionales para los niños de corta edad, ancianos y personas con problemas respiratorios.
<b>Hurricane Warning</b>	UNA ADVERTENCIA DE HURACÁN está en efecto para esta área por vientos peligrosos que pueden causar daños. Esta advertencia se emite hasta 36 horas antes de que las condiciones peligrosas comiencen. Es urgente que complete esfuerzos para proteger vidas y propiedad. Asegure disponibilidad de alimentos, agua, dinero en efectivo, combustible y medicamentos para un mínimo de 3 días. SIGA LAS INSTRUCCIONES DE LAS AUTORIDADES LOCALES.
<b>Storm Surge Warning</b>	UNA ADVERTENCIA DE MAREJADA CICLÓNICA está en efecto para esta área por peligro de inundaciones con riesgo de muerte. Esta

	advertencia se emite hasta 36 horas antes de que las condiciones peligrosas comiencen. Es urgente que complete esfuerzos para proteger vidas y propiedad. Siga posibles órdenes de evacuación de esta área para evitar muertes por ahogo o aislamiento sin acceso a los servicios de emergencia.
<b>Extreme Wind Warning</b>	Una ADVERTENCIA DE VIENTOS EXTREMADAMENTE FUERTES está en efecto para esta área por peligro inmediato de fuertes vientos con riesgo de muerte. Resguárdese AHORA en alguna habitación interior de un edificio resistente y lejos de las ventanas. Proteja su cabeza de escombros que vuelan impulsados por el viento. ¡NO salga en medio de la calma del ojo del huracán! Los vientos pronto volverán a ser peligrosos.
<b>Test Alert</b>	ESTA ES UNA PRUEBA del sistema nacional de alertas de emergencia inalámbricas (National Wireless Emergency Alert System). El propósito es mantener y mejorar las capacidades de alerta y de advertencia a nivel federal, estatal, local, Tribal y territorial, y evaluar la capacidad nacional de las alertas y advertencias públicas. El público no necesita hacer nada.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	ADVERTENCIA DE TSUNAMI. Una serie de grandes olas y fuertes corrientes podrían afectar las zonas costeras cercanas a su área. Usted está en peligro. Aléjese ahora mismo de las aguas costeras y diríjase a terrenos elevados o lejos de la costa. Manténgase alejado de la costa hasta que las autoridades le avisen que puede regresar sin peligro.
<b>Earthquake Warning</b>	¡TEMBLOR O TERREMOTO DETECTADO! Agáchese a nivel del suelo, cúbrase, espere. Protójase.
<b>Boil Water Advisory</b>	¡ALERTA! HIERVA EL AGUA en su área. El agua en su comunidad podría enfermarle. Use agua embotellada si está disponible. No beba agua del grifo, aunque esté filtrada, no la use para cocinar o lavarse los dientes ni para limpiar su hogar. Hiérvala antes. El agua debe hervir por lo menos TRES MINUTOS. Enfríe el agua antes de usarla. No use cubos de hielo preparados con agua sin hervir. Si usa leche preparada para su bebé, use la que viene lista (no la que requiere agua). Asegúrese de que sus mascotas no beban agua sin hervir. Siga los medios de comunicación locales.
<b>911 Outage Alert</b>	ALERTA POR INTERRUPCIÓN DE SERVICIOS 911 en esta área. En caso de emergencia, contáctese con las autoridades policiales, de bomberos, de asistencia médica u otros servicios de emergencia, llamando directamente a sus teléfonos locales. Puede no obtener ayuda si llama al 911.
<b>Avalanche Warning</b>	ADVERTENCIA DE AVALANCHA para esta área. El rápido movimiento de nieve inestable puede ocurrir repentinamente, con peligro de daño físico o muerte, y podría bloquear caminos y dañar propiedades en las áreas afectadas. ABANDONE esta área. NO vuelva al área tras la evacuación hasta que las autoridades se lo indiquen. No se recomienda

	viajar en terrenos con avalanchas. Las avalanchas pueden alcanzar grandes distancias.
<b>Fire Warning</b>	ADVERTENCIA DE INCENDIO en esta área. Evacúe a su familia y mascotas ahora, sin demoras. La visibilidad del área disminuirá y los caminos podrían resultar bloqueados. Si usted no abandona el área ahora, podría quedar atrapado, resultar herido o morir. Prepárese para una reducción de la visibilidad, denso humo y dificultad para respirar. Maneje con cuidado. Manténgase atento ante la posible presencia de personal de seguridad operando en el área y siga sus instrucciones.

