NOTICE OF PROPOSED RULEMAKING

Adopted: August 27, 2026**Released: August 27, 2026****Comment Date: [30 days after date of publication in the Federal Register]****Reply Comment Date: [45 days after date of publication in the Federal Register]**

By the Chief, Video Division, Media Bureau:

I. INTRODUCTION

1. The Video Division, Media Bureau (Bureau), has before it a petition for rulemaking (Petition)¹ filed by One Ministries, Inc. (Petitioner), the licensee of NCE television station KEDS(TV) (KEDS or Station) (Facility ID No. 791702), Colusa, California (Colusa).² The Petitioner requests the substitution of UHF channel *14 in place of its current VHF channel *2 at Colusa in the Table,³ with the technical parameters specified in the Petition.

II. BACKGROUND

2. In support of its channel substitution request, the Petitioner asserts that allowing the Station to move to a UHF channel would serve the public interest by improving signal reception for viewers.⁴ The Petitioner observes that the Commission has recognized that “VHF channels have certain characteristics that have posed challenges for their use in providing digital television service,” including “propagation characteristics [that] allow undesired signals and noise to be receivable at relatively farther distances.”⁵ Additionally, the Petitioner notes that the Commission has observed “large variability in the performance (especially intrinsic gain) of indoor antennas available to consumers, with most antennas receiving fairly well at UHF and the substantial majority not so well to very poor at high-VHF.”⁶

3. An engineering statement provided by the Petitioner confirms that the proposed channel

*14 contour would provide full principal community coverage to Colusa.⁷ Further, the proposal to move to channel *14 would not cause any loss of existing service to viewers of KEDS, and would, in fact, increase the population served within the Station's service contour.⁸ Specifically, the proposed channel *14 facility is predicted to serve a total of 3,045,047 persons, a net gain of 451,212 potential viewers over the existing KEDS channel *2 facility.⁹ Indeed, the Petition states that the proposed channel change is predicted to result in a "substantial increase in signal quality for KEDS's coverage area and enable viewers to receive the Station's signal with a significantly smaller indoor antenna."¹⁰ The Petitioner's engineering statement also confirms that the proposed channel substitution contour would not cause impermissible interference to any other licensed facilities.¹¹ The Petition further proposes to increase its effective radiated power from 1.3 to 250 kilowatts (kW) and adjust its height above average terrain (HAAT) from 602 to 656 meters (m).¹²

III. DISCUSSION

4. We believe that the Petitioner's channel substitution proposal for KEDS warrants consideration. KEDS is currently operating on channel *2, and the substitution of channel *14 for channel *2 in the Table will allow the Station to improve its over-the-air reception within its coverage area. We believe channel *14 can be substituted for channel *2 at Colusa, as proposed, in compliance with the principal community coverage requirements of section 73.618(a) of the Commission's rules (Rules),¹³ at coordinates 39° 12' 20.0" N and 121° 49' 14.0" W. In addition, the proposed channel substitution would not cause any loss of service, and would increase the population served within the Station's service contour. Finally, we find that this channel change meets the technical requirements set forth in section 73.622(a) of the Rules.¹⁴

5. We propose to substitute UHF channel *14 for VHF channel *2 for KEDS at Colusa with the following specifications:

<u>City and State</u>	<u>Channel</u>	<u>Power (kW)</u>	<u>Antenna HAAT (m)</u>
Colusa, California	*14	250	656

6. Accordingly, we seek comment on the proposed amendment of the Table, section 73.622(j) of the Rules,¹⁵ for the community listed below, to read as follows:

<u>City and State</u>	<u>Channel No.</u>	
	<u>Present</u>	<u>Proposed</u>
Colusa, California	*2	*14
