## **THE FEDERAL COMMUNICATIONS COMMISSION MODIFIES THE AREA OF ACTIVATION OF THE DISASTER INFORMATION REPORTING SYSTEM AND MANDATORY DISASTER RESPONSE INITIATIVE FOR COMMUNICATIONS IMPACTED BY WINTER STORM FERN**

On January 23, 2026, the Public Safety and Homeland Security Bureau (PSHSB), in coordination with the Federal Emergency Management Agency (FEMA), announced the activation of the Disaster Information Reporting System (DIRS) and the Mandatory Disaster Response Initiative (MDRI) in certain counties in states impacted by Winter Storm Fern.<sup>1</sup> On January 24, 2026, the FCC announced the expansion of this activation to include additional counties in Georgia, Maryland, Mississippi, New Jersey, New York, Virginia, and West Virginia.<sup>2</sup> By this Public Notice, PSHSB expands the activation of DIRS and the MDRI in the below-referenced areas at the request of the Commonwealth of Kentucky, and deactivates DIRS and the MDRI in the below-referenced areas of South Carolina, in response to Winter Storm Fern.

### **ADDITIONAL COUNTIES FOR DIRS ACTIVATION INCLUDE:**

**Kentucky:** Bath, Bourbon, Boyd, Carter, Clark, Elliott, Fleming, Greenup, Harrison, Lewis, Mason, Nicholas, Robertson, Rowan, and Scott

DIRS is a web-based system that communications providers, including wireless, wireline, broadcast, cable, and interconnected Voice over Internet Protocol (VoIP) providers use to report communications infrastructure status and situational awareness information during times of crisis.

The Commission requests that communications providers that provide service to any areas listed below expeditiously submit and update information through DIRS regarding, *inter alia*, the status of their communications equipment, restoration efforts, and power (*i.e.*, whether they are using commercial power or back-up power). Communications providers can accomplish this by accessing DIRS at <https://www.dirs.fcc.gov>. Providers that have not previously done so will be asked to first provide contact information and obtain a User ID when they access DIRS. There is a link on the login page that will allow them to obtain the User ID and password. If a user does not remember their password, they should use the forgotten password link on the login page. If any user has any problems accessing DIRS, please contact any of the numbers listed below.

<sup>1</sup> *The Federal Communications Commission Activates the Disaster Information Reporting System (DIRS) and the Mandatory Disaster Response Initiative (MDRI) In Response To Winter Storm Fern*, Public Notice, DA 26-77 (PSHSB Jan. 23, 2026).

<sup>2</sup> *The Federal Communications Commission Announces the Expansion of the Disaster Information Reporting System and the Mandatory Disaster Response Initiative For Communications Impacted By Winter Storm Fern*, Public Notice, DA 26-83 (PSHSB Jan. 24, 2026).

In DIRS, this activation has the following name: WINTER STORM FERN. DIRS reports are due by **9:00 a.m. EST on Monday, January 26, 2026, and each day thereafter by 9:00 a.m. EST until DIRS is deactivated.** Cable communications providers, wireless service providers, wireline communications providers, and interconnected VoIP providers are not required to make submissions in the Network Outage Reporting System (NORS) pertaining to any incidents that arise during the DIRS activation that are timely reported in DIRS.<sup>3</sup> To promote a comprehensive and effective disaster response, PSHSB encourages other communications providers to voluntarily report in DIRS using forms applicable to their infrastructure.

## **MDRI EXPANDED TO INCLUDE COUNTIES IN KENTUCKY**

As a result of PSHSB's expansion of the DIRS activation area, the MDRI has also been expanded to include the below-referenced areas in response to Winter Storm Fern.

### **ADDITIONAL COUNTIES FOR MDRI ACTIVATION INCLUDE:**

**Kentucky:** Bath, Bourbon, Boyd, Carter, Clark, Elliott, Fleming, Greenup, Harrison, Lewis, Mason, Nicholas, Robertson, Rowan, and Scott

Upon the release of this Public Notice, all facilities-based mobile wireless providers operating in such areas are required to (1) provide for reasonable roaming under disaster arrangements when technically feasible; (2) activate mutual aid arrangements with other facilities-based mobile wireless providers; (3) take reasonable measures to enhance municipal preparedness and restoration; (4) take reasonable measures to increase consumer readiness and preparation; and (5) take reasonable measures to improve public awareness and stakeholder communications on service and restoration status.<sup>4</sup> Facilities-based mobile wireless providers that serve the above-referenced areas and that have provided contact information in DIRS will be individually notified that the MDRI has been activated in their area.

PSHSB will announce when the MDRI has been deactivated by subsequent Public Notice. Providers should familiarize themselves with the Commission's MDRI requirements.<sup>5</sup> Details on the Mandatory Disaster Response Initiative can be found on the FCC website at <https://www.fcc.gov/wireless-network-resiliency-during-disasters>.

## **DEACTIVATION OF DIRS AND MDRI IN CERTAIN COUNTIES IN SOUTH CAROLINA**

Also by this Public Notice, the Federal Communications Commission (Commission), at the request of the State of South Carolina and in coordination with the Federal Emergency Management Agency (FEMA), is announcing the deactivation of the Disaster Information Reporting System (DIRS) and the Mandatory Disaster Response Initiative (MDRI) for the following counties in South Carolina impacted by Winter Storm Fern:

**South Carolina:** Bamberg, Beaufort, Berkeley, Charleston, Clarendon, Colleton, Dorchester, Florence, Georgetown, Hampton, Horry, Jasper, and Marion