Alert Type	Alert Template
<b>MOST COMMONLY ISSUED ALERTS</b>	
<b>Tornado Warning</b>	TORNADO EMERGENCY. May nakitang buhawi sa lugar na ito. Isa itong sitwasyon na nagbabanta sa buhay. Sumilong na sa isang basement o isang panloob na kuwarto sa pinakamababang palapag ng isang matibay na gusali. Kung nasa labas ka, sa isang mobile home, o sa isang sasakyen, lumipat sa pinakamalapit na malaking silungan at protektahan ang iyong sarili mula sa lumilipad na mga labi. Tingnan ang media.
<b>Flash Flood Warning</b>	May FLASH FLOOD EMERGENCY para sa lugar na ito. Isa itong sitwasyon na lubhang mapanganib at nagbabanta sa buhay. Huwag subukang maglakbay maliban kung tumatakas ka sa isang lugar na napapailalim sa pagbaha o sa ilalim ng isang utos ng paglikas.
<b>Severe Thunderstorm Warning</b>	May BABALA SA MALUBHANG BAGYO NA MAY KULOG AT KIDLAT para sa lugar na ito dahil sa MAPAMINSALANG 80 milya kada oras na hangin. Sumilong sa isang matibay na gusali nang malayo sa mga bintana. Maaaring nakamamatay ang mga lumilipad na debris sa mga maaabutan nang walang silungan.
<b>Snow Squall Warning</b>	May BABALA SA SNOW SQUALL para sa lugar na ito. Bagalan o ipagpalibtan ang paglalakbay! Maging handa para sa biglaang pagbaba sa halos zero visibility at nagyeyelong mga kalsada sa makapal na niyebe.
<b>Dust Storm Warning</b>	May BABALA SA DUST STORM para sa lugar na ito. Maging handa para sa biglaang pagbaba sa zero visibility. Tumabi, Manatiling Buhay! Kapag bumaba ang visibility, huminto sa malayo sa kalsada at ilagay ang iyong sasakyen sa pag-park. Patayin ang mga ilaw at ilayo ang iyong paa sa preno. Hinikayat ang mga sanggol, matatanda at may mga problema sa paghinga na mag-ingat.
<b>Hurricane Warning</b>	May BABALA SA HURRICANE para sa lugar na ito para sa mapanganib at mapaminsalang hangin. Ibinibigay ang babalang ito hanggang 36 na oras bago magsimula ang mga mapanganib na kondisyon. Tapusin agad ang mga pagsisikap na protektahan ang buhay at ari-arian. Magkaroon ng pagkain, tubig, pera, gasolina, at mga gamot na tatagal ng 3+ araw. SUNDIN ANG MGA DIREKSYON MULA SA MGA LOKAL NA OPISYAL.

