APPLICATIONS OF NEW CINGULAR WIRELESS PCS, LLC AND USCELLULAR FOR CONSENT TO ASSIGN LOWER 700 MHz AND 3.45 GHz LICENSES

NRUF REPORTS AND LNP REPORTS PLACED INTO THE RECORD, SUBJECT TO THE PROTECTIVE ORDER

WT Docket No. 25-150
CC Docket No. 99-200

In connection with the Commission's review of the applications seeking Commission consent to assign several Lower 700 MHz and 3.45 GHz licenses from various subsidiaries and affiliates of United States Cellular Corporation (UScellular) to New Cingular Wireless PCS, LLC, an indirect, wholly-owned subsidiary of AT&T Inc. (AT&T) (collectively, the Applicants), the Commission is examining information contained in the biannual Numbering Resource Utilization and Forecast (NRUF) reports filed by wireless telecommunications carriers,¹ carrier-specific local number portability (LNP) data related to wireless telecommunications carriers, and further disaggregated monthly carrier-specific local number portability data (Carrier-to-Carrier LNP Data) related to wireless telecommunications carriers. These data may assist the Commission in assessing the competitive effects of the transaction. Accordingly, the NRUF reports for all wireless telecommunications carriers for December 2024 and the monthly LNP reports for all wireless telecommunications carriers for January 2024 through December 2024 are being placed in the record in these proceedings, subject to the provisions of a protective order.² Future NRUF and LNP reports will be placed in the record in these proceedings, subject to the provisions of a protective order, as they become available.

Section 251 of the Communications Act grants the Commission jurisdiction over the North American Numbering Plan (NANP) and related telephone numbering issues.³ To monitor better the way numbering resources are used within the NANP and allocate NANP resources efficiently, the Commission requires telecommunications carriers to provide the Commission with a utilization report of their current inventory of telephone numbers and a five-year forecast of their numbering resource requirements.⁴ LNP data are collected by the LNP Administrator and provided to the Commission.

The Commission has recognized that disaggregated, carrier-specific forecast and utilization data should be treated as confidential and should be exempt from public disclosure under 5 U.S.C. § 552(b)(4).⁵ The NRUF and LNP reports are being placed into the record subject to the provisions of a
