DA 25-196

Released: March 6, 2025

## WIRELESS TELECOMMUNICATIONS BUREAU ESTABLISHES WT DOCKET NO. 25-110

### WT Docket No. 25-110

By this Public Notice, the Wireless Telecommunications Bureau establishes WT Docket No. 25-110, which is captioned “Promoting the Development of Positioning, Navigation, and Timing Technologies and Solutions.”

Presentations are subject to “permit-but-disclose” *ex parte* rules, *see* 47 CFR § 1.1206, with a limited exception described in the following paragraph. Although the Commission’s rules provide that Notice of Inquiry proceedings are generally exempt from the disclosure requirements that typically apply in rulemakings, we here find pursuant to 47 CFR § 1.1200(a) that it is in the public interest to adopt rulemaking-like permit-but-disclose procedures in order to provide maximum transparency and in light of our intent to expeditiously consider potential Commission actions based on the record collected here. Persons making *ex parte* presentations must file a copy of any written presentation or a memorandum summarizing any oral presentation within two business days after the presentation (unless a different deadline applicable to the Sunshine period applies). Participants in this proceeding should familiarize themselves with the Commission’s *ex parte* rules, 47 CFR §§ 1.1200–1216, including the general prohibition on presentations (written and oral) on matters listed in the Sunshine Agenda, which typically is released a week prior to the Commission’s meeting, *see* 47 CFR § 1.1203.

Because Commission staff regularly participate in interagency discussions where potential approaches to positioning, navigation, and timing (PNT) are explored, oral and written *ex parte* presentations to and from staff of other Federal agencies will be exempt from any disclosure requirements during this Notice of Inquiry phase.

Action by Acting Chief, Wireless Telecommunications Bureau.
