Streamlined Submarine Cable Landing License Applications **Accepted for Filing**

Unless otherwise specified, the following procedures apply to the applications listed below:

The applications listed below have been found, upon initial review, to be acceptable for filing and subject to the streamlined processing procedures set forth in section 1.767 of the Commission's rules, 47 C.F.R. § 1.767. Pursuant to the Submarine Cable Landing License Act, 47 U.S.C. §§ 34-39, and Executive Order No. 10530, reprinted as amended in 3 U.S.C. § 301, each applicant seeks: (a) the grant of a submarine cable landing license; (b) the modification of a submarine cable landing license; and/or (c) the assignment or transfer of control of an interest in a submarine cable landing license.

Pursuant to its decision in Review of Commission Consideration of Applications under the Submarine Cable Landing License Act, IB Docket No. 00-106, FCC 01-332, 16 FCC Rcd 22167 (2001), and section 1.767 of the rules, the Commission will take action upon these applications within forty-five (45) days after release of this public notice, unless upon further examination an application is deemed ineligible for streamlined processing.

Ex parte communications between outside parties and Commission staff concerning these applications are permitted subject to the Commission's rules for "permit-but-disclose proceedings." See 47 C.F.R. § 1.1206. Unless otherwise specified, interested parties may file comments with respect to these applications within 14 days of this notice. Such filings will not necessarily result in an application being deemed ineligible for streamlined processing.

People with Disabilities: To request materials in accessible formats for people with disabilities (braille, large print, electronic files, audio format), send an e-mail to fcc504@fcc.gov or call the Consumer & Governmental Affairs Bureau at 202-418-0530 (voice). All applications listed are subject to further consideration and review, and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

Transfer of Control

On June 25, 2026, the Commission accepted an application for consent to transfer control (and its amendment, SCL-AMD-20260623-00091), filed by Quintillion Subsea Operations, LLC (Quintillion Subsea), from Q Gateway Ultimate Holdings LLC (Q Gateway) to GCI Holdings, LLC. The notice states that, unless otherwise specified, interested parties may file comments with respect to the application within 14 days of the date of the notice. On June 26, 2026, an interested party, Alaska Communications Systems Holding, Inc. (ACS), filed a motion for a 14-day extension of time to file comments.

We grant in part ACS's request to extend the comment filing deadline for this application. Given the public interest being served by allowing time for development of a record on any issues presented by the proposed transaction, this short extension is warranted. Accordingly, we extend the comment deadline by 7 days. Comments will now be due on July 16, 2026, unless otherwise specified.

REMINDERS:

Applicants must certify that neither the applicant nor any party to the application is subject to a denial of federal benefits by federal and/or state courts under authority granted in 21 U.S.C. § 862. See C.F.R. §§ 1.2001-1.2003.

By this notice, we inform the public that submarine cable landing license applications that are part of larger transactions involving multiple Commission licenses or authorizations may involve "extraordinary circumstances" as referenced in Review of Commission Consideration of Applications under the Submarine Cable Landing License Act, Report and Order, 16 FCC Rcd 22167 (2001) and Rules and Policies on Foreign Participation in the U.S. Telecommunications Market, Report and Order and Order on Reconsideration, 12 FCC Rcd 23891 (1997), paras. 327-28, Order on Reconsideration, 15 FCC Rcd 18158 (2000). Additionally, extraordinary circumstances result where Executive Branch agencies petition the Commission to defer action on an application pending the resolution of potential national security, law enforcement, foreign policy and trade policy issues. Accordingly, these applications may be removed from streamlined processing and may not be acted on within the 90-day review period that the Commission has established as the period of time normally required to reach a decision on non-streamlined submarine cable landing licenses. This notice shall serve as public notice to applicants that, in these circumstances, additional time may be required for Commission review and final action. No additional formal public notice will be provided routinely with respect to specific applications in the

event that the applicable review period extends beyond 90 days.
