Petition for Reconsideration

Dear Applicant:

We have before us the Petition for Reconsideration (Petition)¹ filed by RENEW Taylorsville (Petitioner), seeking reconsideration of the Media Bureau's (Bureau) dismissal of Petitioner's application (Application) for a construction permit for a new low power FM (LPFM) station at Taylorsville, Mississippi.² For the reasons set forth below, we deny the Petition and dismiss the Supplement.

Background. Petitioner filed the Application during the 2023 LPFM Filing Window,³ and certified that "the proposed facility complies with the engineering requirements of 47 CFR [s]ection 73.807(a) through (g), and 73.825."⁴ On January 17, 2024, Bureau staff dismissed the Application for failure to meet the minimum distance spacing requirements enumerated in section 73.807(a)⁵ of the Commission's rules (Rules), with respect to the co-channel license of station WHJT(FM), Kearney Park, Mississippi, and with respect to the second-adjacent channel license of station WJAI(FM), Pearl, Mississippi, and noted that an amendment was not permitted under section 73.870(c) of the Rules.⁶

¹ Pleading File No. 0000237234 (filed Jan. 29, 2024). Petitioner also subsequently filed a Supplement with a "replacement application" reflecting changes to make the Application rule-compliant. See Supplement, Pleading File No. 0000239847 (filed Feb. 27, 2024).

² Application File No. 0000231474 (filed Dec. 6, 2023).

Based on a request from LPFM advocates, the Bureau subsequently delayed the window until December 6, 2023. *Media Bureau Announces Revised Dates for LPFM New Station Application Filing Window*, Public Notice, DA 23-984 (MB Oct. 17, 2023). The Bureau subsequently extended the close of the window until December 15, 2023. *Media Bureau Announces Extension of LPFM New Station Application Filing Window*, Public Notice, DA 23-1150 (MB Dec. 11, 2023).

On January 29, 2024, Petitioner filed the Petition, seeking reinstatement of the Application and a waiver of section 73.870(c) in order to amend the Application to correct the proposed Station coordinates to meet the minimum distance spacing requirements of section 73.807. Specifically, Petitioner characterizes the co-channel spacing error as a “simple data entry error” on the part of its consulting engineer, and argues that a minor amendment could correct the coordinates, to make the Application a singleton, and warrants reinstatement of the Application *nunc pro tunc*.⁷

Discussion. The Commission will consider a petition for reconsideration only when the petitioner shows either a material error in the Commission’s original determination, or raises additional facts not known or existing at the time of the petitioner’s last opportunity to present such matters.⁸ Petitioner has not demonstrated any legal error in the Bureau’s dismissal of the Application, nor has it cited any precedent that warrants reinstatement.

Section 73.807 Violation. Bureau staff correctly dismissed the Application for failure to meet the co-channel and second-adjacent channel spacing requirements, as outlined in section 73.807(a). Specifically, LPFM applicants must protect authorized FM stations, pending applications for new and existing FM stations filed prior to the release of the *Procedures Public Notice*, authorized LPFM stations, and vacant FM allotments, by meeting the minimum distance separation requirements specified in section 73.807 of the Commission’s rules.⁹ Pursuant to section 73.870(c), any application submitted during an LPFM filing window that fails to meet the spacing requirements of section 73.807 will be dismissed without opportunity to amend.¹⁰ Moreover, the *Procedures Public Notice* warned LPFM applicants that, “[c]onsistent with established processing rules, an LPFM application that fails to protect these authorizations, applications, and vacant FM allotments will be *dismissed with no opportunity to correct the deficiency*.”¹¹

In addition, section 3(b)(1) of the Local Community Radio Act of 2010 (LCRA) statutorily bars the Commission from “amend[ing] its rules to reduce the minimum co-channel and first-and second-adjacent channel distance separation requirements” in effect on the date of its enactment, and the Commission cannot waive the co-channel minimum distance spacing requirements imposed by statute.¹² Although section 3(b)(2)(A) of the LCRA authorizes the Commission to waive second-adjacent channel spacing requirements, an LPFM applicant must specifically request the waiver and demonstrate that its

proposed LPFM facilities “will not result in interference to any authorized radio service.”¹³ The Bureau explicitly cautioned LPFM applicants that it will dismiss any application that fails to comply with the second-adjacent channel spacing requirements without requesting a waiver, supported by the requisite engineering exhibit, and that a dismissed applicant will *not* be permitted to seek *nunc pro tunc* reinstatement of its application.¹⁴

Here, the Bureau correctly dismissed the Application because Petitioner failed to meet the minimum distance spacing requirements of section 73.807(a)(1) with respect to co-channel station WHJT(FM), and second-adjacent channel station WJAI(FM). The Commission has previously held that the Bureau may properly prohibit dismissed LPFM applicants that did not comply with the co-channel and second-adjacent channel spacing rules in the filing window from filing amendments to correct violations of section 73.807.¹⁵ Additionally, typographical error claims cannot be used to justify filing an otherwise prohibited amendment.¹⁶ Petitioner has not demonstrated any basis to contravene the rules and established precedent and reinstate the Application.

Section 73.870(c) Waiver Request. We reject Petitioner’s request of a waiver of section 73.870(c) to allow it to amend the Application to correct the proposed Station coordinates to meet the minimum spacing requirements of section 73.807. The Commission’s Rules may be waived only for good cause shown.¹⁷ The Commission must give waiver requests “a hard look,” but an applicant for waiver “faces a high hurdle even at the starting gate”¹⁸ and must support its waiver request with a compelling showing.¹⁹ Waiver is appropriate only if both (1) special circumstances warrant a deviation from the general rule, and (2) such deviation better serves the public interest.²⁰

Petitioner fails to meet this burden. Petitioner states generally that a waiver “serves the public interest,”²¹ but offers no other justification, circumstance, or precedent warranting grant of the request. Petitioner likewise fails to assert a “special circumstance” warranting the waiver beyond the error of its engineer. The Commission, however, has long held that errors made by engineering consultants are not

an excuse for failure to adhere to the Rules.²² Additionally, the Commission has held that the fact that an application is a singleton²³ is not a special circumstance that justifies a waiver of the Rules.²⁴ Moreover, permitting applicants to file application amendments to resolve section 73.807 minimum distance separation requirements after the close of the filing window and the Commission’s dismissal of their applications would frustrate the processing efficiencies which sections 73.807 and 73.870(c) were designed to promote, be unfair to the many applicants who fully complied with the rules and filing requirements, and is therefore, contrary to the public interest.²⁵ Accordingly, we find Petitioner fails to show that special circumstances warrant a deviation from our rules or that such deviation would serve the public interest.

Supplement. Finally, under section 1.106(f) of the Rules, a “petition for reconsideration and any supplement thereto shall be filed within 30 days from the date of public notice of the final Commission action.”²⁶ The *Dismissal Public Notice* was issued on January 19, 2024, and, therefore, any petition for reconsideration or supplement was required to be filed by February 18, 2024.²⁷ Because the Petitioner filed the Supplement on February 27, 2024, we dismiss it as untimely. Additionally, the Supplement is effectively an amendment to the Application and a prohibited attempt to circumvent section 73.870(c) of the Rules. Thus, we would have declined to consider the Supplement even it was timely filed.

Conclusion. For the reasons set forth above, **IT IS ORDERED** that the Petition for Reconsideration filed by RENEW Taylorsville, on January 29, 2024 (Pleading File No. 0000237234) **IS DENIED**, and the Supplement filed on February 27, 2024 (Pleading File No. 0000239847) **IS DISMISSED** as untimely.

Sincerely,

Albert Shuldiner
