TECHNOLOGY, AND SPACE BUREAU REMIND GRANDFATHERED FIXED  
SATELLITE SERVICE EARTH STATION LICENSEES TO SUBMIT ANNUAL  
REGISTRATION UPDATES BY DECEMBER 1, 2025**

**GN Docket No. 17-258**

By this Public Notice, the Wireless Telecommunications Bureau, Office of Engineering and Technology, and the Space Bureau (the Bureaus) remind grandfathered Fixed Satellite Service (FSS) earth station licensees that are qualified for protection from Citizens Broadband Radio Service operations under section 96.17 of the Commission's rules of their annual registration requirements.<sup>1</sup> *All registrations must be renewed annually by December 1, 2025, for the registration to be valid at the beginning of next year, January 1, 2026.*<sup>2</sup> Registrations must be submitted via the 3.5 GHz FSS Database.<sup>3</sup>

After January 1, 2026, registrations that have not been completed may be deactivated or deleted, and the site will no longer merit protection by the Spectrum Access System (SAS) administrators. Consistent with established policy, the Bureaus will continue to accept late-filed registrations and renewals, including registrations submitted after deactivation, and the SAS administrators will reinstate protections as soon as reasonably practicable after filing.<sup>4</sup>
