ELUS Communications Inc. Felus Group Pvt Ltd	Canada	22 6 2024-05		we only see 1 call from 1-212-048-3928 for all of Aug to any b-numbers. call came from another telecom company who is not a traceback member and is not wishing to participate. i only see 3 calls from any numbers starting with 1-212-048* to any USA numbers. Telus is not an important link in the chain for this scam. We do see over 3000 calls to Canada from similar a-numbers starting with 1-212- 048* including coming from some US located carriers, therefore, we are likely receiving more from this caller than we are sending.

We got this call from an upstream voice service client we have a contract and NDA with for Multiple destinations including USA. Our contract does have the clause that the customer need to comply with USA regulations and based on the breach of the same, we would be terminating USA business with this client and block them for this destination. We can not thought breach our NDA with the client and regret to inform that we do not have the option to share the customer details at this time. We apologize for the issue caused and we are always vigilant to avoid any issues causing regulation concerns. We do have the clause for USA and UK regulations on our customer contracts. Attaching

						Telekom Deutschland GmbH (TDG) is not a US-based provider and does not have facilities in the US. TDG traceback actions depend on the following restrictions: 1. Traceback demands are generally requested by the national regulatory authorities like Bundesnetzagentur (BNetzA) in Germany or national police, 2. TDG interconnection contracts are limited by NDA and/or compliance rules potentially avoiding a complete traceback information. 3. The legally prescribed storage periods for traffic data e.g. in Germany: The storage of traffic data is limited to 7 days in Germany.								
Deutsche Telekom / DTAG / Telekom Deutschland GmbH	Germany		17	17 2024	-12	As described in TDG RMD filing, TDG has implemented a Robocall Mitigation Program that includes reasonable steps to avoid originating illegal robocall traffic.
