PUBLIC SAFETY AND HOMELAND SECURITY BUREAU TO HOST A CYBERSECURITY WORKSHOP FOR BROADCASTERS ON MAY 14, 2026

By this Public Notice, the Public Safety and Homeland Security Bureau announces that the Commission will host a cybersecurity workshop for broadcasters featuring speakers from the FCC, federal partners, and industry experts. The event will bring together public- and private-sector representatives to raise awareness of emerging cybersecurity risks, share and promote adoption of best practices, and highlight opportunities for public-private partnership on cybersecurity issues facing broadcasters. Panelists and presenters will offer practical guidance for leaders, engineers, and executives—particularly at small- and medium-sized broadcasters—to strengthen cybersecurity and improve incident response across the broadcast ecosystem.

The workshop will start at 10:00am EDT on Thursday, May 14, 2026. **Registration is free and is open to the public.** Members of the public may attend this event either in person at 45 L St NE, Washington, DC 20554 in the Commission Meeting Room or remotely via livestream at fcc.gov/live. We request that both remote and in-person members of the public register in advance to attend the roundtable by using the following: <https://www.fcc.gov/form/public-safety-homeland-security>. For additional information about the workshop, please contact George Weber (George.Weber@fcc.gov) or Zoe Li (Zoe.Li@fcc.gov), Attorney Advisors in the Cybersecurity and Communications Reliability Division of the Public Safety and Homeland Security Bureau.

Reasonable accommodations for people with disabilities are available upon request.