<b>Storm Surge Warning</b>	May BABALA SA STORM SURGE para sa lugar na ito para sa panganib ng pagbaha na nagbabanta sa buhay. Ibinibigay lang hanggang 36 na oras bago magsimula ang mga mapanganib na kondisyon. Tapusin agad ang mga pagsisikap na protektahan ang buhay at ari-arian. Sundin ang mga utsos sa paglikas kung ibinigay para sa lugar na ito para maiwasan ang pagkalunod o pagkaputol sa mga serbisyo pang-emergency.
<b>Extreme Wind Warning</b>	MAY BABALA SA MATINDING HANGIN para sa lugar na ito dahil sa agarang panganib ng mga hanging nagbabanta sa buhay. Magtago NGAYON sa isang panloob na kuwarto ng isang matibay na gusali, malayo sa mga bintana. Protektahan ang iyong ulo mula sa lumilipad na debris. HUWAG lumabas kapag kumalma ang panahon sa mata ng bagyo! Mabilis na magiging mapanganib muli ang hangin.
<b>Test Alert</b>	PAGTESTING ITO ng National Wireless Emergency Alert System. Layunin nitong mapanatili at pagbutihin ang mga kakayaan sa alert at babala sa mga antas ng federal, estado, lokal, Tribal at territoryal at para magawan ng ebalwasyon ang pampublikong alerto at mga kakayaan sa babala ng bansa. Walang aksyon ang kailangan ng publiko.
<b>MOST TIME-SENSITIVE ALERTS</b>	
<b>Tsunami Warning</b>	BABALA sa TSUNAMI. Ang isang serye ng malalakas na alon at malakas na alon ay maaaring makaapekto sa mga baybayin na malapit sa iyo. Nasa panganib ka. Lumayo sa mga tubig sa baybayin. Lumipat sa mataas na lupa o sa loob ng bansa ngayon. Lumayo sa baybayin hanggang sa sabihin ng mga lokal na opisyal na ligtas nang bumalik.
<b>Earthquake Warning</b>	NAKA-DETECT NG LINDOL! Umupo, Magtakip, Kumapit. Protektahan ang Iyong Sarili.
<b>Boil Water Advisory</b>	ALERT SA PAGPAPAKULO NG TUBIG na ibinigay para sa inyong lugar. Ang tubig sa iyong komunidad ay maaaring magdulot ng sakit sa iyo. Gumamit ng nakaboteng tubig kung available. Huwag uminom, magluto, magsepilyo ng iyong ngipin, o linisin ang iyong tahanan gamit ang gripo o sinalang tubig hanggang sa pakuluan mo ito. Pakuluan ang tubig sa loob ng TATLONG MINUTO. Hayaang lumamig ang tubig bago gamitin. Huwag gumamit ng yelo na gawa sa tubig na hindi pa pinakuluan. Kung gagamit ka ng formula para pakainin ang iyong anak, gumamit ng ready-to-use formula. Siguraduhin na a hindi umiinom ng tubig na hindi pa pinakuluan ng mga alagang hayop. Tingnan ang lokal na media.
<b>911 Outage Alert</b>	May ALERT SA PAGKAWALA NG 911 sa lugar na ito. Pakikontak ang pulisya, bumbero, medikal, o iba pang mga serbisyo pang-emergency nang direkta sa kanilang mga lokal na numero ng telepono kung sakaling magkaroon ng emergency. Kung magda-dial ka sa 911, maaaring hindi ka makakuha ng tulong.
<b>Avalanche Warning</b>	May BABALA NG AVALANCE sa lugar na ito. Ang unstable at mabilis na paggalaw ng snow ay maaaring mangyari nang biglaan, na nagdudulot ng pinsala o kamatayan at maaaring humarang sa mga kalsada at makapinsala sa mga ari-arian sa mga apektadong lugar. UMALIS sa lugar na ito. HUWAG bumalik sa lugar pagkatapos ng paglikas

	hanggang sa iatas ng mga lokal na opisyal. Hindi inirerekomenda ang paglalakbay sa avalanche terrain. Maaaring umabot ng malalayong distansya ang mga avalanche
<b>Fire Warning</b>	BABALA SA SUNOG sa lugar na ito. Ilikas ang iyong pamilya at mga alagang hayop ngayon, huwag magpahuli. Mababawasan ang visibility sa lugar at maaaring maharangan ang mga kalsada. Kung hindi ka aalis ngayon, maaari kang makulong, masugatan, o matatay. Asahan ang pagbawas ng visibility, mabigat na usok, at kahirapan sa paghinga. Mag-ingat sa pagmamaneho. Bantayan ang mga public safety personnel na nagtatrabajo sa lugar at sundin ang kanilang mga direksyon.
<b>Hazardous Materials Warning</b>	Isang release ng MGA MAPANGANIB NA MATERYAL ang naganap sa iyong lugar. Maaaring magdulot ang pagka-expose ng kahirapan sa paghinga, pagkawala ng koordinasyon, pagkasunog sa mata, ilong, lalamunan, o baga, pagduduwal, at posibleng kamatayan. UMALIS sa lugar na ito. KUNG NAGMAMANEHO para lumikas sa lugar, panatilihing nakasara ang mga bintana at vent ng sasakyen. HUWAG bumalik sa lugar pagkatapos ng paglikas hanggang sa iatas ng mga lokal na opisyal.
<b>Evacuation Immediate</b>	UMALIS KA AGAD. Inilabas ang utes ng paglikas sa iyong lugar. Ilikas ang iyong pamilya at mga alagang hayop ngayon, huwag magpahuli. Abangan ang mga public safety personnel na nagtatrabajo sa lugar at sundin ang kanilang mga direksyon.
<b>Shelter in Place Warning</b>	May BABALA SA PAGHANAP NG MASISILUNGAN na ibinigay sa iyong lugar. May panganib sa inyong lugar. Pumasok sa loob sa isang kuwarto sa loob, isara ang mga pinto at bintana, at manatili kung nasaan ka. Tingnan ang lokal na media. Manatiling alerto at mag-ingat.
