NOTICE OF VIOLATION

Released: September 3, 2026

By the Regional Director, Region One, Enforcement Bureau:

1. This is a Notice of Violation (Notice) issued pursuant to section 1.89 of the Commission's rules¹ to Zamora Broadcasting Systems, Inc. (Zamora), licensee of FM translator radio station W300DI in Dearborn, Michigan (Station). Pursuant to section 1.89(a) of the Commission's rules, issuance of this Notice does not preclude the Enforcement Bureau from further action if warranted, including issuing a Notice of Apparent Liability for Forfeiture for the violations noted herein.²

2. On July 15, 2026, in response to a complaint, an agent of the Enforcement Bureau's Columbia Office inspected radio station W300DI, located at 13961 Turner Avenue, Detroit, Michigan (42°23'22" N, 083°08'53" W) and observed the following violations:

- a. 47 CFR § 74.1251(b)(2): "Formal application on FCC Form 349 is required of all permittees and licensees for any of the following changes: (2) A change in the transmitting antenna system, including the direction of radiation or directive antenna pattern." The Station is authorized to operate with a log periodic SCA Two Skewed CL-FM (V) S antenna at azimuths of 30 degrees and 270 degrees.³ At the time of inspection, the agent observed the Station operating with an antenna array comprised of three Aldena AST.05.02.336 antennas oriented in directions of 50 degrees, 140 degrees, and 235 degrees. Zamora's array deviated from and failed to maintain the authorized antenna pattern, as the antenna oriented at 140 degrees could not produce the required null in that direction. Furthermore, the Station failed to file the necessary FCC Form 349 application for authorization to change its transmitting antenna system from the Commission-authorized system required by its license.

¹ 47 CFR § 1.89.

² 47 CFR § 1.89(a).

- b. 47 CFR § 74.1235(e): “In no event shall a station authorized under this subpart be operated with a transmitter power output (TPO) in excess of the transmitter certificated rating. A station authorized under this subpart for a TPO that is less than its transmitter certificated rating shall determine its TPO in accordance with § 73.267 of this chapter and its TPO shall not be more than 105 percent of the authorized TPO.” According to its license, the Station is authorized to operate with a transmitter output power (TPO) of 38 Watts. During the inspection, the agent observed that the Station was operating a RVR Electronica TEX150LCD transmitter with a TPO of 150.0 Watts, which is 394 percent of the authorized TPO.
3. Pursuant to section 308(b) of the Communications Act of 1934, as amended (Act), and section 1.89 of the Commission’s rules, we seek additional information concerning the violations and any remedial actions taken.⁴ Therefore, Zamora must submit a written statement concerning this matter within twenty (20) days of release of this Notice. The response (i) must fully explain each violation, including all relevant surrounding facts and circumstances, (ii) must contain a statement of the specific action(s) taken to correct each violation and preclude recurrence, and (iii) must include a time line for completion of any pending corrective action(s). The response must be complete in itself and must not be abbreviated by reference to other communications or answers to other notices.⁵
4. In accordance with section 1.16 of the Commission’s rules, we direct Zamora to support its response to this Notice with an affidavit or declaration under penalty of perjury, signed and dated by an authorized officer of Zamora with personal knowledge of the representations provided in Zamora’s response, verifying the truth and accuracy of the information therein, and confirming that all of the information requested by this Notice which is in the licensee’s possession, custody, control, or knowledge has been produced.⁶ To knowingly and willfully make any false statement or conceal any material fact in reply to this Notice is punishable by fine or imprisonment under title 18 of the U.S. Code.⁷
5. All replies and documentation sent in response to this Notice should be marked with the File Number, specified above, and mailed to the following address:
