FCC'S PUBLIC SAFETY AND HOMELAND SECURITY BUREAU ANNOUNCES CONDITIONAL APPROVAL AND EXEMPTION OF CERTAIN UNCREWED AIRCRAFT SYSTEMS AND ROUTERS FROM FCC COVERED LIST

WC Docket No. 18-89, ET Docket No. 21-232, EA Docket No. 21-233

The Federal Communications Commission's (FCC or Commission) Public Safety and Homeland Security Bureau (PSHSB or Bureau) maintains a list of equipment and services (Covered List) that have been determined to "pose an unacceptable risk to the national security of the United States or the security and safety of United States persons."¹ Pursuant to section 2 of the Secure and Trusted Communications Networks Act of 2019 (Secure Networks Act)² and sections 1.50002(a) and 1.50003 of the Commission's rules,³ PSHSB announces that the Department of War (DoW) has granted Conditional Approvals for certain uncrewed aircraft systems (UAS) and routers. Therefore, such devices are exempt from the Covered List.

Additions of UAS and UAS Critical Components, and Routers to the Covered List:

UAS and UAS Critical Components. On December 22, 2025, PSHSB issued a Public Notice adding all UAS and UAS critical components produced in a foreign country to the Covered List.⁴ This action was based on a National Security Determination from an Executive Branch interagency body, including several appropriate national security agencies, determining (among other things) that UAS and UAS critical components produced in a foreign country pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons. In that Public Notice, we stated, "[i]f we receive a further specific determination from the Department of War or the Department of Homeland Security that a given UAS, class of UAS, or UAS critical component does not pose unacceptable risks, we will further update the Covered List."⁵

In January 2026, we updated the Covered List to reflect DoW's determinations that, until January 1, 2027, UAS and UAS critical components included on DoW's Blue UAS Cleared List and UAS and

For the current version of the Covered List, see Federal Communications Commission, *List of Equipment and Services Covered By Section 2 of The Secure Networks Act*, <https://www.fcc.gov/supplychain/coveredlist> (last updated Aug. 21, 2026).

UAS critical components that qualify as “domestic end products” under the Buy American Standard do not pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons.⁶ In March 2026, we updated the Covered List to reflect the first Conditional Approvals that the FCC received from the DoW, exempting specific UAS and UAS critical components “which have been granted a Conditional Approval by DoW or DHS” from the Covered List.⁷ Additionally, on June 15, 2026, based on a National Security Determination from DoW, PSHSB updated the Covered List to exempt “Toy Drones” as defined in the National Security Determination and “Toy Drones that contain foreign-produced components.”⁸

On July 21, 2026, we updated the Covered List to reflect DoW’s determination that extended timelines for the exemption of UAS and UAS critical components included on DoW’s Blue UAS Cleared List and UAS and UAS critical components that qualify as “domestic end products” under the Buy American Standard to January 1, 2028.⁹ We also updated the Covered List to reflect DoW’s determination that Conditional Approvals for foreign-produced UAS and UAS critical components will not terminate on December 31, 2026, so long as the applicant complies with its approved onshoring plan and updated vetting of the products.¹⁰ Additionally, under DoW’s determination, a Conditional Approval will terminate—and the device will be restored to the Covered List—if the applicant fails to adhere to the onshoring plan or if the U.S. Government discovers any false statements or misrepresentations in the application.¹¹

Routers. On March 23, 2026, the Commission added to the Covered List “routers produced in a foreign country, [except routers which have been granted a Conditional Approval by DoW or DHS](#).”¹² This addition was based on a National Security Determination from an Executive Branch interagency body, including several appropriate national security agencies, determining (among other things) that routers produced in a foreign country pose an unacceptable risk to the national security of the United States and to the safety and security of U.S. persons.¹³

Conditional Approvals:

The Executive Branch interagency body established a process by which entities producing UAS and UAS critical components and routers in foreign countries can request DoW or the Department of Homeland Security to evaluate whether such devices do not pose unacceptable risks to national security

and receive Conditional Approvals that would exempt such devices from the Covered List. The Commission has updated the Covered List to reflect the Conditional Approvals that we have received from the DoW exempting certain UAS and UAS critical components and routers from the Covered List.¹⁴

DoW has reviewed submissions and granted Conditional Approvals for the following devices:

- Ascento, Inc.'s Ascento Guard Dori USA v1 Uncrewed Aircraft System¹⁵
- WNC Corporation's LVR5A, LVM9, and LV85C Wi-Fi Routers (terminating February 21, 2028)

The Covered List:

We find that each of the Conditional Approvals constitutes "a specific determination" by DoW that such devices do not pose risks to U.S. national security.¹⁶ Therefore, we conclude that PSHSB is required to update the Covered List to exclude the equipment identified in these Conditional Approvals.

PSHSB takes this action under its authority and obligation to publish and maintain the Covered List. Sections 1.50002(a) and 1.50003 of the Commission's rules require PSHSB to publish the Covered List on the Commission's website, to maintain and update the Covered List, and to monitor the status of determinations.¹⁷

The Covered List and the list of devices that have received Conditional Approvals are attached as Appendices A and B to this Public Notice and can also be found on the Bureau's website at <https://www.fcc.gov/supplychain/coveredlist>.¹⁸

We note the continued availability of FCC staff guidance pursuant to sections 0.191 and 0.31(i) of the Commission's rules. Commission staff will provide guidance to TCBs, test labs, and equipment authorization applicants on the impact of these updates.

The list of devices that have received Conditional Approvals can be found on the Bureau's website at <https://www.fcc.gov/supplychain/coveredlist>.

¹⁵ Consistent with DoW's determination announced in the *UAS Extension Public Notice*, the Conditional Approval will remain effective indefinitely, so long as the entity that received Conditional Approval abides by the onshoring plan outlined in its Conditional Approval application and pursuant to updated vetting of the products.

The list of affiliates and subsidiaries does not constitute a comprehensive list of all entities that the Commission may find, upon further examination, to qualify as relevant subsidiaries or affiliates of entities on the Covered List. Those entities, whether or not they currently provide covered communications equipment or services, are subject to the Commission's prohibitions, such as the prohibition against obtaining authorizations for covered equipment. *The inclusion of producers or providers of equipment or services named on this list should be read to include the subsidiaries and affiliates of such entities.

†Where equipment or services on the list are identified by category, such category should be construed to include only equipment or services capable of the functions outlined in sections 2(b)(2)(A), (B), or (C) of the Secure and Trusted Communications Networks Act of 2019, 47 U.S.C. § 1601(b)(2)(A)-(C).

±The scope of the Covered List is affected by the [Conditional Approvals](#) that we have received.

††For purposes of inclusion of UAS and UAS critical components, we incorporate the definitions included in the associated [National Security Determination](#).

#The “Blue UAS list” referred to in the [National Security Determination](#) is the combination of the “Blue UAS Cleared List” at <https://bluelist.appsplatformportals.us/Cleared-List/> and the list of compliant UAS components and software at <https://bluelist.appsplatformportals.us/Framework/>. We use the term “Blue UAS Cleared List” to refer to both lists.

^For purposes of inclusion of routers, we incorporate the definitions included in the associated [National Security Determination](#).

³For purposes of inclusion of advanced robotic devices, we incorporate the definitions included in the associated [National Security Determination](#).

£For purposes of inclusion of power inverters, we incorporate the definitions included in the associated [National Security Determination](#).
