FCC'S PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ANNOUNCES CONDITIONAL APPROVAL AND EXEMPTION OF CERTAIN UNCREWED AIRCRAFT SYSTEMS AND ROUTERS FROM FCC COVERED LIST

WC Docket No. 18-89, ET Docket No. 21-232, EA Docket No. 21-233

The Federal Communications Commission's (FCC or Commission) Public Safety and Homeland Security Bureau (PSHSB or Bureau) maintains a list of equipment and services (Covered List) that have been determined to "pose an unacceptable risk to the national security of the United States or the security and safety of United States persons."¹ Pursuant to section 2 of the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act)² and sections 1.50002(a) and 1.50003 of the Commission's rules,³ PSHSB announces that the Department of War (DoW) has granted Conditional Approvals for certain uncrewed aircraft systems (UAS) and routers. Therefore, such devices are exempt from the Covered List.

Additions of UAS and UAS Critical Components, and Routers to the Covered List:

UAS and UAS Critical Components. On December 22, 2025, PSHSB issued a Public Notice adding all UAS and UAS critical components produced in a foreign country to the Covered List.⁴ This action was based on a National Security Determination from an Executive Branch interagency body, including several appropriate national security agencies, determining (among other things) that UAS and UAS critical components produced in a foreign country pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons. In that Public Notice, we stated, "[i]f we receive a further specific determination from the Department of War or the Department of Homeland Security that a given UAS, class of UAS, or UAS critical component does not pose unacceptable risks, we will further update the Covered List."⁵

In January 2026, we updated the Covered List to reflect DoW's determinations that, until January 1, 2027, UAS and UAS critical components included on DoW's Blue UAS Cleared List and UAS and

⁵ *UAS Public Notice* at 3.

UAS critical components that qualify as “domestic end products” under the Buy American Standard do not pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons.⁶ In March 2026, we updated the Covered List to reflect the first Conditional Approvals that the FCC received from the DoW, exempting specific UAS and UAS critical components “which have been granted a Conditional Approval by DoW or DHS” from the Covered List.⁷

Routers. On March 23, 2026, the Commission added to the Covered List “routers produced in a foreign country, [except routers which have been granted a Conditional Approval by DoW or DHS](#).”⁸ This addition was based on a National Security Determination from an Executive Branch interagency body, including several appropriate national security agencies, determining (among other things) that routers produced in a foreign country pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons.⁹

Conditional Approvals:

The Executive Branch interagency body established a process by which entities producing UAS and UAS critical components and routers in foreign countries can request DoW or the Department of Homeland Security to evaluate whether such devices do not pose unacceptable risks to national security and receive Conditional Approvals that would exempt such devices from the Covered List. The Commission has updated the Covered List to reflect the Conditional Approvals that we have received from the DoW exempting certain UAS and UAS critical components and routers from the Covered List.¹⁰

DoW has reviewed submissions and granted Conditional Approvals for the following devices:

- ABZ Innovation Kft.’s L50 Uncrewed Aircraft System (terminating December 31, 2026)
- Arcadyan Technology Corporation’s routers for T-Mobile 5G FWA broadband devices, which includes the G5AR, G5MAR, GxMAR, GxMAR-ODU, GxAR Series (5G FWA); AT&T BGW 720; and Verizon C46BE (XC Series), CR100B (WG Series), CE1000A, and E3200 (WE Series) (terminating December 12, 2027)

The Covered List:

We find that each of the Conditional Approvals constitutes “a specific determination” by DoW that such devices do not pose risks to U.S. national security.¹¹ Therefore, we conclude that PSHSB is required to update the Covered List to exclude the equipment identified in these Conditional Approvals.

PSHSB takes this action under its authority and obligation to publish and maintain the Covered List. Sections 1.50002(a) and 1.50003 of the Commission’s rules require PSHSB to publish the Covered

International telecommunications services provided by China Unicom (Americas) Operations Limited subject to section 214 of the Communications Act of 1934.	September 20, 2022
Cybersecurity and anti-virus software produced or provided by Kaspersky Lab, Inc. or any of its successors and assignees.	July 23, 2024
Uncrewed aircraft systems (UAS) and UAS critical components produced in a foreign country ^{††} —except (a) UAS and UAS critical components included on the Defense Contract Management Agency’s (DCMA’s) Blue UAS Cleared List, until January 1, 2027, [#] (b) UAS and UAS critical components that qualify as “domestic end products” under the Buy American Standard, 48 CFR 25.101(a) , until January 1, 2027; and (c) devices which have been granted a Conditional Approval by DoW or DHS —and all communications and video surveillance equipment and services listed in Section 1709(a)(1) of the FY25 National Defense Authorization Act (Pub. L. 118-159).	December 22, 2025 Updated: January 7, 2026 Updated: March 18, 2026
Routers [^] produced in a foreign country, except routers which have been granted a Conditional Approval by DoW or DHS .	March 23, 2026

*The inclusion of producers or providers of equipment or services named on this list should be read to include the subsidiaries and affiliates of such entities.

†Where equipment or services on the list are identified by category, such category should be construed to

include only equipment or services capable of the functions outlined in sections 2(b)(2)(A), (B), or (C) of the Secure and Trusted Communications Networks Act of 2019, 47 U.S.C. § 1601(b)(2)(A)-(C).

††For purposes of inclusion of UAS and UAS critical components, we incorporate the definitions included in the associated [National Security Determination](#).

‡The scope of the Covered List is affected by the [Conditional Approvals](#) that we have received.

#The “Blue UAS list” referred to in the [National Security Determination](#) is the combination of the “Blue UAS Cleared List” at <https://bluelist.appsplatformportals.us/Cleared-List/> and the list of compliant UAS components and software at <https://bluelist.appsplatformportals.us/Framework/>. We use the term “Blue UAS Cleared List” to refer to both lists.

^For purposes of inclusion of routers, we incorporate the definitions included in the associated [National Security Determination](#).
