### GN Docket No. 18-122 and WT Docket No. 21-333

With this Public Notice, the Wireless Telecommunications Bureau (Bureau) announces that the C-band Relocation Payment Clearinghouse (RPC) has completed its wind down process and ceased operations.<sup>1</sup> On June 4, 2025, the Bureau granted a request by the RPC to wind down and cease operations on or about June 30, 2025,<sup>2</sup> given it had completed all substantive functions required under the Commission's rules and the *3.7 GHz Report and Order*.<sup>3</sup> The RPC was directed in the *RPC Wind Down Order* to submit a final written certification of completion once all remaining administrative activities were complete.<sup>4</sup> That certification was filed on August 20, 2025, after completion of the final financial audit by the RPC's external auditor, among other final administrative activities.<sup>5</sup> As such, the 3.7-4.2 GHz transition relocation cost reimbursement program is now complete.
