ORDER

Adopted: September 9, 2025**Released: September 9, 2025**

By the Acting Chief, Enforcement Bureau:

I. INTRODUCTION

1. By this Order, the Enforcement Bureau (Bureau) of the Federal Communications Commission (Commission or FCC) directs the companies named in Appendix A (each, a Company; collectively, the Companies) to cure their deficient Robocall Mitigation Database (RMD) certifications or explain why the Bureau should not remove each Company's certification from the RMD. The Companies' RMD filings are deficient because they failed to respond to one or more traceback requests from the industry traceback consortium, which is contrary to their certifications in the RMD.¹ **Removal of a Company's certification from the RMD would require all intermediate providers and voice service providers² to cease accepting all calls directly from the Company.³** Each Company must provide its response to this Order to the Bureau no later than 14 days after the Order is released.⁴

¹ See *Call Authentication Trust Anchor*, WC Docket No. 17-97, Sixth Report and Order and Further Notice of Proposed Rulemaking, 38 FCC Rcd 2573, 2604, para. 60 (2023) (*Sixth Caller ID Authentication Order*).

² For purposes of this order, we use the term "voice service provider" consistent with the definition of "voice service" in section 64.6300 of our rules. See 47 CFR § 64.6300(o). As such, the term "voice service provider" excludes intermediate providers (*i.e.*, gateway providers and non-gateway intermediate providers), as those terms are defined in section 64.6300. See *id.* § 64.6300(d), (g), (i).

³ See 47 CFR § 64.6305(g).

⁴ See *Sixth Caller ID Authentication Order*, 38 FCC Rcd at 2604, para. 60; 47 CFR §§ 1.4(b)(2), 1.102(b)(1).

II. BACKGROUND

2. The FCC established the RMD in 2020 to promote transparency and effective robocall mitigation.⁵ On March 16, 2023, the Commission adopted amendments to section 64.6305 of its rules in the *Sixth Caller ID Authentication Order* that enhanced the information requirements for RMD certifications and expanded the obligation to submit a robocall mitigation plan for new and existing filers.⁶ On May 18, 2023, the Commission adopted additional amendments to section 64.6305 in the *Seventh Call Blocking Order* that required all providers to include a commitment to respond fully to traceback requests within 24 hours in their RMD certifications.⁷ Both of these rule amendments took effect on February 26, 2024.⁸

3. Under the amended rule, voice service providers, gateway providers, and non-gateway intermediate providers⁹ must submit several pieces of information in their RMD certifications and assent to comply with certain requirements under penalty of perjury. As relevant here, section 64.6305 requires voice service providers, gateway providers, and non-gateway intermediate providers to certify, under penalty of perjury, that all calls that they originate, carry, or process are subject to a robocall mitigation program, and such programs must include “a commitment to respond within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium.”¹⁰ In addition, a voice service provider, gateway provider, or non-gateway intermediate provider that files a certification in the RMD certifies that “all of the calls . . . on its network are subject to a robocall mitigation program consistent with 47 CFR § 64.6305(b), which shall include . . . a commitment to respond fully and within 24 hours to all traceback requests from the Commission, law enforcement, and the industry traceback consortium.”¹¹ Each of the Companies made this certification in the RMD.¹² However, each of the

⁹ The *Sixth Caller ID Authentication Order* amended section 64.6305 to require non-gateway intermediate providers to file certifications in the RMD for the first time. See 47 CFR § 64.6305(f); *Sixth Caller ID Authentication Order*, 38 FCC Rcd at 2593, para. 38; *RMD Public Notice*, 39 FCC Rcd at 384.

4. The Bureau may remove a certification from the RMD that is deficient.¹⁴ To do so, the Commission first contacts the provider, notifying it that its certification is deficient, explaining the nature of the deficiency, and giving the provider an opportunity to cure the deficiency.¹⁵ If the provider fails to cure the deficiency, the Bureau will release an order finding that a provider's certification is deficient based on the available evidence and direct the provider to, within 14 days, cure the deficiency in its certification and notify the Bureau that the deficiency has been cured, or explain why the Bureau should

not remove the Company's certification from the RMD.¹⁶ If the provider fails to cure the deficiency or provide a sufficient explanation why its certification is not deficient within that 14-day period, the Bureau will release an order removing the provider's certification from the RMD.¹⁷

5. On April 14, 2025, the Bureau issued a Notification of Deficient Robocall Mitigation Database Certification to the Companies (Notification).¹⁸ The Notification informed the companies that their certifications were deficient because "each Company has not responded to at least one traceback request from the ITG" and instructed them to "cure the deficiency by responding to each traceback request issued by the ITG."¹⁹

III. DISCUSSION

A. The Companies' Certifications Are Deficient Because Each Company Failed to Respond to One or More Traceback Requests

6. None of the Companies responded to the Notification. Moreover, none of the Companies has cured its RMD certification deficiency by responding to the applicable traceback request(s) identified in Appendix B. Thus, each Company's RMD certification remains deficient.

B. The Companies Must Cure or Face Removal from the RMD and Mandatory Call Blocking

7. The Bureau may remove deficient certifications from the RMD after providing sufficient notice and opportunity to cure.²⁰ The Notification informed each Company that its certification was deficient, and granted it 14 days from the date of the Notification to cure the deficiency by responding fully to past traceback requests and thereafter responding to any future traceback requests within 24 hours as required by section 64.1200(n)(1) of the Commission's rules and the Company's certification in the RMD.²¹

8. This Order affords each Company a final opportunity to cure its deficiency by responding fully to each traceback request identified in Appendix B that was issued by the ITG to the Company, and thereafter responding fully to any future traceback requests within 24 hours of the request.²² Alternatively, each Company may explain why its certification is not deficient.²³

9. Each Company shall file its response with the Bureau within fourteen (14) calendar days of the date of this Order.²⁴ Failure to cure the deficiency or provide a sufficient explanation why the Company's certification is not deficient will result in its removal.²⁵ **Removal of a Company's certification from the RMD will require all voice service providers and intermediate providers to cease accepting calls directly from that Company.**²⁶ Furthermore, each Company shall not be permitted to refile until both the Bureau and WCB determine that the Company has addressed and resolved the deficiencies in its RMD certification.

IV. ORDERING CLAUSES

10. Accordingly, **IT IS ORDERED** that, pursuant to sections 4(i), 4(j), 227, 251(e), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 154(j), 227, 251(e), and 403, and sections 0.111, 0.311, 1.1, and 64.6305 of the Commission's rules, 47 CFR §§ 0.111, 0.311, 1.1, and 64.6305, this Order is **ADOPTED**.

11. **IT IS FURTHER ORDERED** that each Company named in Appendix A **SHALL FILE** a written response to this Order **within fourteen (14) calendar days** from the date of this Order. The written responses must either inform the Bureau that the Company has corrected the deficiency in its RMD certification or explain why its certification is not deficient.

12. The responses must be mailed to the Office of the Secretary, Federal Communications Commission, 45 L Street NE, Washington, DC 20554, ATTN: Enforcement Bureau – Telecommunications Consumers Division. The responses must also be e-mailed to EnforcementBureauTCD@fcc.gov.

13. **IT IS FURTHER ORDERED** that copies of this Order shall be sent by e-mail and registered mail, return receipt requested, to the robocall mitigation contact (as certified in the RMD) for each Company listed in Appendix A.

14. **IT IS FURTHER ORDERED** that pursuant to section 1.102(b) of the Commission's rules, 47 CFR § 1.102(b), this Order **SHALL BE EFFECTIVE** upon release.
