II. BACKGROUND

3. *Legal Framework.* Section 302 of the Act authorizes the Commission to promulgate reasonable regulations to minimize harmful interference by equipment that emits radio frequency (RF) energy.⁴ Specifically, section 302(b) of the Act provides that “[n]o person shall manufacture, import, sell, offer for sale, or ship devices or home electronic equipment and systems, or use devices, which fail to comply with regulations promulgated pursuant to this section.”⁵ The purpose of section 302 of the Act is to ensure that radio transmitters and other electronic devices meet certain standards to control interference before they reach the market.⁶

4. The Commission carries out its responsibilities under section 302 of the Act in two ways. First, the Commission establishes technical requirements for transmitters and other equipment to minimize their potential for causing interference to authorized radio services. Second, the Commission administers an equipment authorization program to ensure that equipment reaching the United States market complies with the Equipment Marketing Rules.⁷ In sum, the Rules require, among other things, that RF devices be tested for compliance and satisfy the applicable technical and other requirements prior to marketing.⁸ In particular, section 2.803(b)(1) of the Rules prohibits the marketing of RF devices unless

⁷ Manufacturers and retailers must ensure that radiofrequency devices they market within the United States hold the relevant equipment authorization, which indicates that the equipment satisfies the relevant technical requirements, unless otherwise exempted. An overview of the equipment authorization process is available on the FCC’s Office of Engineering and Technology web page at <https://www.fcc.gov/engineering-technology/laboratory-division/general/equipment-authorization> (last visited May 13, 2025).

⁸ The term “marketing” is defined in the Rules to mean the “sale or lease, or offering for sale or lease, including advertising for sale or lease, or importation, shipment, or distribution for the purpose of selling or leasing or offering for sale or lease.” 47 CFR § 2.803(a).

the device has first been properly authorized, identified, labeled, and complies with the applicable technical standards, with limited exceptions.⁹

5. Sections 2.1203 and 2.1204 of the Rules outline the conditions under which RF devices may be imported into the United States.¹⁰ Generally, an RF device can only be imported if it has received an equipment authorization from the FCC, or if it does not require such authorization but still complies with FCC technical and administrative regulations.¹¹ In addition to requirements imposed directly on importers, section 2.1204(b) of the Rules states that “[t]he ultimate consignee must be able to document compliance with the selected import condition and the basis for determining the import condition applied.”¹²

6. *Factual Background.* T-Mobile is a publicly-traded corporation that provides wireless service to approximately 130 million subscribers throughout the United States.¹³ T-Mobile operates two main brands, T-Mobile and Metro by T-Mobile, that provide wireless service and a wide selection of wireless devices, including smartphones, wearables, tablets, home broadband routers, and other mobile communication devices that are manufactured by various suppliers.¹⁴

7. T-Mobile began offering the REVVL line of smartphones to provide consumers a lower-price but feature-rich smartphone option.¹⁵ In 2023, T-Mobile selected Wingtech International Inc. to develop and manufacture the REVVL 7 PRO 5G for T-Mobile.¹⁶

8. In a May 14, 2024 press release, T-Mobile publicly announced that the REVVL 7 PRO 5G would be available for sale on May 23, 2024.¹⁷ After the announcement, but prior to making it available for sale, T-Mobile promoted the REVVL 7 PRO 5G across its retail locations and websites, incorporating advertisements on deal pages, product pages, and those targeting specific demographics, including video content.¹⁸

9. On May 23, 2024, the REVVL 7 Pro 5G first became available for purchase on its websites and in T-Mobile and Metro by T-Mobile stores.¹⁹ On May 29, 2024, the REVVL 7 PRO 5G officially received its equipment authorization.²⁰ During the time period between the device being available for sale and the device being certified, T-Mobile sold thousands of the smartphones.²¹

