CORRECTION TO ALASKA CONNECT FUND INITIAL ELIGIBLE-AREAS MAP, V.1.3

WC Docket No. 23-328

On July 6, 2026, the Wireless Telecommunications Bureau, in coordination with the Office of Economics and Analytics, published the Initial Eligible-Areas (EA) Map, v.1.3, as announced in Public Notice, DA 26-664. The Initial EA Map, v.1.3, is corrected to remove Arctic Slope Telephone Association Cooperative (ASTAC) as a mobile provider that receives universal service support from three hex-9s. The Initial EA Map, v.1.3, is also corrected to classify 69 hex-9s near Katalla, Alaska from permanently ineligible to Cordova Wireless's single-support area and 42 hex-9s from permanently ineligible to "other eligible area." The Initial EA Map, v.1.3, with this correction, can be found at the following link: <https://www.fcc.gov/wireline-competition/alaska-connect-fund#mobile-eligible-areas-map>. The affected hex-9s are listed in the Appendix.