10. On October 1, 2024, the Bureau issued a Letter of Inquiry (LOI) to the Company directing it to submit a sworn written response to a series of questions relating to T-Mobile’s marketing of

smartphones, including the REVVL 7 PRO 5G.²² Specifically, the LOI asked the Company to explain why the REVVL 7 PRO 5G was marketed prior to receiving an FCC equipment authorization²³ and to document compliance with the import condition under which the REVVL 7 PRO 5G was imported into the U.S.²⁴ The Company timely responded to the LOI.²⁵ Thereafter, on April 2, 2025, T-Mobile submitted a Supplemental LOI Response in which it provided additional information.²⁶ In its LOI Response, the Company stated that it “generally relies on manufacturers to ensure that FCC equipment authorization procedures are met” and that “compliance with FCC rules are routinely memorialized in the agreement between T-Mobile and the manufacturer.”²⁷ In its Supplemental LOI Response, the Company stated that the terms of its contract with Wingtech served as documentation of the import condition. The Commission, however, disagrees that the terms of the Company’s agreement with Wingtech satisfied the documentation requirements for the import condition set forth in section 2.1204(b) of the Rules. The Company nevertheless has stated that it “will take further steps to ensure that it has a record of its equipment suppliers’ compliance with Section 2.1203 and 2.1204 of the Rules pertaining to importation, which will further document T-Mobile’s compliance with 2.1204(b) regarding conditions of import.”²⁸

11. T-Mobile and the Bureau subsequently engaged in settlement negotiations. To resolve this matter, the Company and the Bureau enter into this Consent Decree and agree to the following terms and conditions.

In consideration for the termination of the Investigation, the Company agrees to the terms, conditions, and procedures contained herein. The Bureau further agrees that, in the absence of new material evidence, it will not use the facts developed in the Investigation through the Effective Date, or the existence of this Consent Decree, to institute any new proceeding on its own motion against the Company concerning the matters that were the subject of the Investigation, or to set for hearing the question of the Company’s basic qualifications to be a Commission licensee or hold Commission licenses or authorizations based on the matters that were the subject of the Investigation.²⁹

16. **Admission of Facts.** T-Mobile admits solely for the purpose of this Consent Decree and for Commission civil enforcement purposes, and in express reliance on the provisions of paragraph 15 herein, that paragraphs 6 through 10 are a true and accurate description of the facts underlying the Investigation.

17. **Compliance Officer.** Within thirty (30) calendar days after the Effective Date, the Company shall designate a senior corporate manager with the requisite corporate and organizational authority to serve as a Compliance Officer and to discharge the duties set forth below. The person designated as the Compliance Officer shall be responsible for developing, implementing, and administering the Compliance Plan and ensuring that the Company complies with the terms and conditions of the Compliance Plan and this Consent Decree. The designated Compliance Officer will also have the authority to suspend the Company's planned launch and marketing activities of devices that are subject to the Equipment Marketing Rules, should compliance issues arise. In addition to the general knowledge of the Communications Laws necessary to discharge his or her duties under this Consent Decree, the Compliance Officer shall have specific knowledge of the Equipment Marketing Rules prior to assuming his/her duties.

18. **Compliance Plan.** For purposes of settling the matters set forth herein, the Company agrees that it shall, within sixty (60) calendar days after the Effective Date, develop and implement a Compliance Plan designed to facilitate future compliance with the Communications Laws and with the terms and conditions of this Consent Decree. With respect to the Equipment Marketing Rules, the Company will implement, at a minimum, the following procedures.

 - ii. **Enhanced Contractual Obligations.** The Company has revised and will maintain templates for contract documents for new products the Company intends to sell in the United States that include more specific references to compliance with the Rules, including 47 CFR § 2.1204. The revised templates confirm the legal obligation of the manufacturer under the contract to provide the Company with documentation demonstrating compliance with the selected import condition and the basis for determining the import condition applied prior to the Company's acceptance of delivery of the product.
 - iii. **Import Compliance Verification.** Prior to accepting delivery of any devices subject to the Equipment Marketing Rules, the Company will conduct a compliance verification by confirming that the manufacturer has received an equipment authorization for the device, or the device is otherwise eligible for importation under an exception in the Rules.
 - iv. **Compliance Officer Review.** No fewer than forty-eight (48) hours prior to the intended marketing or sale of any device requiring FCC equipment authorization, the Compliance Officer will verify that such equipment authorization has been granted. In the event a device lacks a valid grant of

equipment authorization, the Compliance Officer will immediately notify all relevant departments, prohibiting marketing or sales activities until certification is obtained.

- (b) **Compliance Manual.** Within ninety (90) calendar days after the Effective Date, the Compliance Officer shall develop and distribute a Compliance Manual to all Covered Employees. The Compliance Manual shall explain the Equipment Marketing Rules and requirements and set forth the Operating Procedures that Covered Employees shall follow to help ensure the Company's compliance with the Equipment Marketing Rules. The Company shall periodically review and revise the Compliance Manual as necessary to confirm that the information set forth therein remains current and accurate. The Company shall distribute any revisions to the Compliance Manual promptly to all Covered Employees.
- (c) **Compliance Training Program.** The Company shall establish and implement a Compliance Training Program on compliance with the Equipment Marketing Rules and the Operating Procedures. As part of the Compliance Training Program, Covered Employees shall be advised of the Company's obligation to report any noncompliance with the Equipment Marketing Rules under paragraph 19 of this Consent Decree and shall be instructed on how to disclose noncompliance to the Compliance Officer. All Covered Employees shall be trained pursuant to the Compliance Training Program within ninety (90) calendar days after the Effective Date, except that any person who becomes a Covered Employee at any time after the initial Compliance Training Program shall be trained within thirty (30) calendar days after the date such person becomes a Covered Employee. The Company shall repeat compliance training on an annual basis, and shall periodically review and revise the Compliance Training Program as necessary to ensure that it remains current and complete and to enhance its effectiveness.

19. **Reporting Noncompliance.** The Company shall report any material noncompliance with the Equipment Marketing Rules and with the terms and conditions of this Consent Decree within thirty (30) calendar days after discovery of such noncompliance. Such reports shall include a detailed explanation of: (i) each instance of noncompliance; (ii) the steps that the Company has taken or will take to remedy such noncompliance; (iii) the schedule on which such remedial actions will be taken; and (iv) the steps that the Company has taken or will take to prevent the recurrence of any such noncompliance. Such noncompliance reports shall include an affidavit or declaration consistent with section 1.16 of the Rules and be subject to the accuracy requirements of section 1.17 of the Rules.³⁰ All reports of noncompliance shall be submitted electronically to the Spectrum Enforcement Division, at EB-SED-Response@fcc.gov.

³⁰ *Id.* §§ 1.16, 1.17.

terms and conditions of this Consent Decree, including the reporting obligations set forth in paragraph 19 of this Consent Decree.

- (b) The Compliance Officer's certification shall be accompanied by a statement explaining the basis for such certification and shall comply with section 1.16 of the Rules and be subscribed to as true under penalty of perjury in substantially the form set forth therein.³¹
- (c) If the Compliance Officer cannot provide the requisite certification, the Compliance Officer, as an agent of and on behalf of the Company, shall provide the Commission with a detailed explanation of the reason(s) why and describe fully: (i) each instance of noncompliance; (ii) the steps that the Company has taken or will take to remedy such noncompliance, including the schedule on which proposed remedial actions will be taken; and (iii) the steps that the Company has taken or will take to prevent the recurrence of any such noncompliance, including the schedule on which such preventive action will be taken.
- (d) All Compliance Reports shall be submitted electronically to the Spectrum Enforcement Division at EB-SED-Response@fcc.gov.

21. **Termination Date.** Unless stated otherwise, the requirements set forth in paragraphs 17 through 20 of this Consent Decree shall expire thirty-six (36) months after the Effective Date.

The Company acknowledges and agrees that upon execution of this Consent Decree, the Voluntary Contribution shall become a "Claim" or "Debt" as defined in 31 U.S.C. § 3701(b)(1).³² Upon an Event of Default, all procedures for collection as permitted by law may, at the Commission's discretion, be initiated.
